17 JAN 2023

## MESSAGE

India is endowed with the largest livestock population in the world comprised of 537 million livestock. Being the largest Milk producer in the world, India has immense resources of Livestock which forms an important segment of the economy livelihood and a steady source of nutrition. Over the period, the contribution of Livestock Sector in the Agriculture Sector has been showing steady improvement that signifies its growing importance in the Indian economy.

The State Governments are also considered as indispensable part of the whole system in achieving the progress towards this Sector. I am happy to share that the Department of Animal Husbandry & Dairying takes painstaking efforts in compiling and publishing this report. "Basic Animal Husbandry Statistics 2022" records the current production estimates and many more statistics that are useful for all stakeholders for planning and policy making purposes as well as for research and academician across the globe. This publication would not have been possible without the active participation of all States/UTs. I hope that the information published in this publication will help to untap the potentiality of Livestock Sector to accomplish the goals of "Atmanirbhar Bharat".

I sincerely congratulate the officials of Department of Animal Husbandry & Dairying for bringing out this Annual Publication on a regular basis.

## MESSAGE

The livestock production plays a integral part of rural economy welling of farmers. It provides food, income, employment and many other contributions to rural development. Animal products such as milk, egg, meat provide much required nutritionand daily cash income. This sector also plays an important role in the national economy and socio-economic development of the country.

The Statistics tools are the important fact-finding machines by which the growth of the sector is presented in a systematic manner. Statistics itself holds great importance for framing policies and programmes of all sectors including Livestock. The Collection of Animal Husbandry Statistics has been undertaken since past in participation with all States/UTs. It is governed by a systematic approach through continuous support from State/UTs and monitoring by the Department of Animal Husbandry & Dairying.

I am pleased to share this the publication titled “**Basic Animal Husbandry Statistics -2022**” with all the stakeholders as it gives an overview of Animal Husbandry sector briefly in terms of statistics. This publication is a compilation of the all-relevant statistics of livestock sector that contains up-to-date information on livestock production, livestock population and other information like livestock diseases, infrastructure, etc.

I wish that this publication will help the readers in getting a detailed overview and the necessary insights. I commend the efforts of the officials of Department of Animal Husbandry & Dairying especially the Animal Husbandry Statistics for bringing out this valuable resource.

## MESSAGE

Livestock rearing is one of the most important economic activities in the rural areas of the country contributing significantly to the national economy. This sector is contributing to the economy in a big way considering the higher rate of growth of the sector in comparison to the general agricultural sector. Presently, the GVA of the Livestock Sector has recorded an annual growth rate of around 6.13% at constant prices. Its contribution to the Indian Agriculture and Indian Economy is increasing steadily with a share of 30.13% in Agriculture & Allied Sector's GVA and 4.90% in the country's total GVA, respectively.

The Basic Animal Husbandry Statistics contain tabulated data sets giving production estimates for Major Livestock Products like Milk, Egg, Meat and Wool. It also provides livestock population of different species, by age, sex and uses, etc. It would be useful to all stakeholders such as ministries of Govt. of India, policy planners, veterinarians, scientists, industry and various research organizations, Govt. agencies and others involved in the development of the Livestock Sector.

I appreciate the contribution of all the States/UT's in providing crucial data that helped in the finalization of this report.

I also acknowledge the efforts of the officers of Animal Husbandry Statistics Division, DAHD in bringing out this publication that encapsulates Livestock Production Statistics of 2021-22.

The Livestock is an integral part of Indian Economy. Livestock Census & Integrated Sample Survey are two Schemes that support the States/UTs for generating the required statistics. The Animal Husbandry Statistics division entrusted with the task of generating the Basic Animal Husbandry Statistics that are required for policy formulation & programme implementation of Livestock Sector. The “**Basic Animal Husbandry Statistics - 2022**” contains detailed tabulated data sets of production estimates for Milk, Egg, Meat & Wool up to the year 2021-22, consequent to the outcome of Integrated Sample Survey conducted during the period 1<sup>st</sup> March 2021 to 28<sup>th</sup> February 2022.

The present report is 23<sup>rd</sup> in the series of reports through which production estimates for Major Livestock Products are being released. Livestock rearing is one of the most important activities in rural area of the country providing supplementary income to the families dependent on Agriculture activities. Livestock Sector Contributing more than 30% of the total Agriculture GVA. The growing importance of this sector itself depends on the data and information of various parameters which ascertains the development of this sector.

The publication also contains certain information from various ministries and departments, which are responsible for formulation of any policy in livestock sector. It contains statistics from National Statistical Office, Directorate of Economic & Statistics, Department of Agriculture & Cooperation and Population Statistics of the office of Registrar General of India.

Collection and compilation of a voluminous data to develop this document is a gigantic task & has involved sincere and dedicated efforts of all States/UTs and Central Government's Officer/Officials. Their efforts are appreciated and acknowledged. Appreciations are also due to Director Sh.V.P. Singh, Assistant Director Sh. Dipankar Mitra, Ms. Ritu Singh & Ms. Shraddha Pal, SSO Sh. Sunil Kumar, Executive Assistant Sh. Jitender Kumar, Sh. Hardeep & Sh. Atul Kumar, Office Assistant Sh. Vijay Karayat, and Technical Clerk Ms. Sarita Jain for compilation & examining the accuracy of the data and its timeliness.

It is hope that the publication would be usefull to the administrators, planners, veterinarians and various research institutes. The data is also being used by various other Ministries, NGO's for administrative and analytical purpose. Suggestions/comments for improvement in this publication will be welcomed.

# CHAPTER ONE INTRODUCTION

# INTRODUCTION

## 1.1 OVERVIEW

The Animal Husbandry Statistics (AHS) Division of Department of Animal Husbandry & Dairying (DAHD) is entrusted with the generation of Animal Husbandry Statistics through the schemes Livestock Census and Integrated Sample Survey. The Livestock Census (LC) is a quinquennial Census conducted across the country in participation with all the States and Union Territories. This is the basic source of data for the number of livestock and poultry held by the households in the country. The another important aspect is livestock production which is estimated annually based on the outcomes of Integrated Sample Survey (ISS). The survey is conducted in participation with States and Union Territories following a specified time line and methodology. The Survey methodology of Integrated Sample Survey is designed by ICAR-Indian Agricultural Statistics Research Institute (ICAR-IASRI).

Integrated Sample Survey is the only scheme through which considerable data, particularly on the production estimate of Major Livestock Products (MLPs) viz. Milk, Egg, Meat and Wool, is being generated for policy formulation in the livestock sector. Information on number of veterinary hospitals, polyclinic, goshalas, State farms and other infrastructure, number of Artificial Insemination performed and other animal husbandry statistics is also compiled through annual returns.

The present publication of Basic Animal Husbandry Statistics-2022 is framed based mainly on the outcomes of the Integrated Samples Survey for the period 1st March 2021 to 28th February, 2022. It has two Chapters with Chapter One: Introduction including brief discussions on objective of survey, survey methodology, reference period, sampling design, analysis of data of milk, egg, meat and wool. Chapter Two contains summary of MLP data on annual production, growth rate, per capita availability, average yield per animal, state-wise & species-wise share etc. The report also contains tables of State-wise data of estimated production of milk, egg, meat and wool. Not only the total production statistics, the book also gives a picture on the estimated number of animals in milk production, estimated poultry egg laying birds, estimated number of animals slaughtered etc. Besides livestock production statistics it is also important to have included related statistics of Livestock population, such as GVA of livestock, export import data etc. so as to facilitate a ready reference of all such vital information. Moreover, the data of infrastructure such as number of veterinary hospitals, polyclinic, goshalas etc. have also been included in this report.

The results of the survey will be of use to the National Accounts Division, Department of Fisheries, Department of Agriculture, Cooperation & Farmers Welfare, Department of Animal Husbandry of States/UT Governments, private agencies and research institutions etc. for effective policy, decisions making and researches.

## 1.2 OBJECTIVE OF THE SURVEY

The primary objective of ISS is to produce animal wise all India as well as State/UT level estimates of 4 major livestock products like milk, egg, meat and wool. It fulfills the need of timely availability of reliable and current data relating to various livestock indicators which will further help in evolving, monitoring and evaluating various developmental

schemes in this sector. It also contributes to stock of time series data on production of milk, meat, egg and wool which may be used in research and policy making.

## 1.3 REFERENCE PERIOD

The Survey is conducted from March to February. The entire period of one year is divided into three Seasons of 4 months. These Seasons are:

Name of the Season	Period of survey
Summer Season	1st March to 30th June (122 days)
Rainy Season	1st July to 31st October (123 days)
Winter Season	1st November to 28th or 29th February (120 days or 121 days in a leap year)

## 1.4 COVERAGE OF THE SURVEY

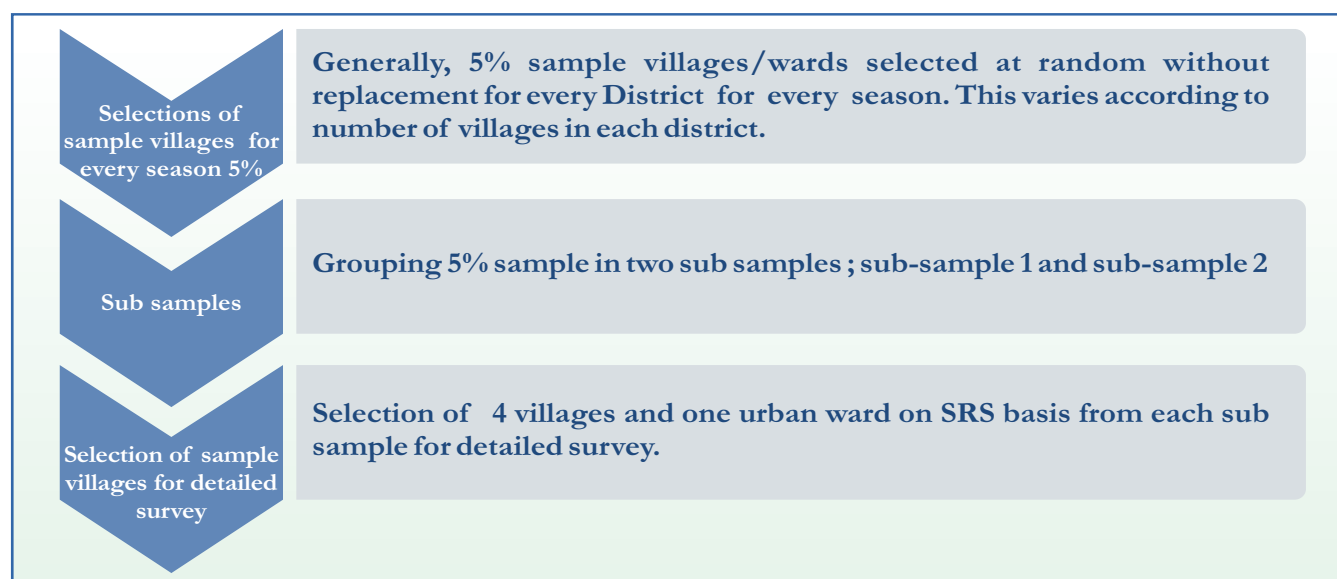

The Survey is conducted in the entire rural/urban areas of States/UTs. As a general principle, the survey is targeted to cover around 5% village in every season taking into account a total 15% villages, nearly 96,000 villages in a year. Since the year 2015-16, the survey covered urban areas too wherein 2 urban wards of each districts are selected at random for estimation of production of major livestock products.

## 1.5 SAMPLING DESIGN

The sampling design is a stratified three stage design with district as stratum. The first stage units are villages or urban wards, second stage units are households and third and ultimate stage units are animals. The list of villages as per the latest Livestock Census constitutes the sampling frame. As mentioned under 1.2, the survey is conducted across the country in three seasons and based on the seasonal estimates, the annual estimates are derived. The State Department of Animal Husbandry is the nodal agency for implementation of the sample survey.

The survey is conducted in two stages, (i) Complete Enumeration and (ii) Detailed Survey. The estimated livestock population is arrived based on complete enumeration and the average yield is calculated based on detailed survey. An outline of the sampling design is described in the following diagram.

For complete enumeration, a general principle of 5% villages/urban wards are selected for each district in a season covering a total of 15% of samples per annum using Simple Random Sampling without Replacement (SRSWOR) in a year. However, this is a general principle and varies according to the size of the district and availability of staff. The 5% villages/urban wards are further grouped into two sub-samples and the production estimates are derived for the two sub-samples separately. This is done for measuring the standard error. For detailed survey, a sample of 4 villages and 1 urban ward are selected from each sub-sample for the estimation of yield rate for rural and urban area separately. The sample villages and wards are selected by the States/UTs at the beginning of every survey period annually.

Since survey is conducted on seasonal basis, each season in a year is divided into 4 rounds (4 months). At the first month of every season the enumerators visit the households in the selected village to list all livestock including poultry available in each household. This is a listing process based on which the total in-milk animals are estimated in case of milk production and total estimated layers in case of egg production, total number of animals/birds slaughtered in case of meat production and number of sheep shorn in case of wool production. For meat production, slaughter houses, poultry farms and butcher shops are also taken into consideration for estimating the number of animals/birds slaughtered. For capturing all these information eight schedules have been designed under the Integrated Sample Survey as mentioned briefly below:

- SCHEDULE-I - General Information General information about the villages selected for complete enumeration and particulars of those villages in addition to breed, sex, age wise livestock population as per latest Livestock Census will be collected here.
- SCHEDULE-II - Complete Enumeration: Listing of household/household enterprises/ non-household enterprises/institution in the village/ward will be done here. The information on Milch animals and Poultry in the sample and number of Animals Slaughtered during last 4 months will also be recorded in this schedule.
- SCHEDULE-III - Details of milk yield in selected households: For detail study, one cluster of two households/enterprises each will be selected from each of six categories of cattle and buffalo for collection of data on milk yield. If none of the households selected for detailed study possess goat in milk, then 2 more households/enterprises having goats in milk should be selected. Beside the milk data, the information on utilization of total milk and dung from cattle, buffalo and goat will also be canvassed in this schedule.
- SCHEDULE-IV - Details of egg production in selected households: Selection of two clusters of 5 households/enterprises having layer birds (Fowl & Duck) for collection of yield rate for Desi and Improved Fowl & Duck will be done here along with collection of data on consumption and utilization pattern of Production of eggs etc.
- SCHEDULE-V - Details of Egg production in the commercial poultry farms: Collection of data through administrative returns from all layer farms.

- SCHEDULE-VI - Details of wool production in sample households: By filing this schedule wool production data will be collected from a sample of 8 households.
- SCHEDULE-VII - Information on yield of meat from recognized slaughterhouses
- SCHEDULE-VIII - Details of Broilers and Layers' Meat production in the commercial poultry farms: Schedules VII and VIII are related to meat production. So far as meat production is concerned, information number of animals slaughtered will be collected from all recognised slaughter houses in the districts and from all households and butcher shops in all the sample of villages/wards selected for complete enumeration.

Animal Husbandry Commissioner, DAHD and Co-Chairmanship of Director, IASRI, to monitor and give advice on various technical aspects of Integrated Sample Survey. The Annual Meeting of TCD for the year 2022-23 has been held in Bengaluru, Karnataka in Physical Mode on 29th & 30th September, 2022. The TCD meeting was chaired by Animal Husbandry Commissioner, DAHD in presence of ICAR. IASRI Director, Director of ICAR-NBAGR, Director of Animal Husbandry Department of States/UTs and their representatives and other Stake-holders. In similar lines, Technical Monitoring Committees have also been in place at State level to finalized season wise and Annual MLP data and to provide technical advice on the survey methodology and its implementation.

## 1.6 TECHNICAL COMMITTEE OF DIRECTION (TCD)-2022-23 MEETING

Technical Committee of Direction for Improvement of Animal Husbandry Statistics (TCD) has been Constituted under the Chairmanship of

# CHAPTER TWO

## SUMMARY OF ANIMAL

### HUSBANDRY STATISTICS-2022

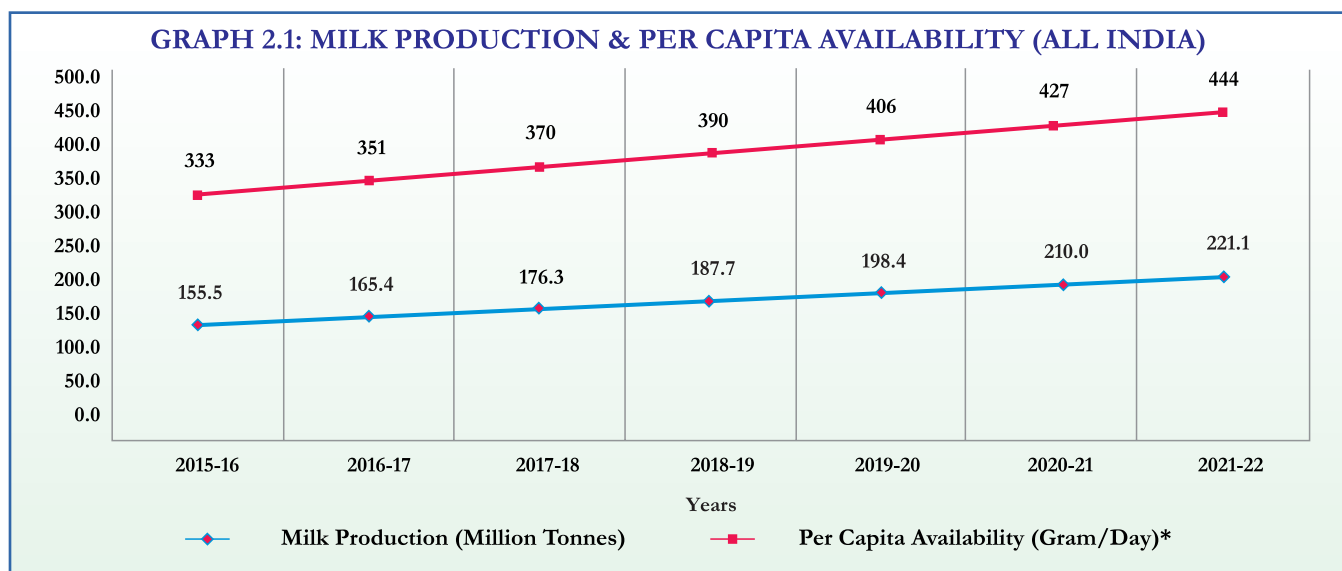

# SUMMARY OF ANIMAL HUSBANDRY STATISTICS-2022

## 2.1. MILK PRODUCTION

- Total milk production in the country is 221.06 million tonnes.
- India ranks 1<sup>st</sup> in the world in terms of total milk production. (Source: FAO).
- The milk production has increased by 5.29% over the previous year.
- The per-capita availability of milk is 444 grams per day.
- The average yield per animal per day for exotic/crossbred is 8.52 Kg per day and for indigenous/non-descript is 3.36 Kg per day.
- The milk production from exotic/crossbred cattle has increased by 6.16% and indigenous/non-descript cattle has increased by 6.13% as compared to previous year. The milk production from buffaloes also increased by 4.44% as compared to previous year.
- Top 5 Milk producing States are: Rajasthan (15.05%), Uttar Pradesh (14.93%), Madhya Pradesh (8.60%), Gujarat (7.56%), Andhra Pradesh (6.97%). They together contribute 53.11% of total Milk production in the country.

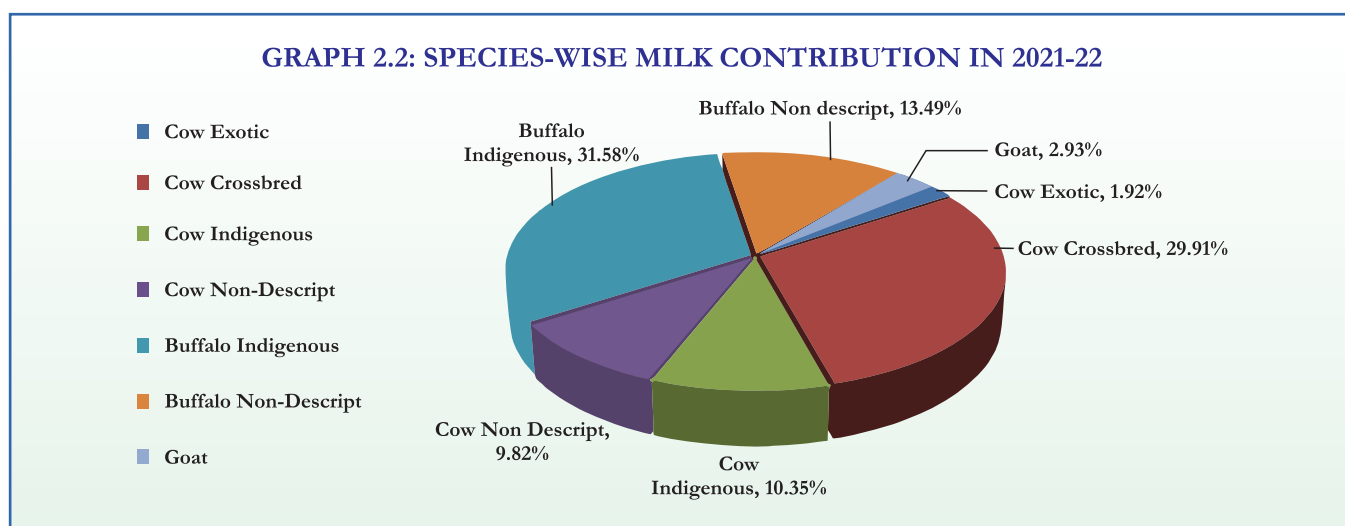

\*Based on Projected Population according to Population Census-2011

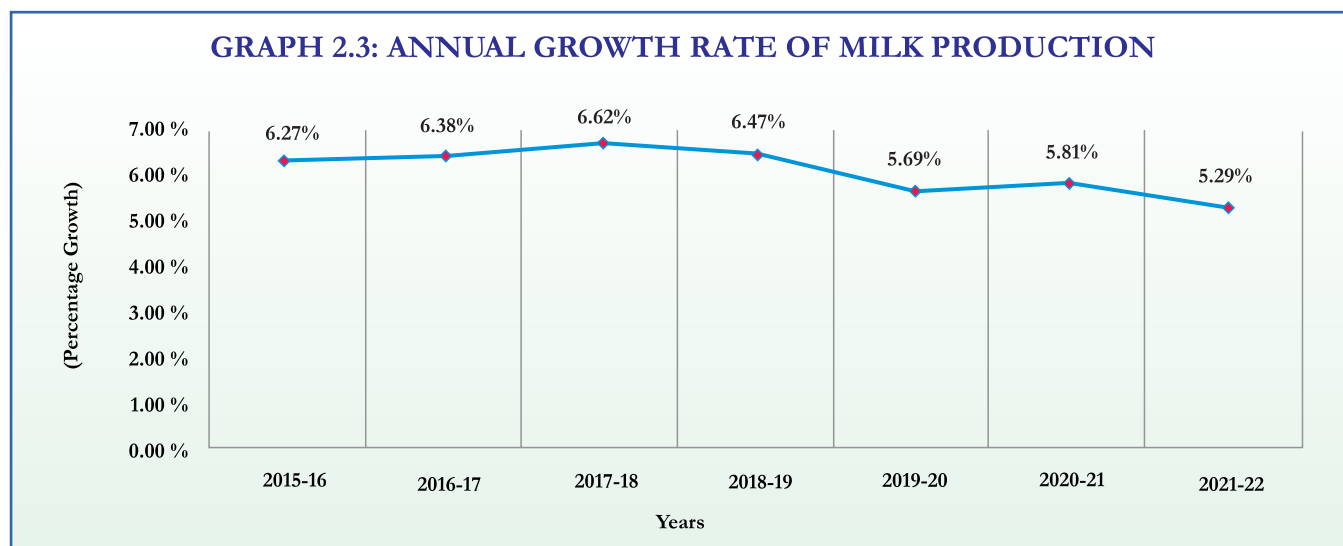

A trend showing the increase in milk production over the past few decades is depicted in the **graph 2.1**. The graph shows there is a consistent increase in the production of milk over the years. The milk production has increased from 209.96 million tonnes in 2020-21 to 221.06 million tonnes in 2021-22 registering a growth of 5.29%. There has been steady increase in per capita availability of milk since 2015-16. The per capita availability has increased from 333 gm/day in 2015-16 to 444 gm/day in 2021-22 as illustrated in the **graph 2.1**.

### 2.1.1 Species-Wise Milk Contribution

The **graph 2.2** shows the contribution of milk production by Cattle, Buffalo and Goat. The analysis shows nearly 31.58% of the total milk production is contributed by Indigenous Buffaloes followed by 29.91% by crossbred cattle. The Indigenous cattle contribute 10.35% of the total milk production in the country whereas non-descript cattle contribute 9.82% and non-descript buffaloes contribute 13.49% of the total milk production in the country. Goat milk shares a contribution of 2.93% in the total milk production across the country. Exotic cow has share (1.92%) to the total milk production.

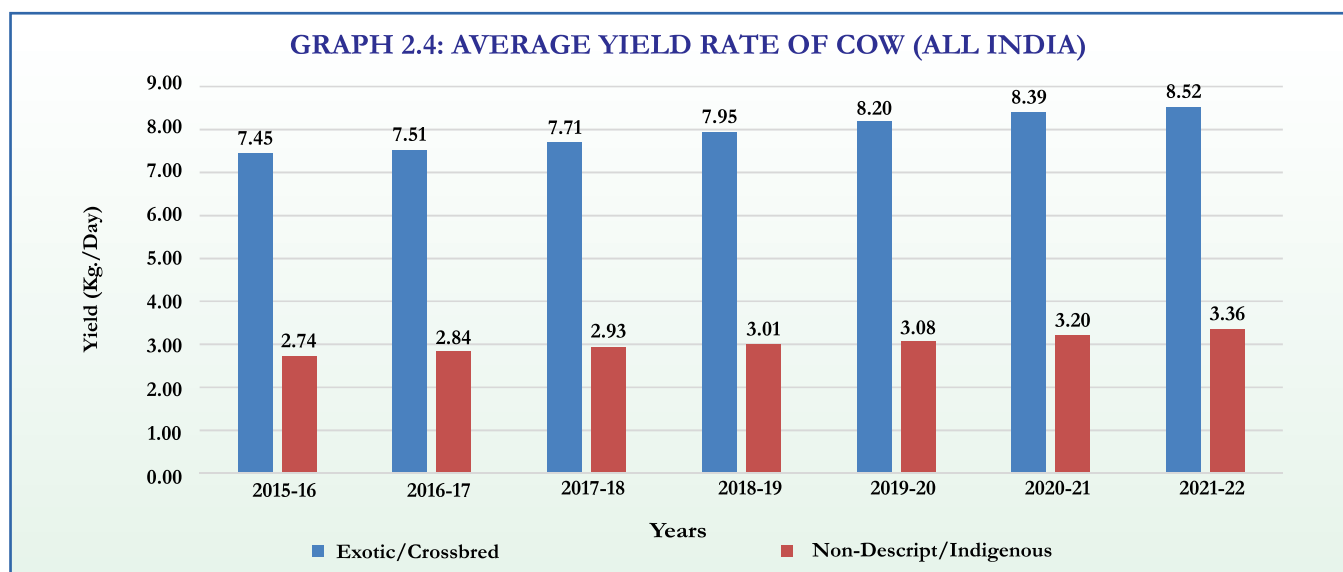

### 2.1.2 Annual Growth Rate of Milk Production

**Graph 2.3** indicates the annual growth rate of milk production during 2015-16 to 2021-22. In the current year 2021-22, the milk production registered an annual growth of 5.29%. The consistent growth

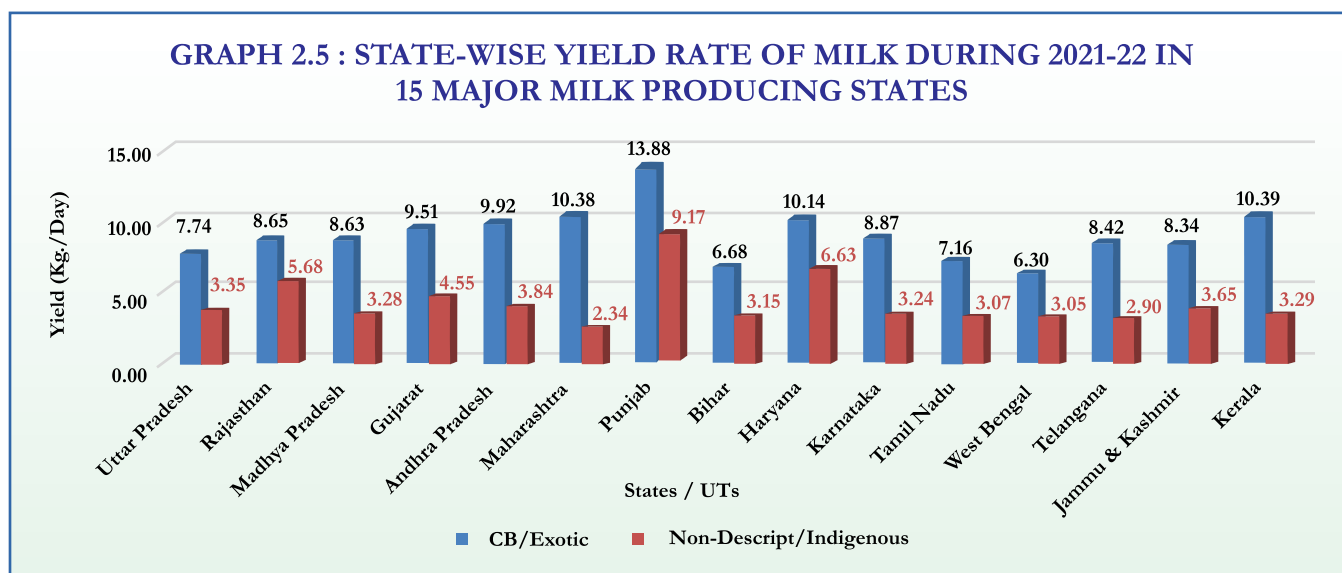

in the total milk production of the country accounts is on account of the various initiatives taken by the Government to increase the milk production to support the increasing Human population.

### 2.1.3 Average Yield of Milk Per Cow Per Day

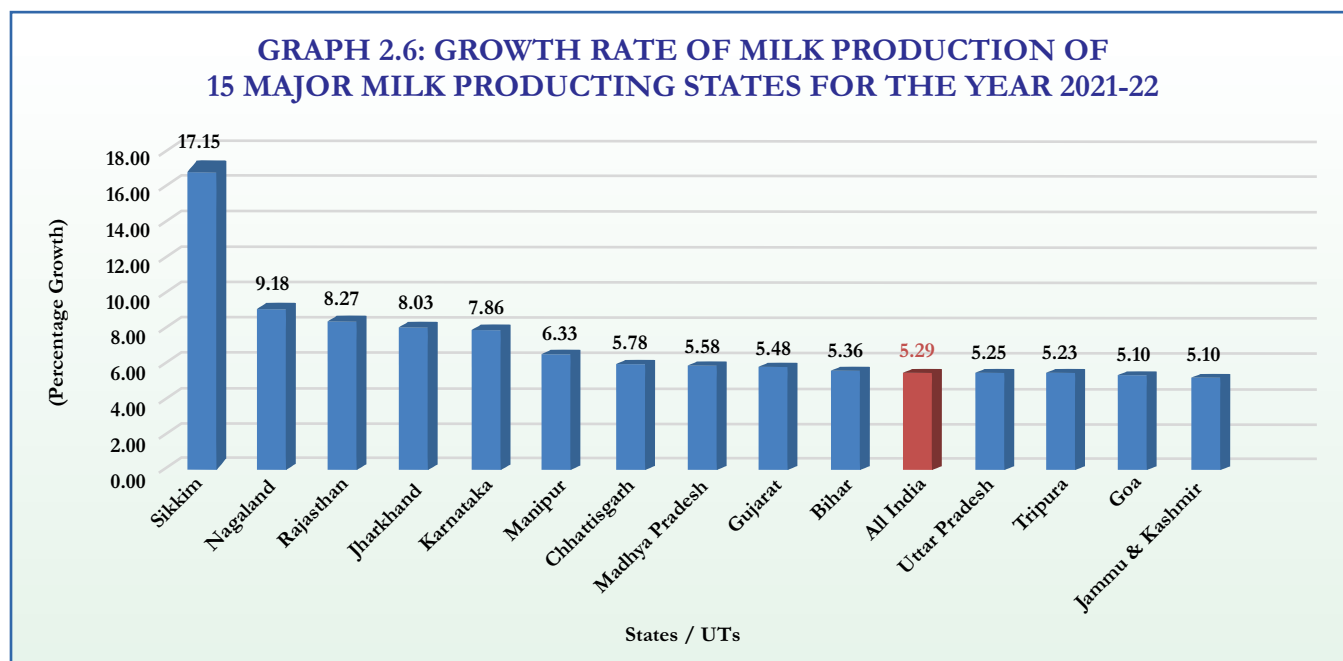

**Graph 2.4** shows that the milk yield of Exotic/Crossbred cows reported 8.52 Kgs per cow per day during 2021-22 and Indigenous/Non-

descript cows reported yield of 3.36 Kgs per cow per day during the year 2021-22.

The yield rate was showing a progressive trend the yield rate of milk in leading milk producing States during the year 2021-22. The State-wise variation in is depicted in **graph 2.5**.

#### 2.1.4 State-Wise Annual Growth of Milk Production During 2021-22

State-wise analysis in the growth pattern of milk production during 2021-22 is depicted in **graph 2.6**. It is observed that 6 States have registered growth of more than 6.00% in the milk production. Amongst them 10 States namely Sikkim, Nagaland,

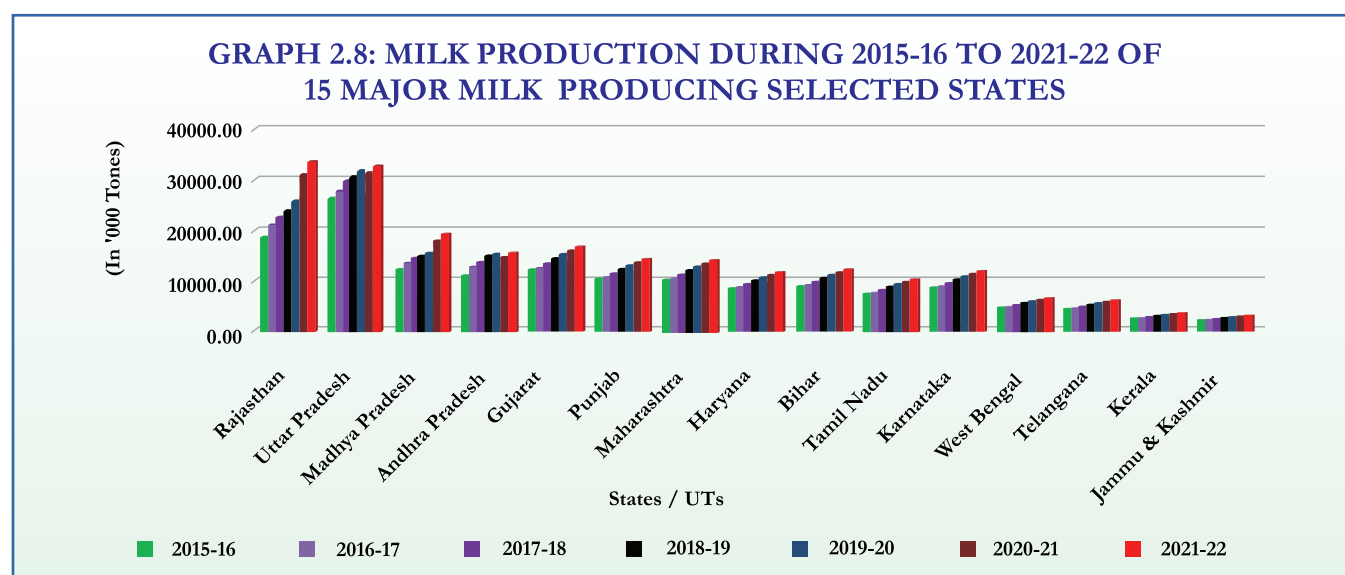

Rajasthan, Jharkhand, Karnataka, Manipur, Chhattisgarh, Madhya Pradesh, Gujarat and Bihar have crossed the national average growth rate of milk production i.e. 5.29%.

## 2.1.5 State-Wise Share of Milk Production During 2021-22

The State-wise share of milk production vis-à-vis total milk production in the country is given in the **graph 2.7**. The largest producer of milk is Rajasthan with 15.05% of the total milk production in the country followed by Uttar Pradesh

that produces 14.93% of the total milk production. Madhya Pradesh, Gujarat and Andhra Pradesh stand as the third, fourth and fifth largest milk producing states that produce 8.60%, 7.56% and 6.97% of the total milk produced in the country respectively.

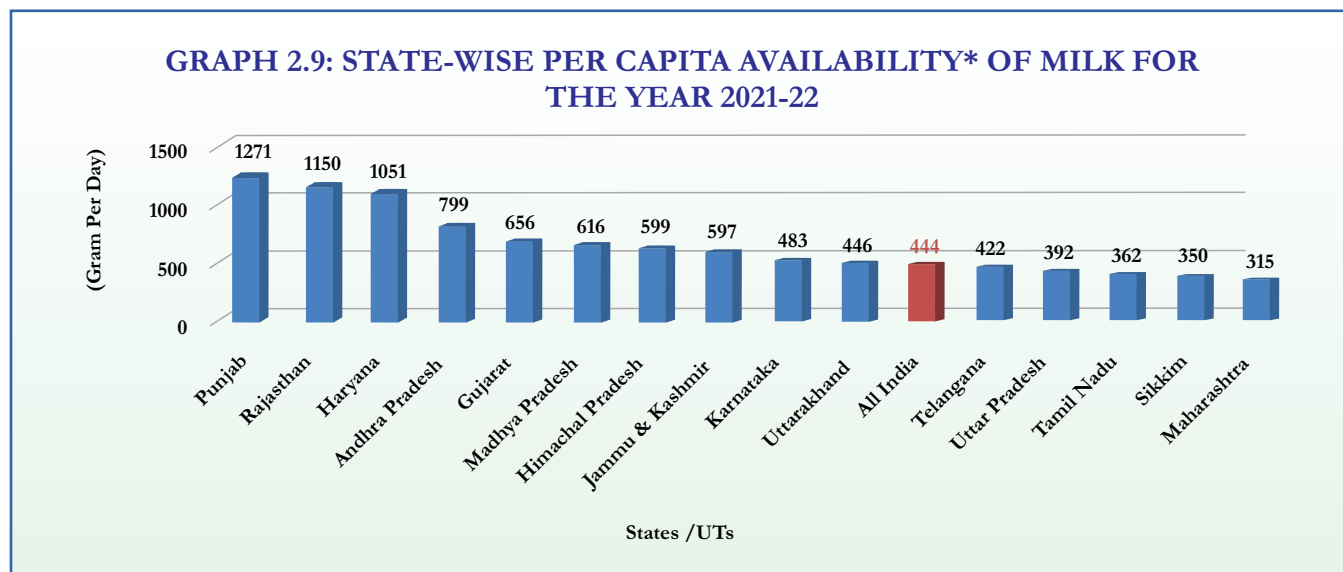

The **graph 2.8** shows State-wise variation in total milk production during 2015-16 to 2021-22. It is observed that states like Rajasthan, Uttar Pradesh, Madhya Pradesh, Andhra Pradesh, Gujarat, Punjab,

Maharashtra, Haryana, Bihar, Tamil Nadu and Karnataka had a progressive trend in the production of milk while Rajasthan remained the largest producer of milk during the entire period.

### 2.1.6 Per Capita Availability of Milk During 2021-22

availability of milk during 2021-22 in various States/UTs including the All-India average.

The **graph 2.9** below shows the per-capita

\*Based on Projected Population according to Population Census-2011

The graph shows that 10 States are having per-capita availability more than the national average with highest per-capita availability in Punjab. It is observed that the success of the initiatives taken to increase

the milk production in view of increasing population is highlighted with the constant increase in the per capita availability of milk across the country.

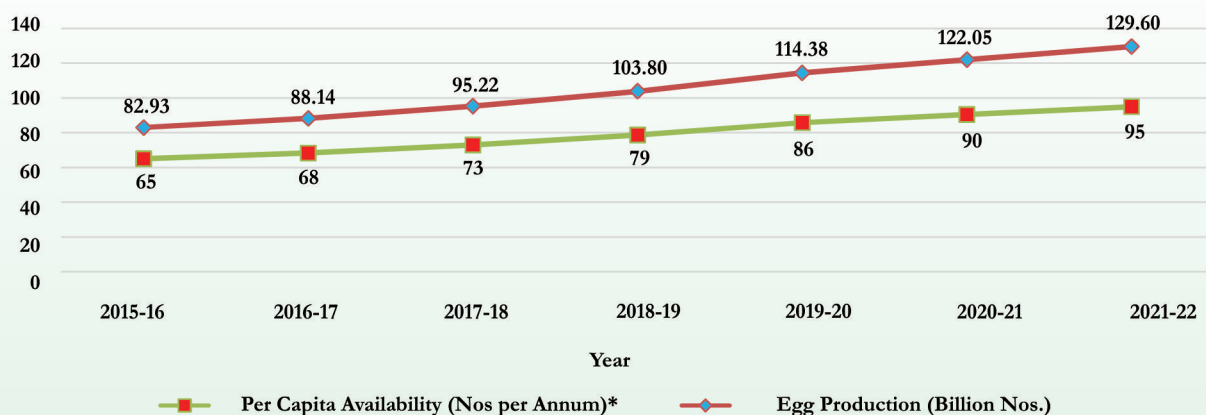

## 2.2 EGG PRODUCTION

- The total egg production in the country is 129.60 billion numbers.
- India ranks 3<sup>rd</sup> in the world in terms of total egg production (Source: FAO).
- The egg production has increased by 6.19% as compared to previous year.
- The per-capita availability of egg is 95 eggs per annum.
- Top 5 egg producing States are Andhra Pradesh (20.41%), Tamil Nadu (16.08%), Telangana (12.86%), West Bengal (8.84%), Karnataka (6.38%) They together contribute 64.56% of total egg production in the country.
- The total egg production from commercial poultry is 109.93 billion numbers and backyard poultry are 19.67 billion numbers contributing 84.82% and 15.18% of total production of egg respectively.

**GRAPH 2.10 : PRODUCTION & PER CAPITA AVAILABILITY OF EGG (ALL INDIA)**

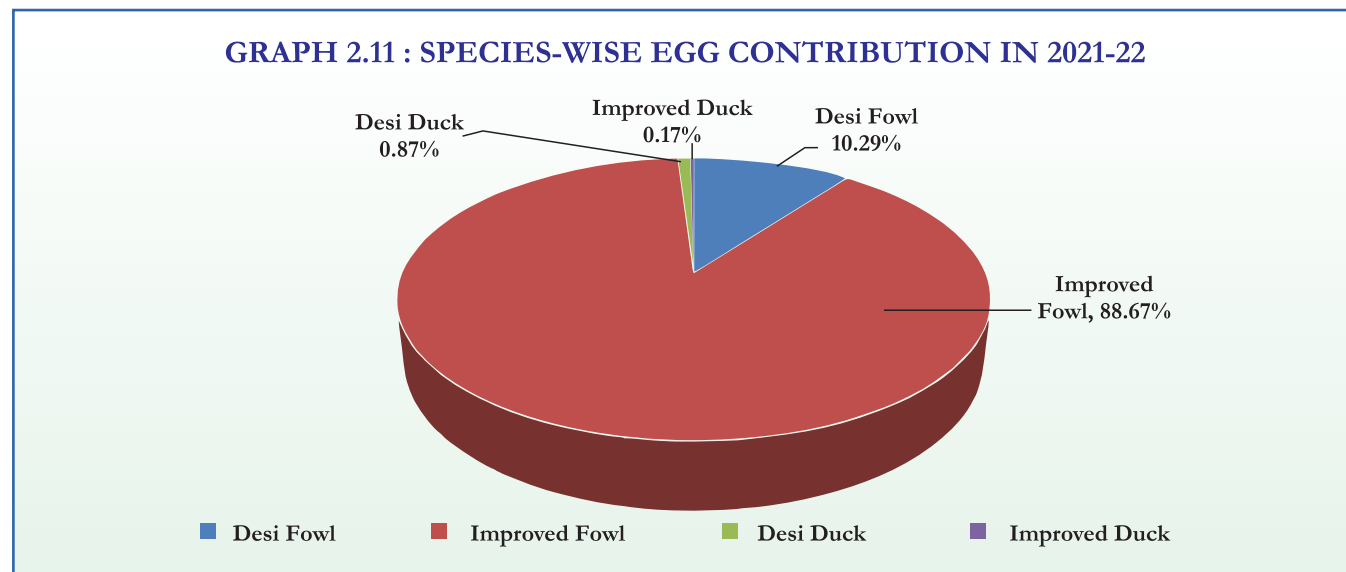

\*Based on Projected Population according to Population Census-2011

The **graph 2.10** shows that the total egg production in the country was at 82.93 Billion Nos. in the year 2015-16 and since then the production of egg continues to rise over the period. It can be observed in the graph that the Egg production has improved substantially and it reached 129.60 Billion Nos. in the

year 2021-22. The per capita availability was 65 eggs per annum during the period 2015-16. There has been steady increase in per capita availability of egg. The per capita availability reached at 95 eggs per annum in the year 2021-22, a Five-point jump from 90 eggs per annum of the previous year 2020-21.

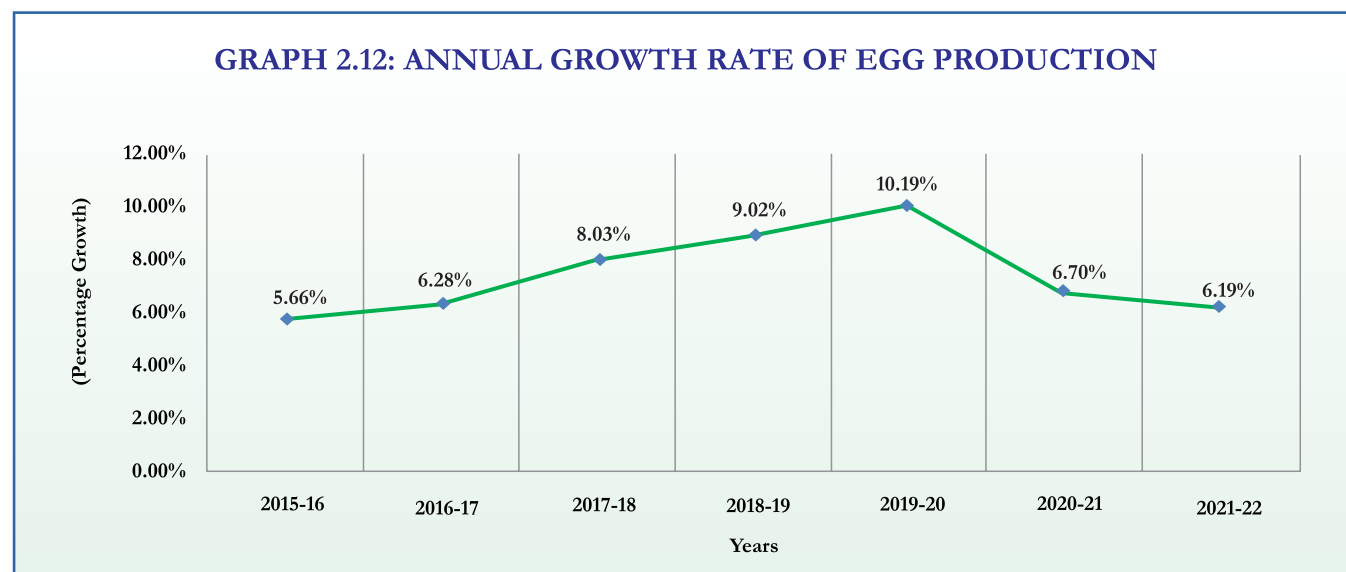

### 2.2.1 Species-Wise Egg Contribution

The **graph 2.11** showing the contribution of egg production by Fowl and Duck. The graph shows Improved Fowl contribute 88.67% of the production of egg and 10.29% is from Desi Fowls with respect to

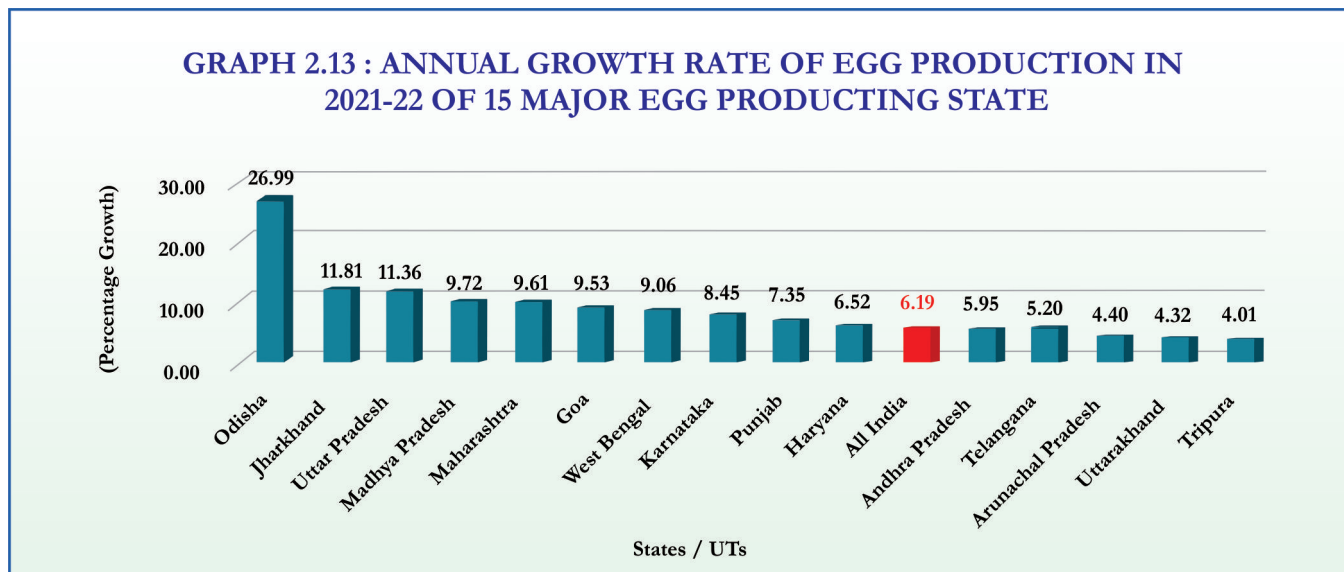

total production of egg. The Desi Duck and Improved Duck contribute 0.87% and 0.17% respectively with respect to total egg production.

### 2.2.2 Annual Growth Rate of Egg Production

The **graph 2.12** shows the annual growth rate of egg production during the period 2015-16 to 2021-22. The Annual Growth Rate for the year 2021-22 is registered as 6.19%.

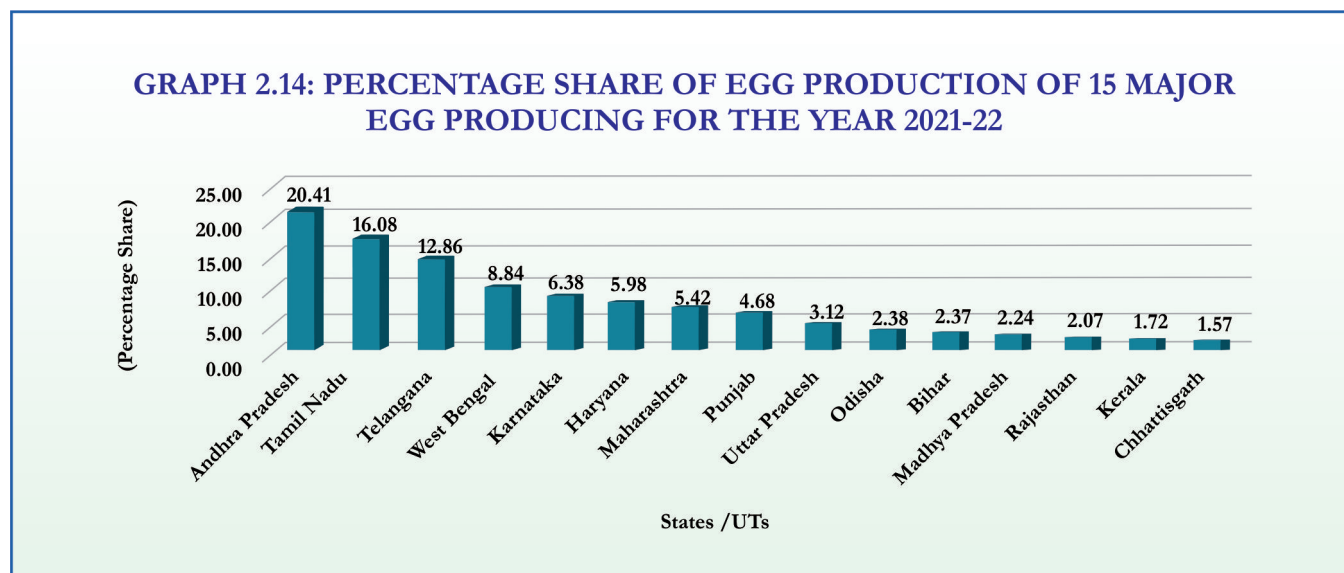

### 2.2.3 State-Wise Annual Growth of Egg Production During 2021-22

State-wise analysis in the growth pattern of egg production during 2021-22 is depicted in **Graph 2.13**. Ten States have crossed the national growth rate 6.19%, Significant growth in the egg production is seen in the case of Odisha, Jharkhand, Uttar Pradesh,

Madhya Pradesh, Maharashtra, Goa, West Bengal, Karnataka, Punjab and Haryana. It is also observed that 10 States have registered growth above 6.00% during 2021-22 in case of Egg production.

### 2.2.4 State-Wise Share of Egg Production During 2021-22

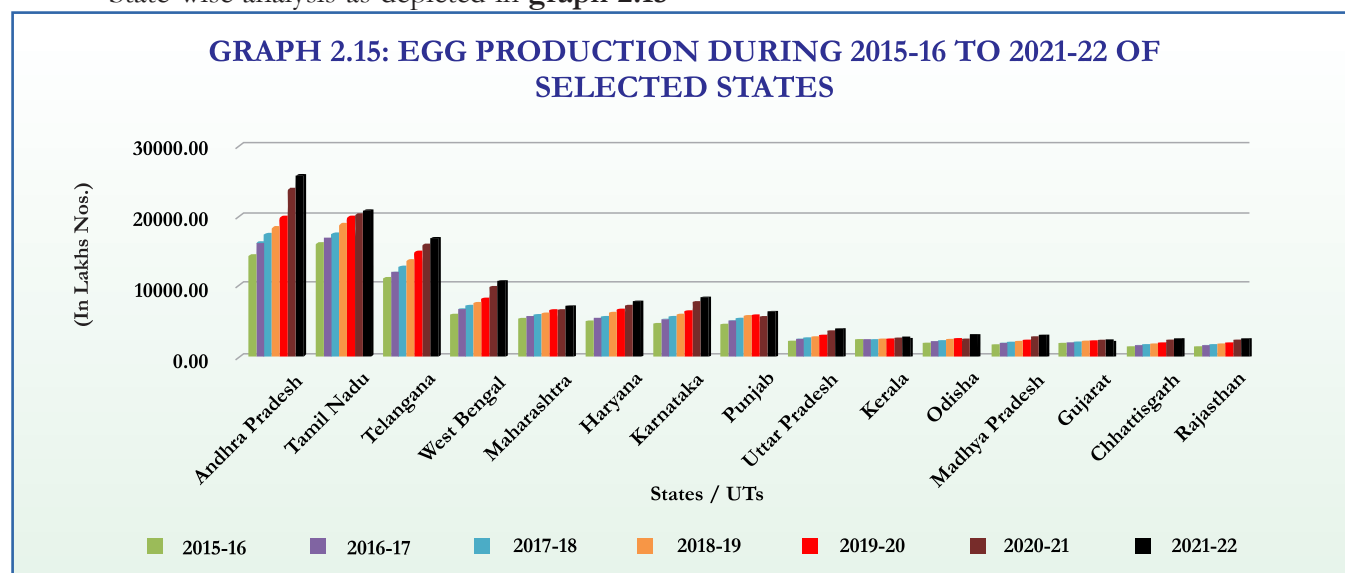

The above **graph 2.14** showing the state-wise share of egg production during 2021-22. The largest producer of egg is Andhra Pradesh which produces

20.41% of the total egg production in the country followed by Tamil Nadu that produces 16.08% of the total egg production. Telangana is the third largest

egg producing state in the country with a share of 12.86% of the total egg production in the country. Some other States that contribute more than 5.00% in the total egg produced across country are West Bengal, Karnataka, Haryana and Maharashtra.

below shows that, during the period 2015-16 to 2021-22, there is a steady increase in the production of egg in all States.

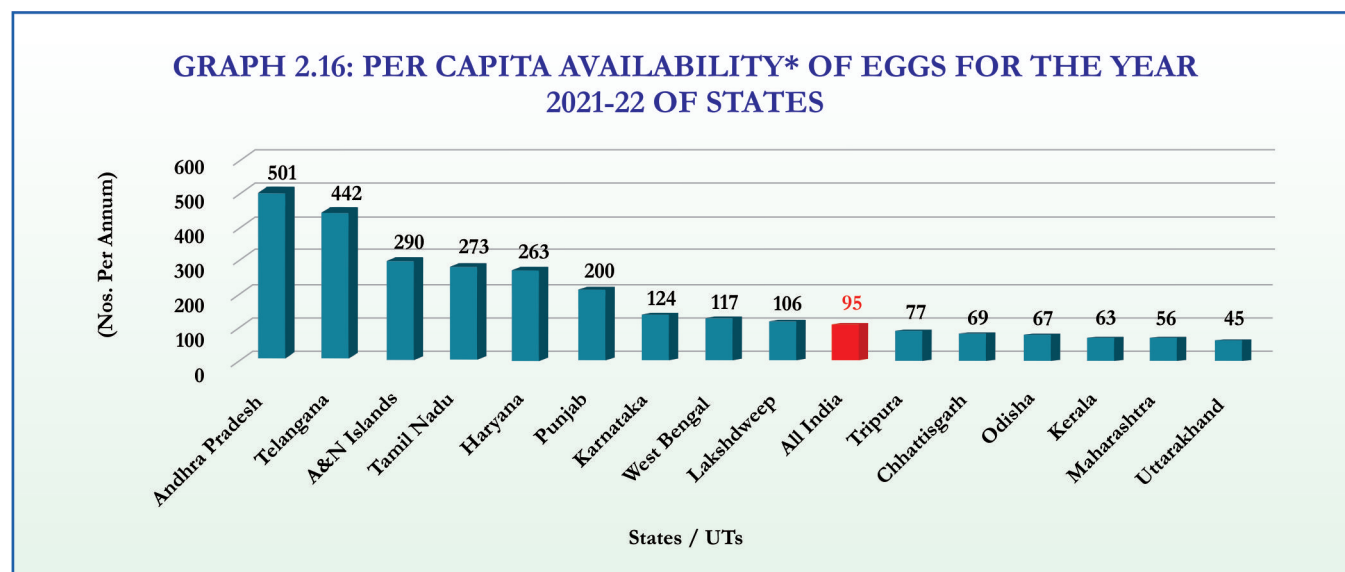

State-wise analysis as depicted in **graph 2.15**

### 2.2.5 State-Wise Per Capita Availability of Egg

The **graph 2.16** below shows the per-capita availability of egg during 2021-22 in various States/

UTs including the All-India average. The graph shows that 9 States are having per-capita availability more than the national average.

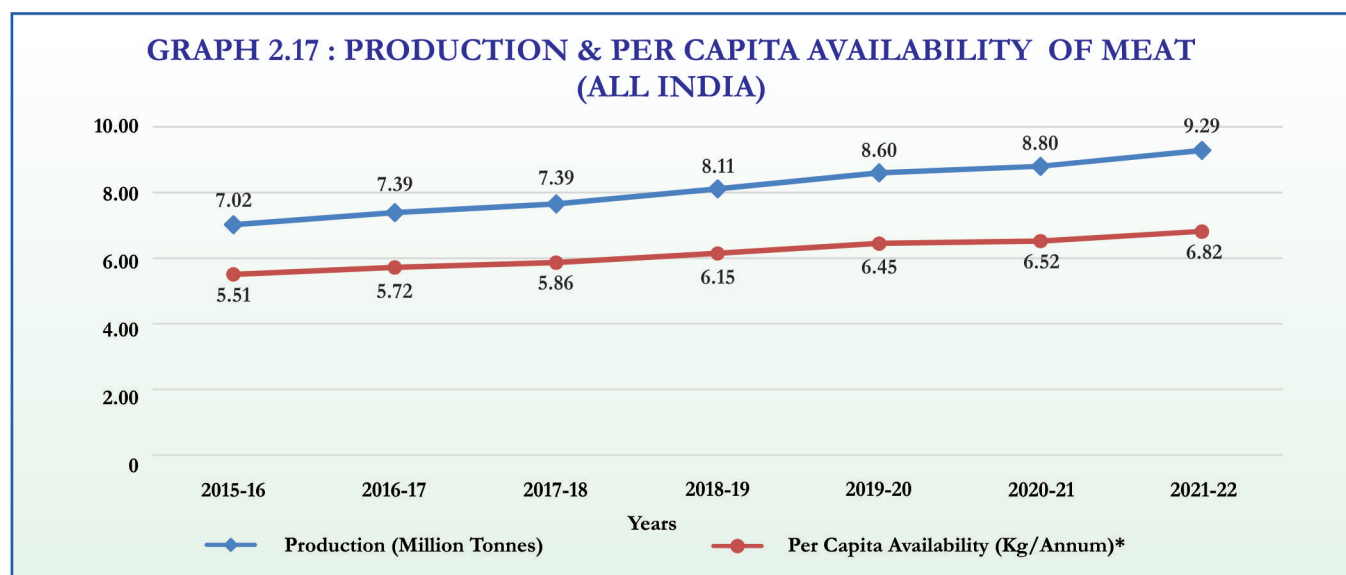

\*Based on Projected Population according to Population Census-2011

## 2.3. MEAT PRODUCTION

- The total meat production in the country is 9.29 million tonnes.
- India ranks 8<sup>th</sup> in the world in terms of total meat production (Source: FAO).
- The meat production has increased by 5.62% as compared to previous year.
- The meat production from poultry is 4.78 million tonnes, contributing about 51.44% of total meat production. The growth of poultry meat production has increased by 6.86% over previous year.
- The top 5 meat producing States are Maharashtra (12.25%), Uttar Pradesh (12.14%), West Bengal (11.63%), Andhra Pradesh (11.04%) and Telangana (10.82%). They together contribute 57.86% of total meat production in the country.

\*Based on Projected Population according to Population Census-2011

The **graph 2.17** shows that the total meat production in the country was at 7.02 Million Tonnes in the year 2015-16 and since then the

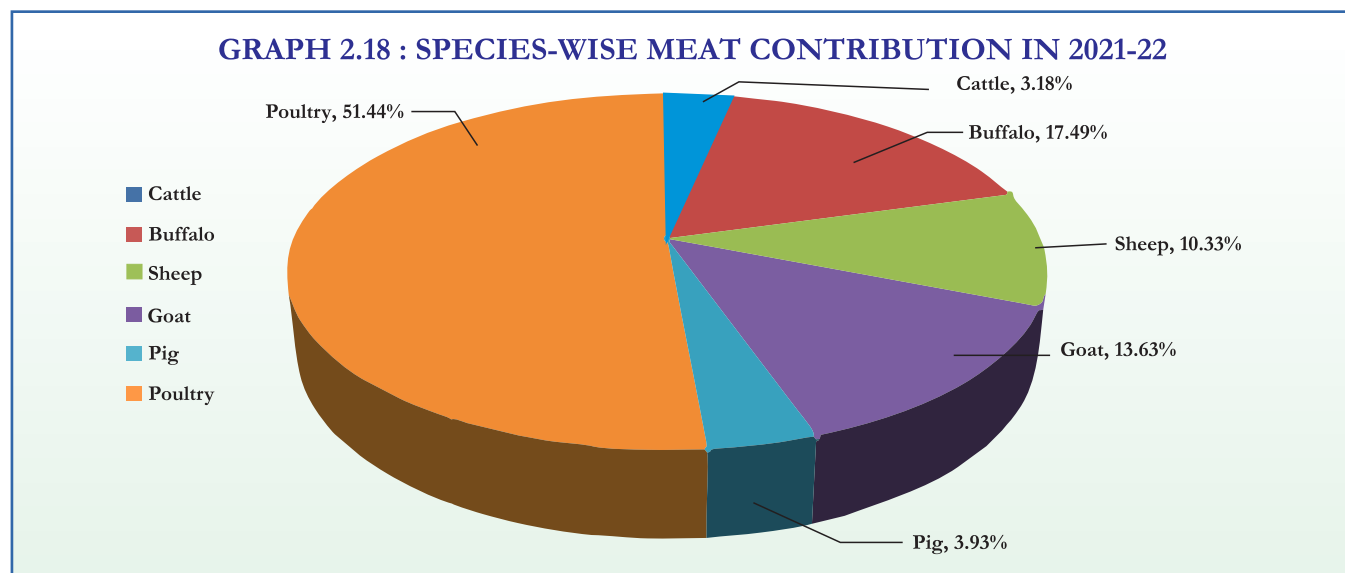

production of meat continues to rise over the period. It can be observed in the graph that the meat production has improved substantially and it reached

9.29 Million Tonnes in the year 2021-22. The per capita availability was 5.51 kg per annum during the period 2015-16. There has been steady increase

in per capita availability of meat. The per capita availability reached at 6.82 Kg/Annum the year 2021-22, a 0.29-point jump from 6.52 Kg/Annum of the previous year 2020-21.

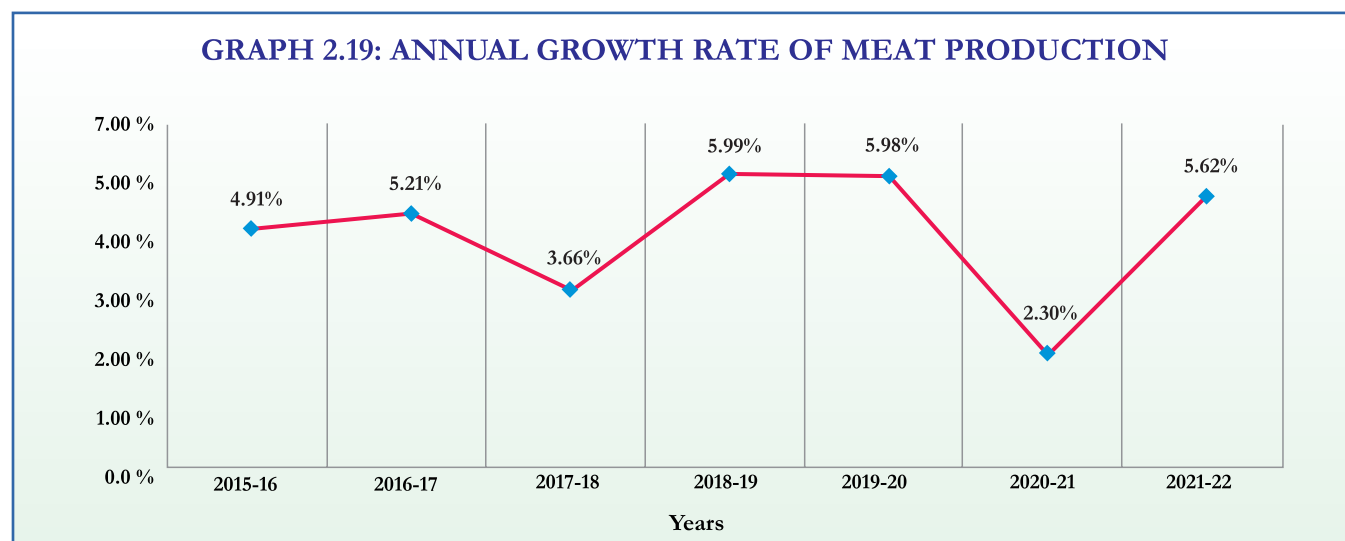

### 2.3.1 Species-Wise Meat Contribution

The **graph 2.18** shows the contribution of meat production from Cattle, Buffalo, Sheep, Goat, Pig and Poultry in the total meat produced across the country during 2021-22. The diagram shows that nearly 51.44% of meat production is contributed

by Poultry. Buffalo, Goat, Sheep, Pig, and Cattle contributes nearly 17.49%, 13.63%, 10.33%, 3.93% and 3.18% of meat production respectively to the total meat production of the country.

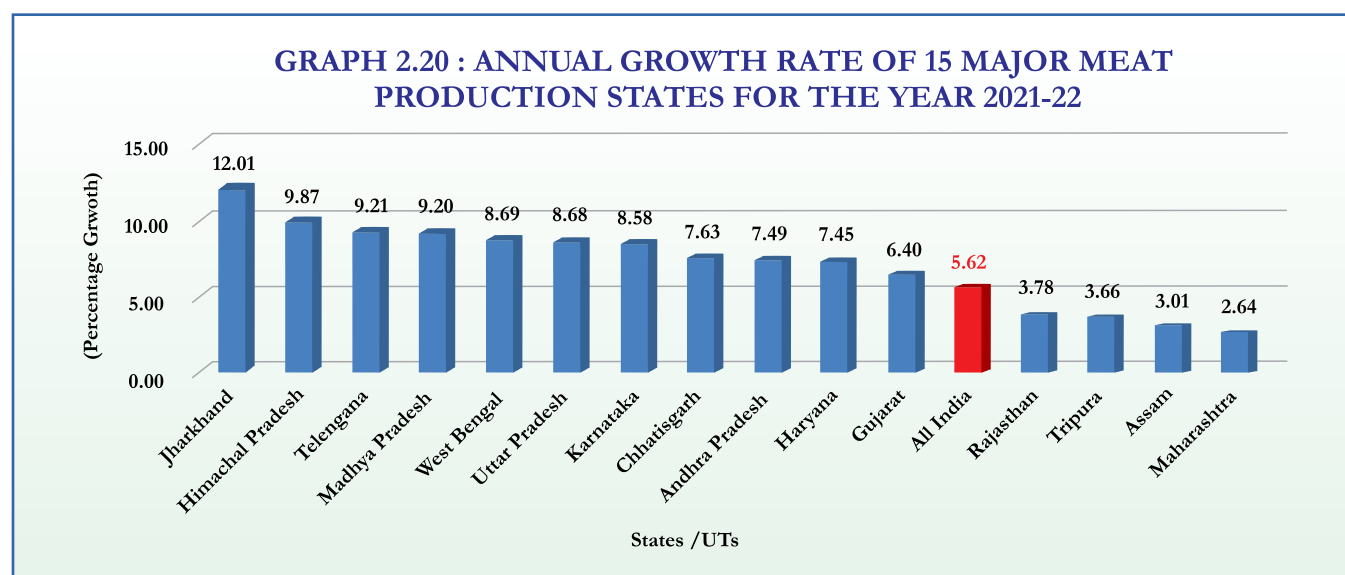

### 2.3.2 Annual Growth Rate of Meat Production

The trend in the annual growth rate of meat production is given in the **graph 2.19**. The annual

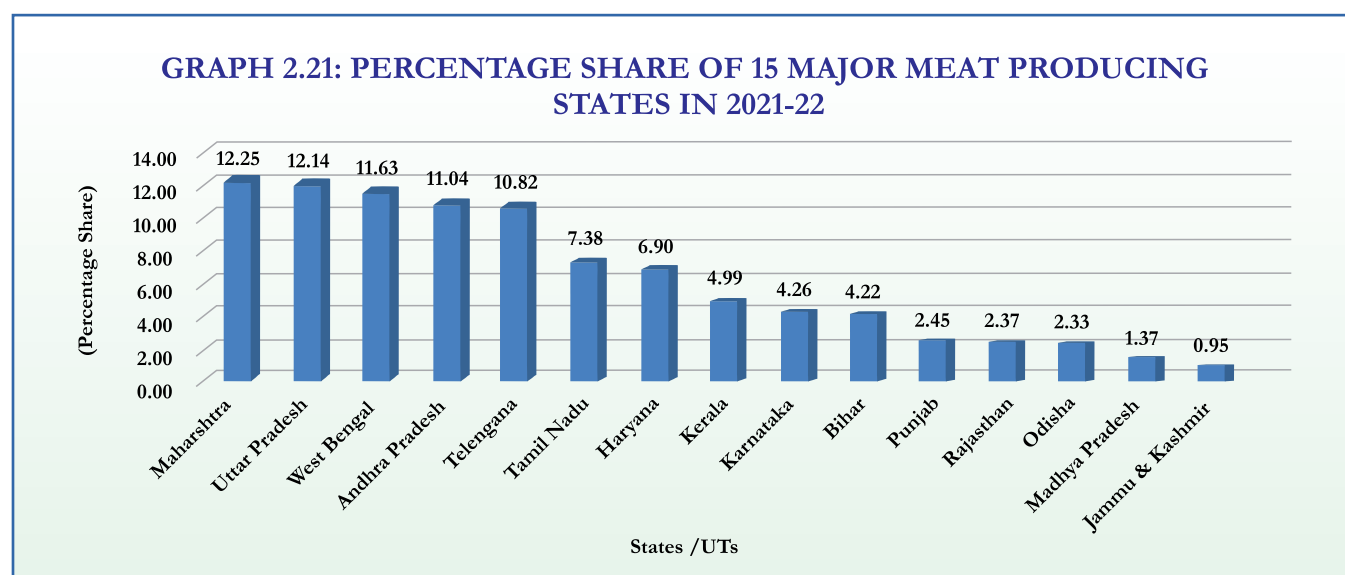

growth rate for the year 2021-22 is 5.62%.

### 2.3.3 State-Wise Annual Growth of Meat Production During 2021-22

**graph 2.20** shows that the state-wise variation in the annual growth rate of meat production during 2021-22. This year, the State of Jharkhand has registered the highest annual growth rate i.e., 12.01%. The total 11 States have reported growth over the national average growth rate during 2021-22.

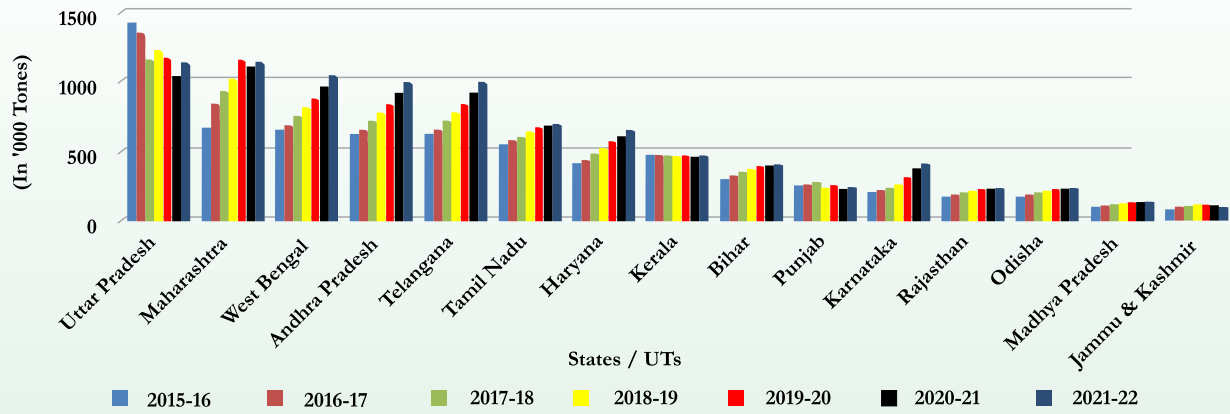

### 2.3.4 State-Wise Share of Meat Production During 2021-22

The state-wise share of meat production vis-a-vis total meat production in the country is given in the **graph 2.21**. The largest meat producing State is Maharashtra that produces 12.25% of the total meat produced in the country followed by Uttar Pradesh that produces 12.14% of the total meat production. West Bengal is the third largest meat producing state in the country that produces nearly 11.63% of the total meat production in the country.

The State-wise analysis showing the trend in meat production over the period 2015-16 to 2021-22 is depicted in the **graph 2.22** below. During these Seven years, most of the states have shown increasing trend in the production of meat.

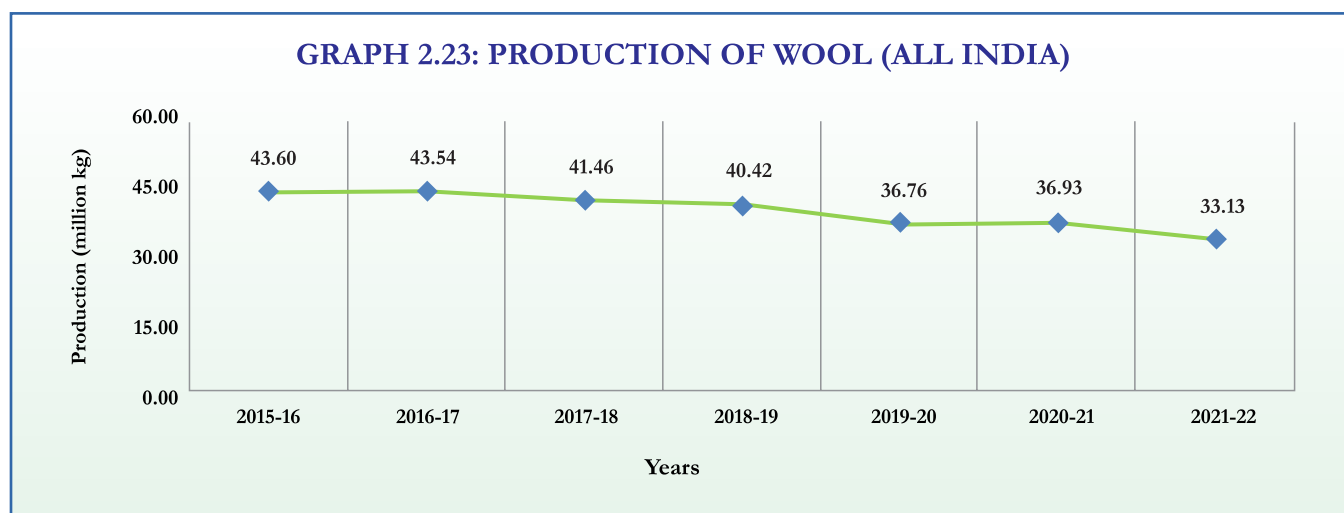

**GRAPH 2.22: MEAT PRODUCTION DURING 2015-16 TO 2021-22 IN SELECTED STATES**

## 2.4. WOOL PRODUCTION

- The total wool production in the country is 33.13 million kgs.
- The Wool production has decreased by 10.30% as compared to previous year.
- In 2021-22, Andhra Pradesh and Telangana have reported Zero wool production because of non-availability wool producing breed. Shifting to Meat production-based cultivation.
- The top 5 wool producing States are Rajasthan (45.91%), Jammu & Kashmir (23.19%), Gujarat (6.12%), Maharashtra (4.78%) and Himachal Pradesh (4.33%). They contribute 84.32% of total wool production in the country.

The total wool production in the country was at 43.60 Million Kg during 2015-16. As per **graph 2.23**, The wool production has decreased 33.13 Million Kg during 2021-22. As compared to 2020-21 the wool production has decreased by 10.30% during 2021-22.

### 2.4.1 Species-Wise Share of Wool Production

**Graph 2.24**, shows the contribution of wool production by Ram/Wether, Ewe and Lamb in the total wool production during the year 2021-22. The analysis shows Ewes contribute 63.78% of the total wool production whereas Ram/Wether and Lamb contributes only 18.86% and 17.37% respectively in

the total wool produced across the country. Due to comparatively less to the wool produced from the lesser population as reported for the lamb shorn and Ewes. Ram/Wether the production of wool from them is

**GRAPH 2.24: SPECIES-WISE SHARE IN WOOL PRODUCTION IN 2021-22**

#### 2.4.2 Annual Growth Rate of Wool Production

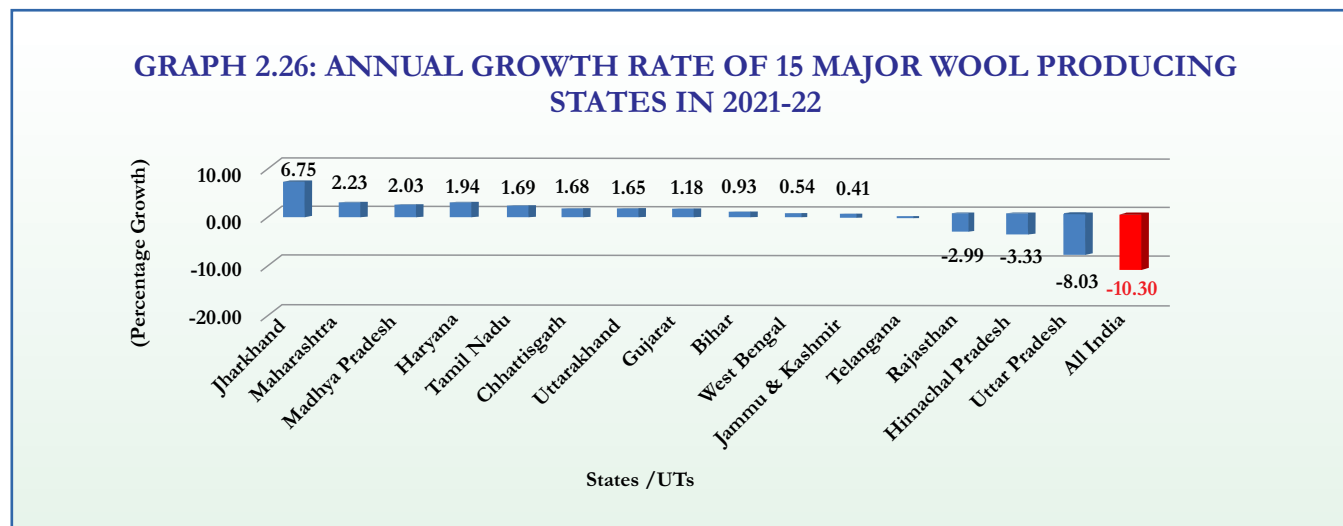

**GRAPH 2.25: ANNUAL GROWTH RATE OF WOOL PRODUCTION**

**Graph 2.25** shows the total wool production in the country has negative growth rate 10.30% During the year 2021-22.

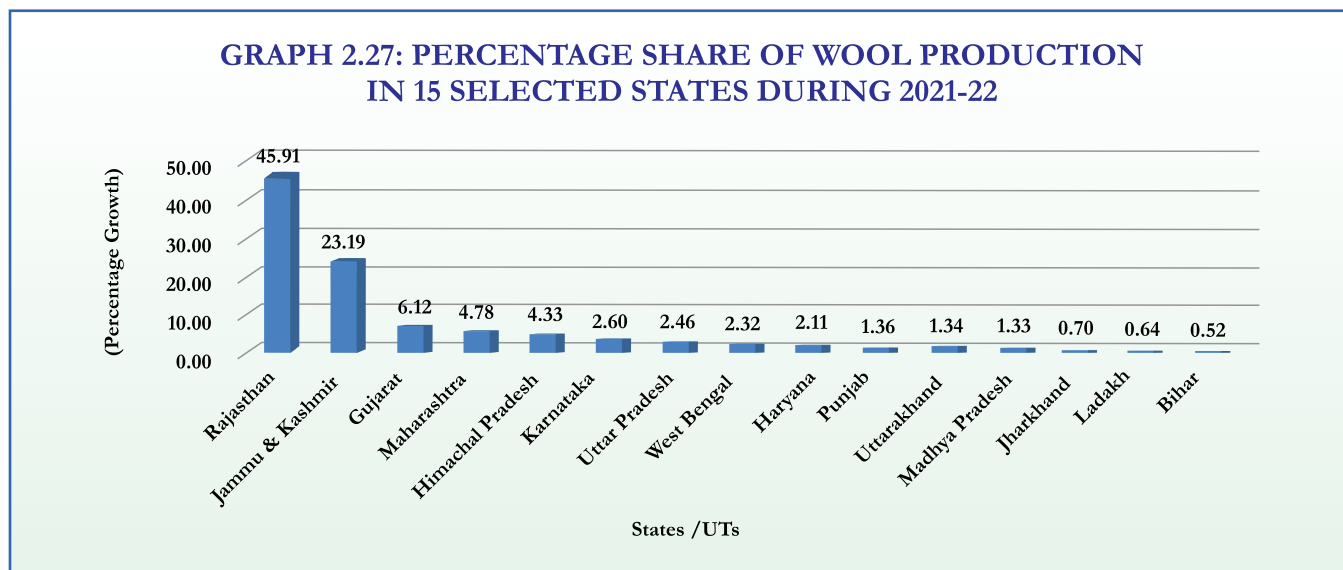

### 2.4.3 State-Wise Annual Growth of Wool Production During 2021-22

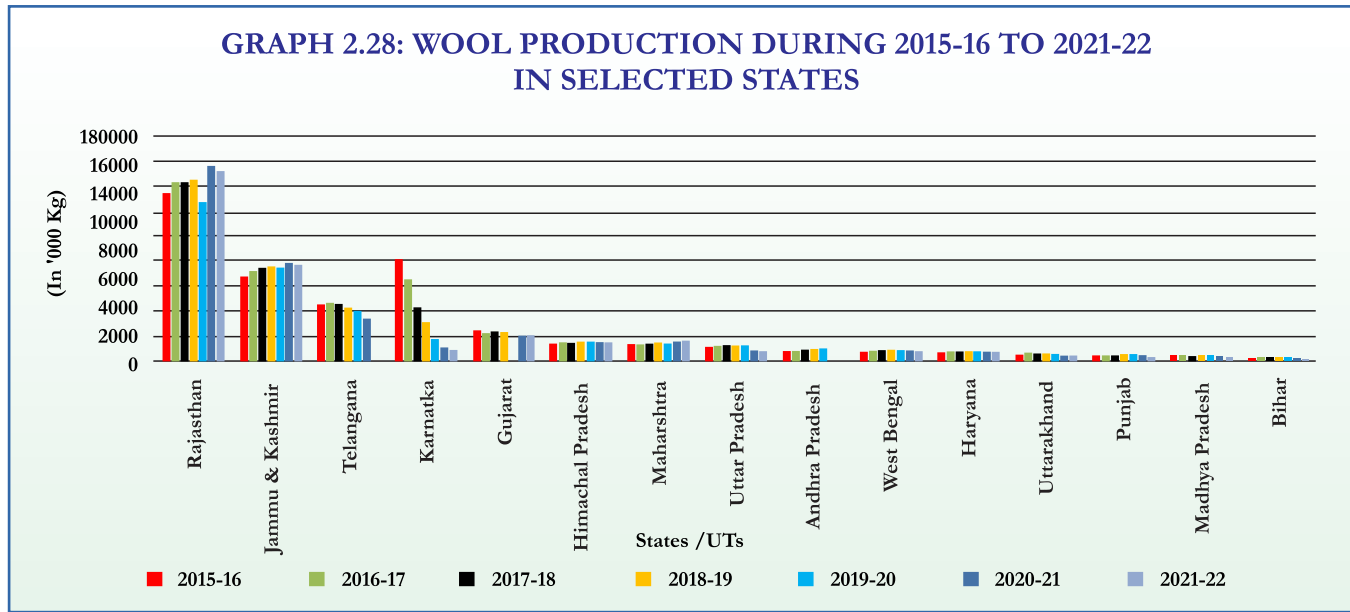

From above **graph 2.26** it can be seen that the states which is 6.75% followed by Maharashtra registering a growth of 2.23% and Madhya Pradesh with 2.03% in the year 2021-22. Jharkhand has the highest annual growth rate among

### 2.4.4 State-Wise Share of Wool Production During 2021-22

The **graph 2.27** depicts, percentage share of wool production in selected major wool producing States. Rajasthan is the largest producer of wool in the country that contributes 45.91% of the total wool production followed by Jammu & Kashmir with a share of 23.19%. Gujarat is the third largest wool producer state that has share of 6.12% of the total production in the year 2021-22.

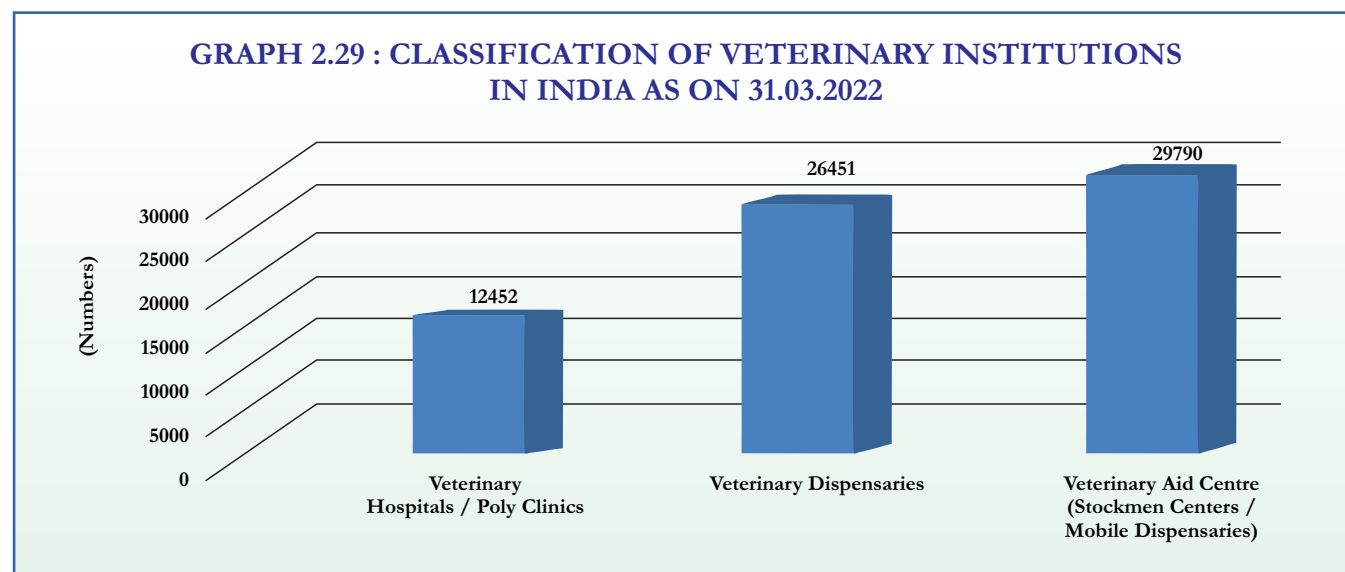

As depicted in above **graph 2.28** there has been varying trend in the production of wool across various States during the period 2015-16 to 2021-22. Rajasthan

is the largest producer of wool throughout the period 2015-16 to 2021-22.

## 2.5. INFRASTRUCTURE

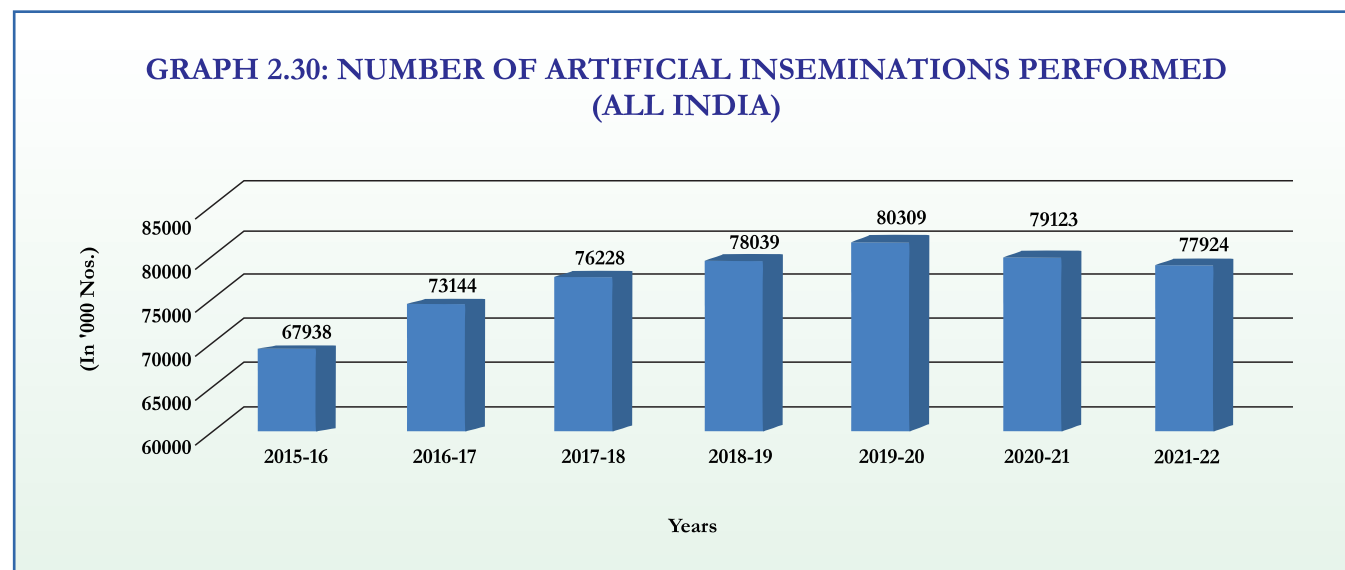

### 2.5.1 Infrastructure Of Animal Husbandry Sector

The infrastructure of animal husbandry sector is a key area that support for its accelerated growth. **graph 2.29**, shows there are 26451 Veterinary Dispensaries and 29790 Veterinary Aid Centers, while 12452 Veterinary Hospitals in our country. For an accelerated growth of Livestock sector strengthening

of infrastructure is must.

Artificial insemination is not merely a novel method of bringing about impregnation in females. Instead, it is a powerful tool mostly employed for livestock improvement.

**Graph 2.30** shows the growth in adoption of this methodology over the years in our country. By adoption of artificial insemination, there would be considerable reduction in both genital and non-

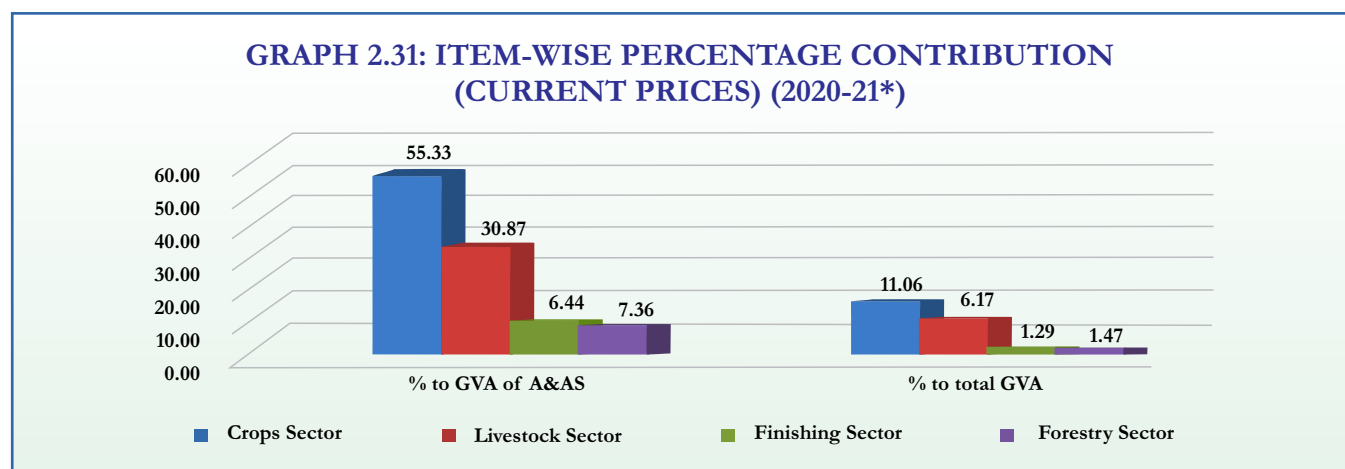

genital diseases in the farm stock. It can be observed that the number of artificial inseminations performed in the country has been decreased from 79.12 million in 2020-21 to 77.92 million in 2021-22.

## 2.6 GROSS VALUE ADDED (GVA)

### 2.6.1 Item-Wise Percentage Contribution in Agriculture & Allied Sector (A&AS) and Total GVA

As per first revised estimates of press note on “First Revised Estimates of National Income,

Consumption Expenditure and Capital Formation for 2020-21” released by National Statistical Office (NSO), MoSPI on 31<sup>st</sup> January, 2022 the Gross Value Added (GVA) of livestock sector is about Rs. 11,14,249 crore Rs. at current prices during FY 2020-21 which is about 30.87% of Agricultural and Allied Sector GVA and 6.17% of Total GVA.

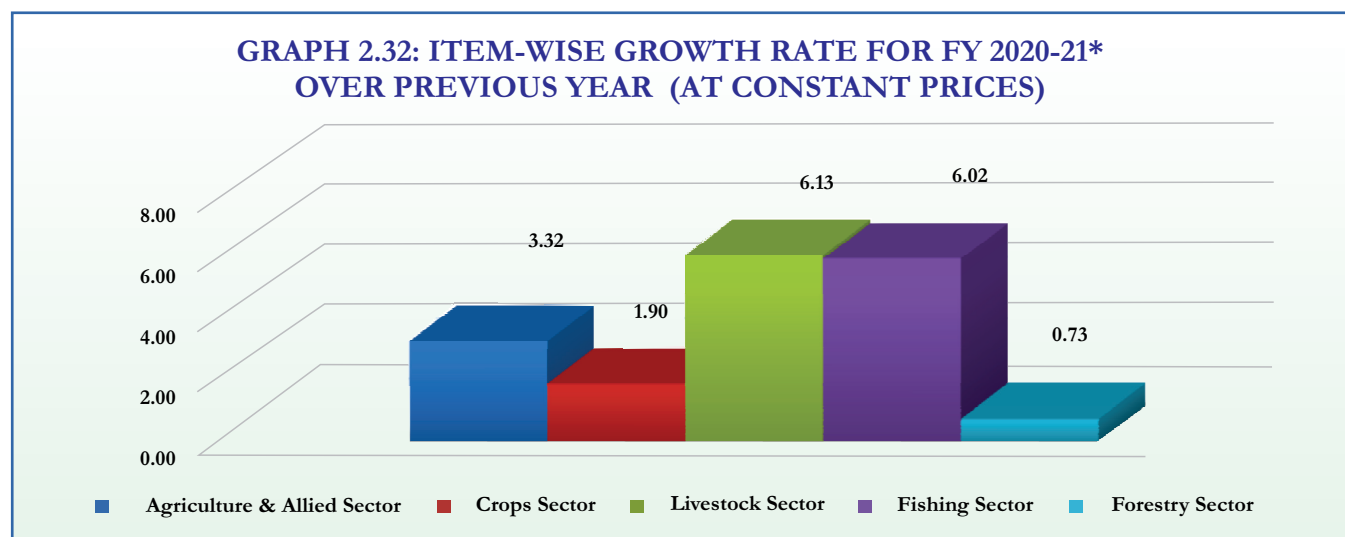

Note: ‘\*’ First revised estimates  
Source: NAD, CSO, MoSPI.

### 2.6.2 Item -Wise Annual Growth Rate (AGR)

Livestock, though only half the size of crops, plays a crucial role in driving the agricultural GVA growth. As per the first revised estimates Livestock Sector sees an annual growth rate of 6.13% at constant prices, more than Crop Sector growth rate which is

1.90%. Even the growth rate for Livestock sector is more than the overall growth rate of Agriculture & Allied Sector which is 3.32% which draws a special attention in better performance of Livestock to drive Indian economy.

Note: ‘\*’ First revised estimates  
Source: NAD, CSO, MoSPI.

# MILK PRODUCTION

## Milk Production

Table 1: Year -wise Estimates of Production and Per Capita Availability of Milk during 1950-51 to 2021-22 -All India			
Year	Milk Production	Human Population	Per Capita Availability
(March to February)	(Million Tonnes)	(Million Nos.)	(Gram /Day)
1950-51	17.0	359	130
1955-56	19.0	393	132
1960-61	20.0	434	126
1968-69	21.2	518	112
1973-74	23.2	580	110
1979-80	30.4	664	125
1980-81	31.6	679	128
1981-82	34.3	692	136
1982-83	35.8	708	139
1983-84	38.8	723	147
1984-85	41.5	739	154
1985-86	44.0	755	160
1986-87	46.1	771	164
1987-88	46.7	788	162
1988-89	48.4	805	165
1989-90	51.4	822	171
1990-91	53.9	839	176
1991-92	55.7	856	178
1992-93	58.0	872	182
1993-94	60.6	892	186
1994-95	63.8	910	192
1995-96	66.2	928	195
1996-97	69.1	946	200
1997-98	72.1	964	205
1998-99	75.4	983	210
1999-2000	78.3	1001	214
2000-01	80.6	1019	217
2001-02	84.4	1040	222
2002-03	86.2	1056	224
2003-04	88.1	1072	225
2004-05	92.5	1089	233
2005-06	97.1	1106	241
2006-07	102.6	1122	251
2007-08	107.9	1138	260
2008-09	112.2	1154	266
2009-10	116.4	1170	273
2010-11	121.8	1186	281
2011-12	127.9	1211	289
2012-13	132.4	1227	296
2013-14	137.7	1243	303
2014-15	146.3	1258	319
2015-16	155.5	1275	333
2016-17	165.4	1291	351

Table 46: Livestock Population- Census 2012 & 2019 All India

<b>I. CATTLE</b>			
Exotic/Crossbred and Indigenous/Non-Descript Cattle Population-Male, Female and Total			
Category	Population (In million) 2012	Population (In million) 2019	% Change
<b>Exotic/Crossbred</b>			
Male	5.97	3.61	-39.5
Female	33.76	47.75	41.4
<b>Total Exotic/Crossbred</b>	<b>39.73</b>	<b>51.36</b>	<b>29.3</b>
<b>Indigenous/Non-Descript</b>			
Male	61.95	43.94	-29.1
Female	89.22	98.17	10.0
<b>Total Indigenous/Non-Descript</b>	<b>151.17</b>	<b>142.11</b>	<b>-6.0</b>
<b>Cattle - Total</b>	<b>190.90</b>	<b>193.46</b>	<b>1.3</b>

<b>In-milk, Dry and Milch Cattle for Exotic/Crossbred and Indigenous/Non-Descript</b>				
Breed Group	Category	Population (In million) 2012	Population (In million) 2019	% Change
<b>Exotic/Crossbred</b>	In-milk	14.30	20.31	42.0
	Dry	5.12	5.77	12.7
	Milch	19.42	26.08	34.3
<b>Indigenous/Non-descript</b>	In-Milk	29.65	31.98	7.9
	Dry	18.47	16.53	-10.5
	Milch	48.12	48.51	0.8

<b>II. BUFFALO</b>			
Total Buffalo, Male, Female and Milch Animals			
Category	Population (In million) 2012	Population (In million) 2019	% Change
Total Male	16.10	9.28	-42.35
Total Female	92.60	100.57	8.61
In-milk	36.57	38.16	4.34
Dry	14.48	13.01	-10.19
Milch animals (In Milk + Dry)	51.05	51.17	0.22
<b>Buffaloes - Total</b>	<b>108.70</b>	<b>109.85</b>	<b>1.06</b>

Table 46: Livestock Population- Census 2012 & 2019 All India (Contd..)

**III. SHEEP**

Sheep Population - Exotic/Crossbred and Indigenous/Non-Descript

Category	Population (In million) 2012	Population (In million) 2019	% Change
Exotic/Crossbred	3.78	4.09	8.12
Exotic/ Crossbred Male	1.21	0.83	-31.32
Exotic/ Crossbred Female	2.57	3.26	26.62
Indigenous/Non-Descript	61.29	70.17	14.50
Indigenous/ Non-Descript Male	13.92	12.53	-9.93
Indigenous/ Non-Descript Female	47.37	57.64	21.67
<b>Sheep - Total</b>	<b>65.07</b>	<b>74.26</b>	<b>14.13</b>

**IV. GOAT**

Goat Population - Male, Female and Milch

Category	Population (In million) 2012	Population (In million) 2019	% Change
Male	37.62	32.10	-14.65
Female	97.56	116.78	19.71
In-milk	36.25	41.83	15.38
Dry	25.31	27.82	9.95
Milch animals (In Milk + Dry)	61.56	69.65	13.15
<b>Goat - Total</b>	<b>135.17</b>	<b>148.88</b>	<b>10.14</b>

**V. PIG**

Pig Population 2012 and 2019

Category	Population (In million) 2012	Population (In million) 2019	% Change
Exotic/Crossbred	2.46	1.90	-22.78
Indigenous/Non-Descript	7.84	7.16	-8.66
<b>Pig - Total</b>	<b>10.29</b>	<b>9.06</b>	<b>-12.03</b>

**VI. CAMEL**

Camel Population 2012 and 2019

Category	Population (In million) 2012	Population (In million) 2019	% Change
Male	0.19	0.08	-56.40
Female	0.21	0.17	-19.46
<b>Camel - Total</b>	<b>0.40</b>	<b>0.25</b>	<b>-37.05</b>

Table 46: Livestock Population- Census 2012 & 2019 All India (Contd..)

**VII. HORSES, PONIES, MULES & DONKEYS**

Horses, Ponies, Mules & Donkeys Population 2012 and 2019

Category	Population (In million) 2012	Population (In million) 2019	% Change
Horses & Ponies - Total	0.62	0.34	-45.22
Mules - Total	0.20	0.08	-57.09
Donkey - Total	0.32	0.12	-61.23
<b>Total</b>	<b>1.14</b>	<b>0.55</b>	<b>-51.74</b>

**VIII. MITHUN**

Mithun Population 2012 and 2019

Category	Population (In Lakh) 2012	Population (In Lakh) 2019	% Change
Male	1.3	1.7	33.65
Female	1.7	2.1	26.36
<b>Mithun - Total</b>	<b>3.0</b>	<b>3.9</b>	<b>29.52</b>

**IX. YAK**

Yak Population 2012 and 2019

Category	Population (In 000) 2012	Population (In 000) 2019	% Change
Male	35.11	26.02	-25.88
Female	41.56	31.55	-24.08
<b>Yak - Total</b>	<b>76.66</b>	<b>57.57</b>	<b>-24.90</b>

**X. POULTRY**

Poultry Population 2012 and 2019

Category	Population (In million) 2012	Population (In million) 2019	% Growth
Backyard poultry	217.49	317.07	45.79
Commercial Poultry	511.72	534.74	4.50
<b>Poultry - Total</b>	<b>729.21</b>	<b>851.81</b>	<b>16.81</b>
