संदेश

पशुपालन भारतीय ग्रामीण अर्थव्यवस्था की रीढ़ है। कुल जीवीए में लगभग 4.1% का योगदान पशुधन क्षेत्र द्वारा दिया जाता है और यह ग्रामीण समुदायों की आय सृजन में सहायता करता है। पशुपालकों के कल्याण के लिए विभाग विभिन्न योजनाएं कार्यान्वित कर रहा है। इस विभाग की प्रत्येक योजना को तैयार करने का मूल डाटा स्रोत पशुधन संगणना है। पशुधन संगणना विभिन्न पशुओं की आबादी के डाटा का मुख्य और महत्वपूर्ण स्रोत है। संगणना सभी राज्यों और संघ शासित क्षेत्रों के सहयोग से समय-समय पर आयोजित की जा रही है। वर्तमान रिपोर्ट 20वीं पशुधन संगणना का सार है। इस संगणना की विशेषता यह है कि देश भर में टैबलेट कंप्यूटरों का उपयोग करके की जाने वाली यह पहली संगणना है। मैं, सभी राज्यों और संघ शासित क्षेत्रों के पशुपालन और डेयरी विभागों को नई तकनीक का उपयोग करने और संगणना में आने वाली व्यावहारिक चुनौतियों का सफलतापूर्वक सामना करने के लिए बधाई देता हूं। इसके साथ ही मैं इस दस्तावेज का समयबद्ध प्रकाशन सुनिश्चित करने के लिए भी विभाग के अधिकारियों की टीम को धन्यवाद देता हूं।

मुझे आशा है कि पशुधन क्षेत्र के उत्तरोत्तर विकास हेतु यह रिपोर्ट सभी हितधारकों के लिए अत्यंत उपयोगी साबित होगी।

MESSAGE

Animal Husbandry Statistics is the backbone of policy formulation as well as implementation of various programmes in the Animal Husbandry sector. The major source of Animal Husbandry Statistics is Livestock Census. Livestock Census is a massive door to door field operation in which the data were collected from every household taking actual count of domestic animals and birds to finally assess the total livestock wealth of our Nation. It is a matter of proud that in the current 20th Livestock Census we have collected data with the use of mobile technology through tablet computers and further transmitting the data online. This publication carries the results of 20th Livestock Census conducted in participation with all States and Union Territories. I congratulate the entire team including the officials of State Animal Husbandry Departments for their committed efforts in completing the Livestock Census operations. I hope that this publication would be highly useful for the policy makers and planners researchers for the development of livestock sector.

FOREWORD

The livestock rearing is an indispensable part for the rural community, especially for the small and marginal farmers. For planning purposes, there is a need for up to date and reliable data. Livestock Census is a complete enumeration process whereby data on number of livestock along with their sex composition, age distribution, utility wise distribution etc. are generated. The present report provides detailed data of the 20th Livestock Census conducted across the country covering States and Union Territories. I am happy that there has been a significant improvement in all aspects of Census work, viz. data collection, processing and tabulation.

It is a matter of proud that for first time the Census was conducted with the use of tablet computers. Keeping in view the ongoing trend of the use of advanced IT technology especially the mobile technology, the initiatives done under the 20th Livestock Census is worth to be noted. We may have to accept the fact that despite having some administrative challenges regarding procurement of tablets, connectivity etc, the 20th Livestock Census successfully captured information of about 27 Crore of households and non-households that helps assessing the exact count of domesticated animals and birds. Such a huge data will be of great use for all stakeholders and instill the interest of the researches in using various parameters in it for the developmental activities of animal husbandry sector.

Thanks are due to the officials and staff of the Animal Husbandry Departments of States and UTs without whose whole hearted cooperation this Census could not have been undertaken. I would also like to congratulate the team of officers and staff of Animal Husbandry Statistics Division in the Department under the able leadership of Shri P.K De, Adviser(Statistics) for their untiring efforts in bringing out this voluminous and useful publication.

I, sincerely hope that the report will be useful to all stakeholders, for planning and policy making purposes and also for research and academic purpose. I would also invite critical comments and suggestions on their report in order that the same could be useful in helping us to bring out further improvement in the conduct of Livestock Census.

PREFACE

The Livestock Sector plays a significant role for the welfare of rural population of India. Livestock is also important as a part of agricultural diversification and income enhancement and also for crucial nutritional value. Sound and timely available database are the basic requirement for any planning and policymaking purpose. The conduct of Livestock Census is thus essential for making plans and policies for growth of Livestock Sector and also for overall growth of the economy. Livestock Census in our country started in the year 1919 and since then the process has been continuing.

20th Livestock Census was conducted during the year 2018-19. The uniqueness of the Twentieth Livestock Census was that for the first the country went with adopting tablet computers for the conduct of the Census. Enumeration was done in almost all villages and urban wards of India. Various species of animals (cattle, buffalo, mithun, yak, sheep, goat, pig, horse, pony, mule, donkey, camel, dog, rabbit and elephant)/poultry birds (fowl, duck and other poultry birds) possessed by the household/household enterprises/non-household enterprises were counted at the site. The 20th Livestock Census was designed to capture breed-wise number of animals and poultry birds and this will definitely help to understand the population dynamics of each State and UT. Considering the importance of identification of breeds this time data were collected by the team of veterinary/para-veterinary experts using tablet computers and data collected were transferred online to the NIC server.

It is worth to note that this is the first Livestock Census conducted with the use of tablet computers and with the android based Mobile Application developed by NIC. There were challenges during the process of data collection due to various administrative and technical reasons including procurement of tablets, server related issues and natural calamities. Despite having these challenges, the Census was able to collect a huge data of over 27 Crores of households based on which this current report is generated. The present report has been prepared within shortest possible time after completion of fieldwork and contains the State-wise totals of all relevant parameters with rural urban break up.

I express my sincere gratitude to Shri Atul Chaturvedi, Secretary, Department of Animal Husbandry & Dairying, Ministry of Fisheries, Animal Husbandry and Dairying, who encouraged and guided all of us for release of the publication. I also extend my heartfelt gratitude to Shri Tarun Shridhar, former Secretary, Department of Animal Husbandry & Dairying for his keen interest in 20th Livestock Census and becoming a guiding force for meticulous planning for the Census.

Shri Ajith Kumar N, Director, Smt. Veena Dhar, JD(Rtd.), Ms. Priyanka Nigam, Assistant Director, Shri Sunil Kumar, SSO, Shri. P.K Ohri, PS, Smt. Neelu Parashar, PS, Shri Jitender Kumar (Executive Assistant), Shri Hardeep (Office Assistant) and Shri Vijay Karayat (Office Assistant) have worked very sincerely and with great zeal in achieving the target of releasing the result in shortest possible time. Thanks is also due to the team of NIC consisting of Dr. Ranjna Nagpal, DDG, Shri Nagaraj Kulkarni, Sr. Tech. Director, NIC, Shri Sanjay Sharma, Tech. Director, NIC, Smt. Shweta Malhotra, PSA, NIC for their strenuous effort in developing the software. I would also like to convey my appreciation to all officers and staff of State Animal Husbandry Department who took effort and care for completing the Census work.

It is hoped that the publication would be useful to the administrators, planners, veterinarians, scientist and various research organizations/institutions involved in the development of livestock and poultry sectors in addition to the State Departments of Animal Husbandry. Suggestions/comments for improvement in this publication and also for future censuses will be welcomed.

Chapter 1

Introduction

1.1 Overview

Livestock rearing is one of the most important economic activities in the rural areas of the country contributing significantly to the national economy. It provides income to household dependent on agriculture and for many landless households. The livestock also act as a source of protein in the form of milk, egg and meat. Government is continuously trying for bringing further improvements and

developing this sector in the country as an industry. Various schemes have been initiated aimed at increasing the availability of genetically improved livestock and poultry, control of diseases, assisting and encouraging the farmers to go for genetically up-graded animals and assured protection against loss of such animals through an established mechanism.

For proper planning and formulation of any programme meant for bringing further improvement in this sector and its effective implementation and monitoring their impact, data are required at every possible administrative and geographic level. Realizing the importance of this sector and also of timely availability of data, many improvements have been brought into the census.

The Livestock Census conducted periodically is the main source of such data in the country. The census was conducted by Animal Husbandry & Dairying Departments of States/UTs under the central sector scheme with 100% central grant from the Department of Animal Husbandry and Dairying in the Ministry of Fisheries, Animal Husbandry & Dairying. The livestock census in the country started in the year 1919. So far 19 Livestock Censuses had been conducted and the last census was held in the year 2012.

The 20th Livestock Census was conducted between 1st October 2018 to 20th September 2019 for breed-wise number of animals and poultry with their age and sex composition for various species across the country. The Census operations include collection, online validation, supervision and head quarter level monitoring of field work. Software development for data entry, data validation, data

finalization and report generation were carried out in association with National Informatics Centre, Ministry of Information and Communication Technology. Tablets computers were used for collecting data for 20th Livestock Census. Officers and staff associated with census work were provided intensive training for data collection, supervision, processing and data validation. The data were collected from each

household and non-household of both, rural and urban areas. The data were collected through personal visit by the staff of Animal Husbandry Department who are enumerators. Supervision of fieldwork was also done by departmental officers and staff. Instruction manual was also prepared and shared among all the States/UTs.

The enumeration was done in rural villages and urban wards. Various species of animals (Cattle, Buffalo, Mithun, Yak, Sheep, Goat, Pig, Horse, Pony, Mule, Donkey, Camel, Dog, Rabbit and Elephant)/Poultry Birds (Fowl, Duck, Emu, Turkeys, Quail and other poultry birds) possessed by the households, enterprises and institutions were counted at their site. The livestock as well as poultry birds were counted according to their breeds as recognized by National Bureau of Animal Genetic Resources (NBAGR).

1.2 Geographical Coverage of Livestock Census

The census operations were carried out across the country covering about 6.6 lakhs villages and nearly 89062 urban wards. However, the Census could not cover some of the villages/urban wards in States such as Assam and Arunachal Pradesh due to administrative reasons. The report also did not include current population of Delhi as they could not complete the Census operations. The Local Government Directory Prepared by the Ministry of Panchayati Raj for villages in rural area and towns in urban area were used as a base for preparing the master directory for 20th Livestock Census. The master directory has been updated from time to time based on the list received from States. For

the State of Kerala, Panchayat Wards were considered in place of villages in rural area.

The census was conducted simultaneously in all rural and urban areas of the States/UTs. Apart from covering each household, the census was also conducted in the household enterprises as well as non-household enterprises such as farm houses and institutions i.e. cooperative societies, trusts, religious places etc. In the 20th Livestock Census over 26.5 Crores of households and 0.42 Crores of Non-Households have been surveyed across the country.

1.3 Species Covered in Livestock Census

The livestock species such as Cattle, Buffalo, Sheep, Goat, Pig, Horses & Ponies, Mules, Donkeys, Camels, Mithun and Yak are covered in the census. The other species covered in the census are Dogs, Rabbits and Elephants. In the census, head counts have been done for each of these species and recorded in their respective households/household enterprises/non-households enterprises. The characteristics i.e. age, sex distribution and its uses collected for each species are given in the Box 1.1.

Box 1.1

Species	Characteristics	
Exotic, Crossbred & Other Exotic Crossbred Cattle	Male • Up-to 1 ½ year • Over 1 ½ year • Used for Breeding only • Used for agriculture only • Used for both agriculture and breeding • Bullock cart/farm operation • Others	Female • under 1 year, • 1 to 2 ½ years and • Above 2 ½ years. • In milk • Dry • Not calved once • Others
Indigenous Cattle	Male • Up to 2 year • Over 2 years • Used for Breeding only • Used for agriculture only • Used for both agriculture and breeding • Bullock cart/farm operation • Others	Female • under 1 year, • 1 to 3 years and • above 3 years • In milk • Dry • Not calved once • Others
Buffaloes	Male • Up to 2 year • Over 2 year • Used for Breeding only • Used for agriculture only • Used for both agriculture and breeding • Bullock cart/farm operation • Others	Female • Under 1 year, • 1 to 3 years and • above 3 years • In milk • Dry • Not calved once • Others
Sheep and Goat	Male/Female • Under 1 year • 1 year and above • In addition, for Female Goat, 'In milk', 'Dry', 'Not calved once' are also counted separately	
Pig	Male/Female • Under 6 months • Six months and above	
Horses and Ponies	Male/ Female • under 3 years • 3 years and above • For male used for carts/carriage and used for sports	
Donkeys/Mithun/Yak	Male/ Female • under 3 years • 3 years and above	

Species	Characteristics
Mules	- Under 3 years 3 years and above
Camel	Male/ Female - Under 4 Years 4 years and above
Elephant/Dogs/Rabbit	Male/ Female
Poultry	- Fowl (Cocks, Hens, Chickens (below 5 months)) - Ducks (Ducks, Drakes, Ducklings (below 6 months)) - Turkeys (Male, Female) - Other poultry birds (Quails, Gini Fowl, Ostrich, Emu & Geese) - No. of birds in Farms/Hatcheries

Adding more features such as stray cattle and stray dogs is also worth to be mentioned. Considering the difficulty in arriving the exact number of stray cattle and stray dogs, the information on approximate number of stray cattle and stray dogs were collected from a single source in the village/ward such as *Sarpanch/ other panchayat member or patwari* or teacher or other knowledgeable person.

1.4 Important Concepts and Definitions

Some Important concepts and definitions used in Livestock Census are as follows:

Enterprise: An enterprise is an undertaking which is engaged in production and or distribution of some goods and or services meant mainly for the purpose of sale.

Household: A group of persons normally living together and taking food from a common kitchen will constitute a household. Head of household will be that member of the household who is accepted generally as the head of the household by the members of the family. He/she may or may not be the major earning member. It should be left to the members of a household to decide whom they consider to the head of the household.

Household enterprise: A household enterprise is one which is run by one or more members of a household or run jointly by two or more households on partnership basis irrespective of whether the enterprise is located in the premises of the household or not.

Non-household enterprise: A non-household enterprise is one which is institutional i.e. owned and run by the public sector (Central or State Government, local bodies, government undertakings, etc.), private corporate sector (include public and private limited companies registered as joint stock companies under the Companies Act 1956), Co-operative societies, other type of societies, institutions, associations, trusts, etc.

Institution: For the purpose of 20th Livestock Census, Temple, Mosque, Gurudwara, etc. will be covered under Institution.

Indigenous Animals: Animals which belongs to descript/non-descript breeds of indigenous origin.

Exotic Animals: Animals which are developed in other countries are described as exotic animals. The most important exotic dairy cattle breeds in India are Jersey and Holstein Friesian (HF).

Crossbred Animals: Animals which are produced by crossing indigenous animals with exotic breeds or indigenous animals which have exotic inheritance are described as crossbred animals.

Other exotic crossbred Animals: Animals which are born by crossing indigenous animals with exotic breeds other than Jersey and Holstein Friesian (HF), or indigenous animals which have retained inheritance of exotic animals other than Jersey and Holstein Friesian (HF) are classified as other exotic crossbred animals.

Graded Animals: Animals which are born by crossing Indigenous registered pure breed with non-descript/*desi* animals will have genetic preponderance (majority) of the hereditary material of a single purebred but not eligible to be classified as pure Indigenous breed are described as graded animals. i.e. Offspring born as a result of upgrading program / introduction of improver breed in an area.

Non-descript breeds: The Non-descript breeds are those indigenous breeds which cannot be classified as a particular recognized breed *or* do not have more than 50% similarities of any recognized breed.

Animals in milk: Animals in milk production are described as animals in milk.

Dry Animals: Animals which are calved but at present not in production are described as dry animals. Animals that cannot be calved in future are not covered under this category.

Poultry Farms: Farms having more than 1000 birds will be considered as Poultry Farms. Farms having only Emu/Ostrich birds will be considered as farm if having more than 20 birds. However, all government enterprises having poultry are considered as poultry farms irrespective of the number of birds in them.

‘Desi’ and ‘Improved’ poultry birds: If a hen/duck lays more than 100 eggs in a year then it is categorized as ‘improved’ hen/duck or else it is categorized as ‘desi’. If a cock/chicken/drake/duckling falls into the flock of an ‘improved’ hen/duck then it an ‘improved’ cock/chicken/ drake/duckling or else it is ‘desi’.

Slaughter house: A slaughter house is a venture wherein 10 or more than 10 animals are slaughtered per day and is duly licensed or recognized under a Central, State or Provincial Act or any rules or regulations made there under.

Meat/Butcher Shop: A shop where less than 10 animals/poultry birds are slaughtered, dress their flesh, sell their meat or any combination of these three tasks are termed as Meat/Butcher Shop. Some Meat/Butcher Shop sell their dressed meats in specialized stores, commonly termed as Meat/Butcher Shop.

Meat Processing: Preparation of meat for human consumption.

Meat Processing Plant: A licensed manufacturer/processing industries/units process raw meat for future human consumption by preserving and packaging. For census purposes these entities should be listed while house listing is done in Schedule-I within the revenue boundary of the village/urban ward.

Migratory pastoral groups

Migratory pastoral group are nomad who move along and rear their animals in places other than their place of origin. They either as an individual or a group travel across the regions along with their Livestock for their livelihood. The animals belong to these special category is to be counted at the point of contact with the group provided their original/usual place of residence is not known.

Head of the household: Head of the household is one of the members of the household who either is the main income earner of the family or otherwise. The head household shall be determined by the household members.

Stray Cattle and Stray Dogs: The cattle/dogs that do not have any owner and strayed across the road or other public places that usually move or wander without any proper destination or having no shelter. The cattle owned by temples, *Gaushalas* or other institutions as per definitions are not counted as stray cattle.

1.5 Socio Economic Characteristics

In 20th Livestock Census some socio economic characteristics such as occupation, income etc. were also collected and the definitions of these parameters are as under:

Educational level of head of household: The highest educational attainment of the head of household through an institution including schools, colleges, universities etc.

Occupation of the head of household: The main source of livelihood under major time criteria of the head of the household/ house hold members through which a regular earnings are made by the household for their livelihood.

Agriculture holding (in hectare): Agriculture holding is the area of the agriculture land possessed by the head of the household as on the date of census.

Household Annual Income from all sources: The annual income of the household/household members from all the sources.

Availing of Institutional and Financial Support: The head of the household/household members avail any benefits through various welfare schemes of the government for rearing of livestock, poultry or fisheries. For example: Subsidies, loans, financial assistant, insurance etc.

1.6 Human Resources

The 20th Livestock Census was conducted with the active participation of all States / UTs. Nodal Officers were designated for livestock census in each States and UTs. As in the human census, in livestock census too door to door survey was carried out by deploying nearly 82495 enumerators and 19380 supervisors under the supervision of officers of

Department of Animal Husbandry of each State/UTs. In the 20th Livestock Census, for enumeration work, para-veterinarians were deployed as enumerators. Supervisors were mainly from the Department of Animal Husbandry of the respective States/UTs.

1.7 Field Schedules

The data were collected in the form of following schedules. -

- ❖ **Schedule for House listing, information on stray cattle & dogs and registered/unregistered slaughter houses/butcher shops:** This schedule is meant for recording the list of Households, Household Enterprises and Non household Enterprises engaged in both livestock and poultry rearing activities existing in the area under enumeration. Stray dogs, stray cattle, registered/unregistered slaughter houses/butcher shops were also collected through this schedule.
- ❖ **Schedule for livestock and poultry:** This is the main schedule for collecting data on Breeds of various livestock and poultry from every Household/ Household enterprises and Non - household enterprises/Institutions.

These schedules have been suitably framed and made as input forms through android based mobile application.

1.8 Training and Monitoring

Training is an important activity in the Livestock Census. Nearly, 82495 Enumerators and 19380 supervisors were engaged in the field operations by all States/UTs. Trainings were given in different stages. All India Training was conducted at Centre level during July, 2018 at Delhi. A Two-days workshop was also organized to further sensitize the States and also for answering various queries and doubts of the State Governments.

Further, the State Governments also organized State and District level training programmes. E-learning sessions were also organized by NIC in order to make them aware of the use of the mobile application. A Helpdesk was also established for providing immediate solutions of field queries and other issues related to software and server. Time to time video conference were also held for taking stock of progress of 20th Livestock

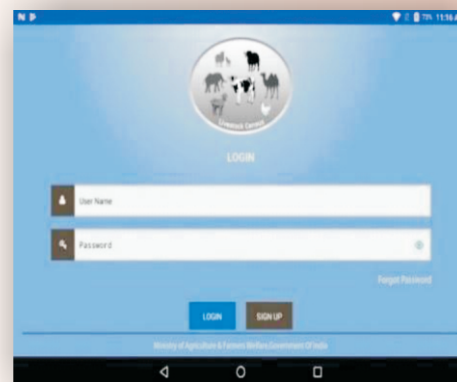

Census and solving various issues faced by the field enumerators and supervisors. Besides, at State level video conferences were organised with all district administrations for training as well as to facilitate close monitoring of Census operations. Monitoring the Census operations at State and Central level were also done through on-line monitoring reports generated upto village levels to assess the completion of households periodically.

1.9 Features of the Software for 20th Livestock Census

The software for 20th Livestock census comprises two applications-

1. Tablet based application
2. Web based application

- 1. Tablet Based application** - Tablet software was developed for android operating system. The software was also provided on google play store and time to time updated versions were also made available. Each enumerator has been provided with a user id- password to login into the tablet based application.

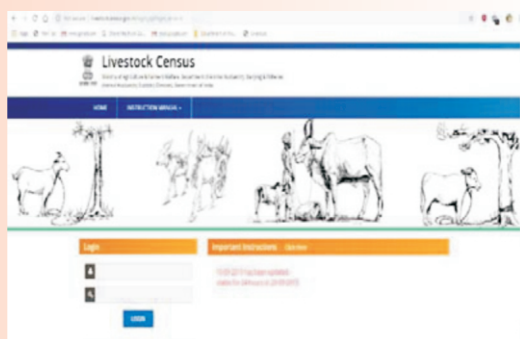

Various forms were developed based on the schedules

of 20th Livestock Census. Forms were interlinked in such a way that only for selected species data could be entered. Entering zero was also made mandatory for those columns which are not applicable in a particular case. Breeds for each State/UT were also linked with that particular State/UT for facilitating every data entry and also ensuring coverage of all State specific breeds. Further, keeping in view the slow network connectivity in remote areas/hilly areas, provision of off-line data collection was also provided. However, to sync the data internet connection was required. The synchronized data were stored in a web server, where enumerator also can check whatever data he synchronized.

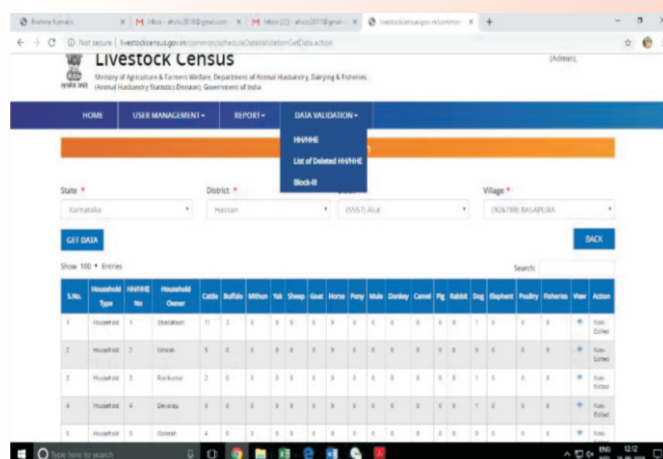

- 2. Web based application** - The data synchronized by the enumerators come to the NIC server.

After completion of the synchronisation, supervisors scrutinize the data for its correctness and if found correct then the supervisor finalizes the data but if incorrect the data was reverted back to the concerned enumerator. After correcting on web server itself, enumerator submits the record to the concerned supervisor.

Apart from this, another level validation of data was also provided in the web-based application through Data Validation programme. Under this module, each supervisor was allowed to correct the wrong entries, if any, made during data finalisation. Using this programme supervisors were allowed to edit the data, delete the duplicate records etc.

Chapter 2

Key Results

Livestock are domesticated animals mainly contributing income to farmers. For arriving at the total livestock count, the species namely Cattle, Buffaloes, Sheep, Goat, Pigs, Horses & Ponies, Mules, Donkeys, Camels, Mithun and Yak were considered in 20th Livestock Census. The key results are summarised as below:

2.1 Highlights

- ❖ The total Livestock population is 536.76 million in the country showing an increase of 4.8% over Livestock Census-2012. The total livestock population in rural and urban area is 514.11 million and 22.65 million respectively with percentage share of 95.78% for rural and 4.22% for urban area.

- ❖ The total livestock population in rural areas has increased by 4.56% and in urban area the increase is 11.19%.
- ❖ Total Bovine population (Cattle, Buffalo, Mithun and Yak) is 303.76 Million in 2019 which shows an increase of 1.3% over the previous census.

- ❖ The total number of cattle in the country is 193.46 million in 2019 showing an increase of 1.3 % over previous Census.
- ❖ The Female Cattle (Cows population) is 145.91 million, increased by 18.6% over the previous census (2012).
- ❖ The Exotic/Crossbred and Indigenous/Non-descript Cattle population in the country is 51.36 million and 142.11 million respectively.

- ❖ The Indigenous/Non-descript female cattle population has increased by 10% in 2019 as compared to previous census.
- ❖ The population of the total Exotic/Crossbred Cattle has increased by 29.3% in 2019 as compared to previous census.
- ❖ There is a decline of 6% in the total Indigenous (both descript and non-descript) Cattle population over the previous census. However, the pace of decline of Indigenous Cattle population during 2012-2019 is much lesser as compared to 2007-12 which was about 9%.

- ❖ The total buffaloes in the country is 109.85 million showing an increase of about 1.1% over previous Census.

- ❖ The total milch animals (in-milk and dry) in cows and buffaloes is 125.75 million, an increase of 6.0 % over the previous census.

- ❖ The total sheep in the country is 74.26 million in 2019, increased by 14.1% over previous Census.

- ❖ The Goat population in the country in 2019 is 148.88 million showing an increase of 10.1% over the previous census.

- ❖ The total Pigs in the country is 9.06 million in the current Census, declined by 12.03% over the previous Census.

- ❖ The total Mithun in the country is 3.9 lakhs in 2019, increased by 29.5% over previous Census.

- ❖ The total Yak in the country is Fifty-Eight Thousand in 2019, decreased by 24.9% over previous Census.

- ❖ The total Horses and Ponies in the country is 3.4 lakhs in 2019, decreased by 45.2% over previous Census.

- ❖ The total population of Mules in the country is Eighty-Four Thousand in 2019, decreased by 57.1% over previous Census.

- ❖ The total population of Donkeys in the country is 1.2 lakhs in 2019, decreased by 61.2% over previous Census.

- ❖ The total Camel population in the country is 2.5 lakhs in 2019, decreased by 37.1% over previous Census.

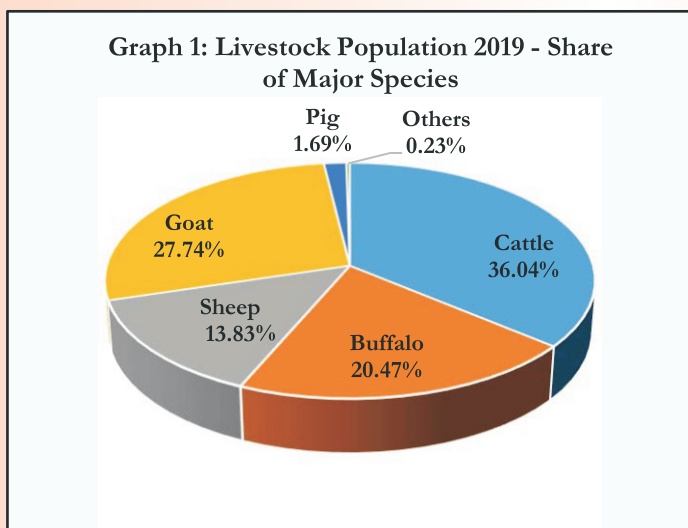

- ❖ The total Poultry in the country is 851.81 million in 2019, increased by 16.8% over previous Census.

- ❖ The total Backyard Poultry in the country is 317.07 million in 2019, increased by 45.8% over previous Census.

- ❖ The total Commercial Poultry in the country is 534.74 million in 2019, increased by 4.5% over previous Census.

2.2 Distribution of Livestock Population

In 20th Livestock Census, 36.04%-Cattle, 27.74%-Goat, 20.47%-Buffaloes, 13.83%-Sheep, 1.69%-Pigs.

Mithun, Yaks, Horses, Ponies, Mules, Donkeys and Camels taken together contribute 0.23% of the total livestock.

2.3 Species-wise Total Livestock Population

Table 1: Livestock Population - Major Species Total

Category	Population (In million) 2012			Population (In million) 2019			% Change*		
	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	Total
Cattle	183.74	7.17	190.90	185.27	8.19	193.46	0.83	14.33	1.34

Total Exotic/Crossbred	36.84	2.89	39.73	47.75	3.61	51.36	29.62	24.62	29.3
Indigenous/Non-Descript									
Male	60.88	1.07	61.95	43.15	0.79	43.94	-29.13	-25.61	-29.1
Female	86.02	3.21	89.22	94.37	3.79	98.17	9.71	18.33	10.0
Total Indigenous/Non-Descript	146.90	4.27	151.17	137.52	4.59	142.11	-6.39	7.36	-6.0

2.7.2 Cattle Population - Milch Cattle

2.7.3 Population of Productive Female Cattle

Table 8: Population of Productive Female Cattle

S.No.	Category	19 th Census- 2012 (In million)	20 th Census- 2019 (In million)	% Change- from 2012 to 2019
i)	Under 1 year	25.07	35.77	42.7
ii)	1 to 2.5/ 3 years	21.23	28.74	35.4
iii)	Over 2.5 (Exotic)/3 years (Indigenous) [excluding others]	75.14	79.39	5.7
iv)	Others	1.54	2.00	29.7
v)	Total female cattle (i+ii+iii+iv)	122.98	145.91	18.6
vi)	Total no. of potentially productive female cattle (v-iv)	121.44	143.91	18.5

- ✚ Total Cattle Population in the country is **193.46 Million** during 2019.
- ✚ About **36%** of the total livestock is contributed by cattle.
- ✚ Total cattle population has increased by **1.3%** over previous Livestock Census (2012).
- ✚ Female cattle population increased by **18.6%** whereas Male cattle decreased by **30.0%** over previous census.
- ✚ Total milch cattle in the country is **74.59 Million** increased by **10.4%** over the previous census.
- ✚ The no. of potentially productive female cattle has increased by **18.5%** over previous census.

2.7.4 Breed group-wise - In-Milk, Dry and Milch Cattle

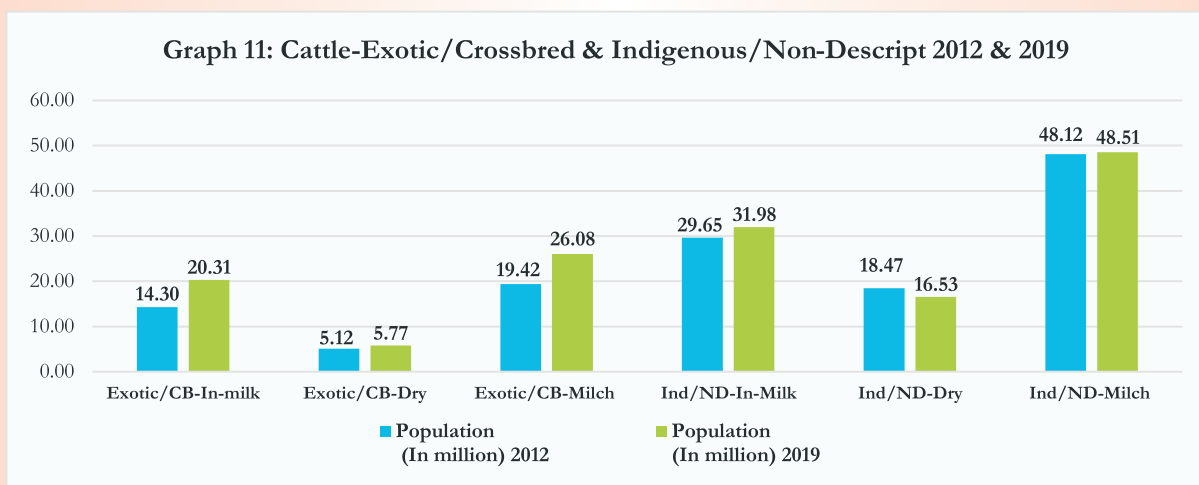

Table 9: In-milk, Dry and Milch Cattle for Exotic/Crossbred and Indigenous/Non-Descript

Breed Group	Category	Population (In million) 2012			Population (In million) 2019			% Change		
		Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	Total
Exotic/ Crossbred	In-milk	13.16	1.15	14.30	18.80	1.51	20.31	42.90	31.49	42.0
	Dry	4.78	0.34	5.12	5.39	0.38	5.77	12.79	11.92	12.7
	Milch	17.94	1.48	19.42	24.19	1.88	26.08	34.88	27.06	34.3
Indigen ous/ Non- descript	In-Milk	28.47	1.17	29.65	30.61	1.37	31.98	7.49	16.84	7.9
	Dry	17.90	0.57	18.47	15.96	0.57	16.53	-10.86	0.38	-10.5
	Milch	46.38	1.75	48.12	46.57	1.95	48.51	0.40	11.46	0.8

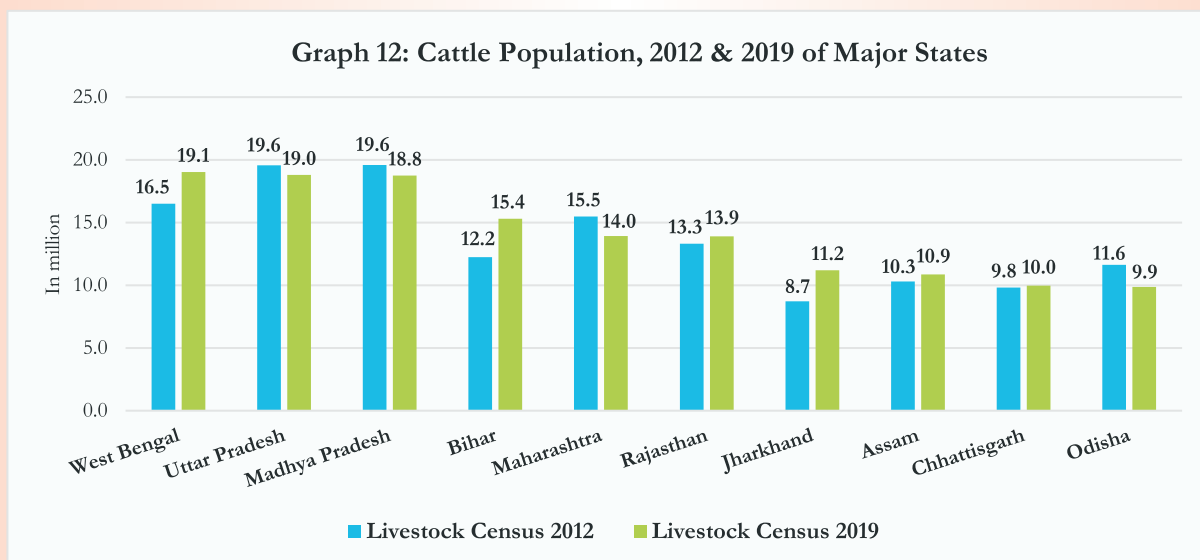

✚ Milch Cattle of Exotic-Crossbred has increased by **34.3%** over previous census.

✚ Milch Cattle of Indigenous/Non-Descript has increased marginally by **0.8%**.

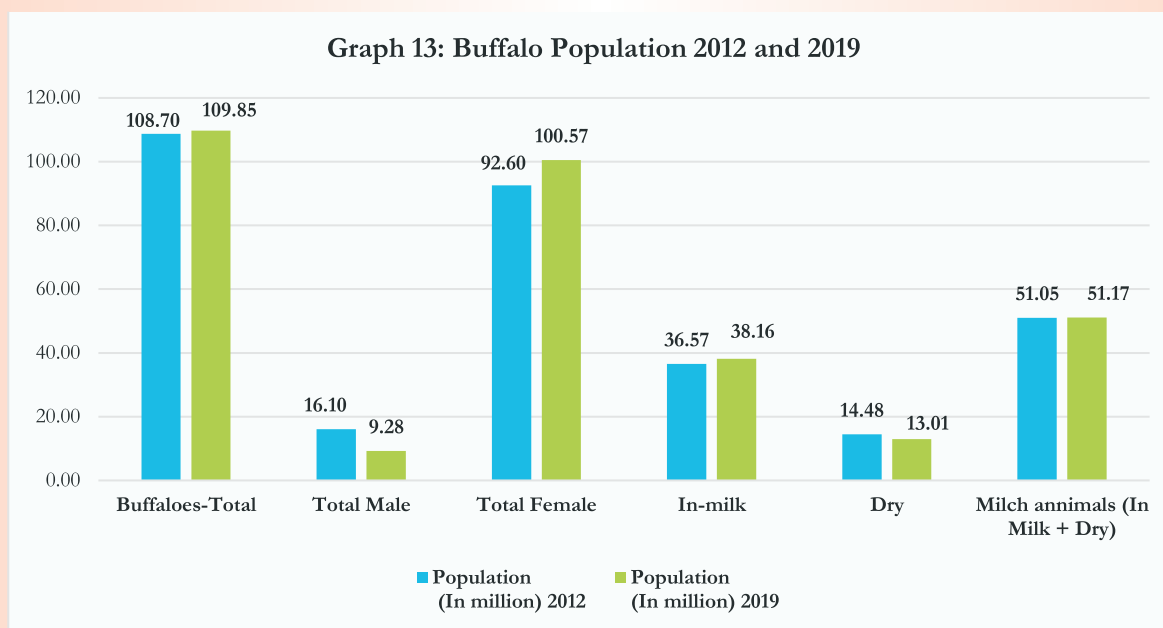

Table 10: Cattle Population, 2012 & 2019 in Major States

S.No.	States	Population (In million) 2012	Population (In million) 2019	% Change
1	West Bengal	16.5	19.1	15.52

- 📊 Total Goat Population in the country is **148.88 Million** during 2019.
- 📊 Total Goat has increased by **10.14%** over previous Livestock Census (2012).
- 📊 About **27.7%** of the total livestock is contributed by goats.
- 📊 Total Goat population in rural area has increased by **10.35%** whereas in urban area the population of goat has increased by **5.78%**.

2.10.2 Goat Population-Major States

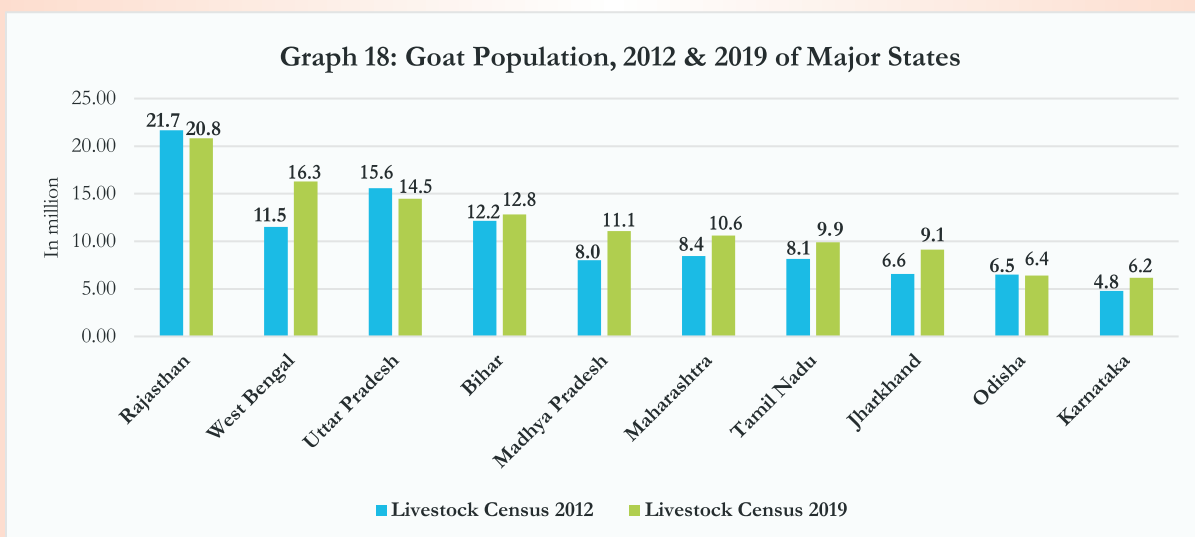

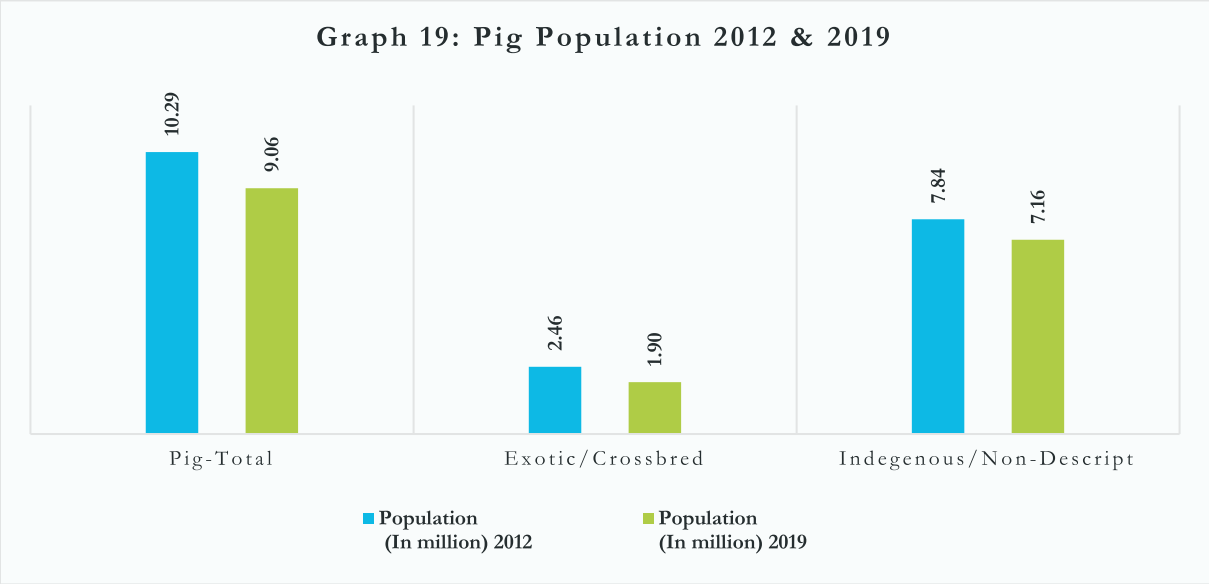

Table 17: Goat Population 2012 & 2019 of Major States

S. No.	States	Population (In million) 2012	Population (In million) 2019	% Change
1	Rajasthan	21.7	20.8	-3.81
2	West Bengal	11.5	16.3	41.49
3	Uttar Pradesh	15.6	14.5	-7.09
4	Bihar	12.2	12.8	5.49
5	Madhya Pradesh	8.0	11.1	38.07
6	Maharashtra	8.4	10.6	25.72
7	Tamil Nadu	8.1	9.9	21.43
8	Jharkhand	6.6	9.1	38.59
9	Odisha	6.5	6.4	-1.84
10	Karnataka	4.8	6.2	28.63

2.11 Pig

2.11.1 Pig Population-Rural and Urban

Table 18: Pig Population 2012 and 2019-Rural and Urban

Category	Population (In million) 2012			Population (In million) 2019			% Change		
	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	Total
Pig-Total	9.23	1.07	10.29	8.17	0.88	9.06	-11.40	-17.44	-12.03
Exotic/ Crossbred	2.13	0.33	2.46	1.63	0.27	1.90	-23.39	-18.80	-22.78
Indigenous/ Non-Descript	7.10	0.74	7.84	6.55	0.61	7.16	-7.81	-16.84	-8.66

- Total Pig population in the country is **9.06 Million** during 2019.
- About **1.7%** of the total livestock is contributed by pigs.
- Total Pig population has decreased by **12.0%** over previous Livestock Census (2012).
- Total Pig population in rural area has decreased by **11.4%** and in urban area the population of pig has decreased by **17.4%**.

2.11.2 Pig Population - Major States

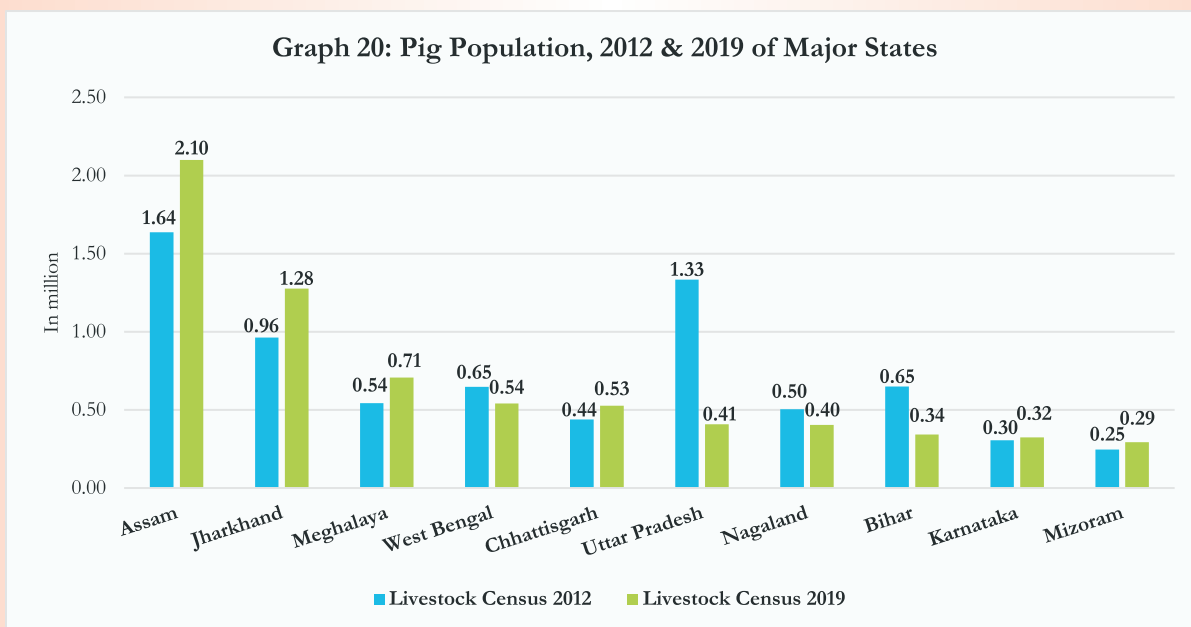

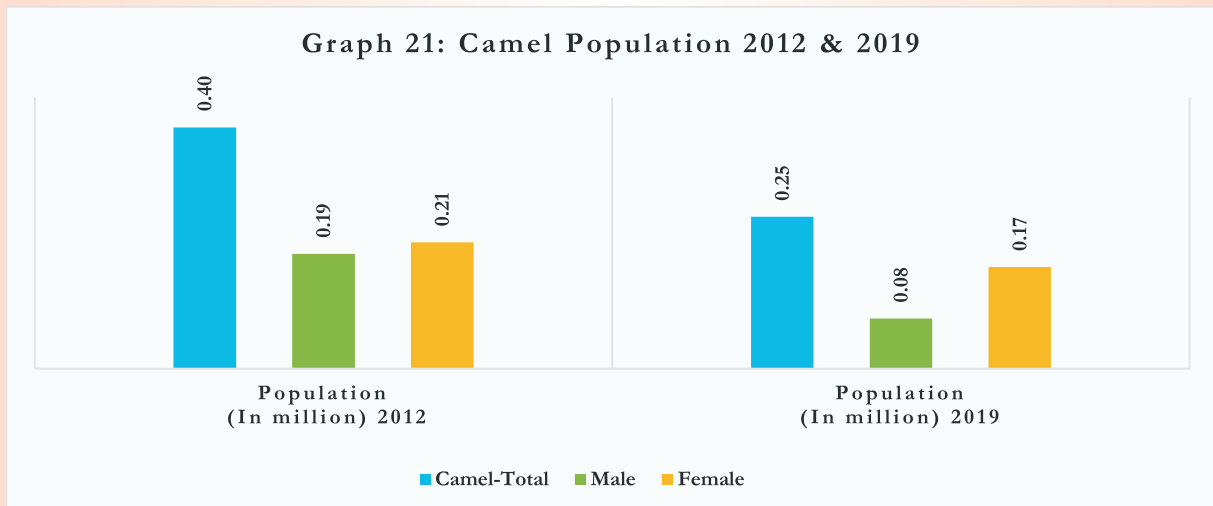

Table 19: Pig Population 2012 & 2019 of Major States

S.No.	States	Population (In million) 2012	Population (In million) 2019	% Change
1	Assam	1.64	2.10	28.30
2	Jharkhand	0.96	1.28	32.69
3	Meghalaya	0.54	0.71	29.99
