Dated the 23rd September, 2013

FOREWORD

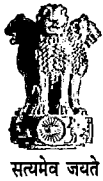

The "Basic Animal Husbandry and Fisheries Statistics" has been a biannual publication of the Department of Animal Husbandry, Dairying and Fisheries. It contains useful estimates such as that of major livestock products viz. milk, egg, meat and wool; different species of livestock population by age and sex; gross value of output; diseases, export, import and related infrastructure etc. Fisheries statistics and other related matters have also been added. Keeping in view the importance of the and its utility for policy purposes, it has been decided to publish the book annually. The painstaking efforts put in by Shri S. K. Das, Adviser (Statistics) and his team in preparing and finalizing this document is appreciated.

It is our hope that this publication, the 14th of the series, will be useful for administrators, policy planners, veterinarians, scientists, research organizations, Government agencies and others involved in the development of the livestock sector.

PREFACE

The "Basic Animal Husbandry & Fisheries Statistics-2013" contains production estimates for milk, egg, meat and wool upto the year 2011-12 which are based on regular survey viz. "Integrated Sample Survey" undertaken in partnership with States/UTs. It also contains fisheries statistics including estimates on fish and fish seed production. The world statistics on production of milk and egg up-to 2011 is also included for international comparability. The meeting of "Technical Committee on Direction" held in the month of July, 2013 finalized the production of major livestock products i.e. milk, eggs, meat and wool for 2012-13 is also included in this publication. The information on livestock population as per the Livestock Census-2003 and 2007 are also available in this publication.

Collection and compilation of a voluminous data to develop this document is a gigantic task that involved sincere and dedicated efforts of all State/UTs and Central Government's Officer/officials are appreciated and acknowledged. Appreciations are also due to Shri Kal Singh, Director, Shri Ajith Kumar N, Joint Director, Shri Manoj Kumar Verma, Deputy Director, Shri B.M. Gupta and Alok Nigam, Assistant Directors and Shri Deepak Kumar Agrawal, Senior Statistical Officer, S/Shri Dhyan Chand and Jitender Kumar, Data Entry Operators for examining the accuracy of data and its timeliness.

Though extreme care has been taken in the preparation of this report, possibility of some errors and omissions, however, cannot be ruled out. I would be glad to have comments and suggestions for its improvement in future.

Advisor (Statistics)

BASIC ANIMAL HUSBANDRY & FISHERIES STATISTICS - 2013

Contents	Pages
Foreword	(iii)
Preface	(v)
Summary and Analysis	1-30
Statistical Tables	
PART I Milk Production	31-44
PART II Eggs Production	45-54
PART III Wool & Meat Production	55-66
PART IV Livestock Population - 2003 & 2007	67-90
PART V Growth Rates & Plan Expenditure	91-98
PART VI Gross Domestic Product of Livestock Sector	99-110
PART VII Animal Husbandry Statistics	111-136
PART VIII Dairying Statistics	137-140
PART IX Fisheries Statistics	141-146
PART X Miscellaneous	147-162
PART XI World Statistics	163-176
PART XII Estimates on Major Livestock Products for 2012-13 and Anticipated Productions Estimates for 2013-14	177-190

STATISTICAL TABLES

Table No.	Contents	Pages
-----------	----------	-------

PART-I: ESTIMATES OF MILK PRODUCTION

1.	Estimates of Production and Per Capita Availability of Milk: 1950-51 to 2011-12 - All India	33
2.	Estimates of Milk Production - 2007-08 To 2011-12	34
3.	Estimates of Milk Production - 2007-08	35
4.	Estimates of Milk Production - 2008-09	36
5.	Estimates of Milk Production - 2009-10	37
6.	Estimates of Milk Production - 2010-11	38
7.	Estimates of Milk Production - 2011-12	39
8.	Estimates of Milk Production by Exotic/Crossbred Cows - 2007-08 to 2011-12	40
9.	Estimates of Milk Production by Non-Descript/Indigenous Cows - 2007-08 to 2011-12	41
10.	Estimates of Milk Production by the Buffalo - 2007-08 to 2011-12	42
11.	Estimates of Milk Production by Goats - 2007-08 to 2011-12	43
12.	Per Capita Availability of Milk during 2007-08 to 2011-12	44

PART-II: ESTIMATES OF EGGS PRODUCTION

13.	Estimates of Production and Per Capita Availability of Egg: 1950-51 to 2011-12 - All India	47
14.	Estimates of Egg Production - 2007-08 to 2011-12	48
15.	Estimates of Egg Production by Fowls & Ducks - 2007-08 & 2008-09	49
16.	Estimates of Egg Production by Fowls & Ducks - 2009-10, 2010-11 & 2011-12	50
17.	Estimates of Egg Production by Fowls - 2007-08 to 2011-12	51
18.	Estimates of Egg Production by Ducks - 2007-08 to 2011-12	52
19.	Per Capita Availability of Eggs during 2007-08 to 2011-12	53

PART-III: ESTIMATES OF WOOL & MEAT PRODUCTION

20.	Estimates of Production of Wool & Meat: 1950-51 to 2011-12 - All India	57
21.	Estimates of Wool Production - 2007-08 to 2011-12	58
22.	Estimates of Meat Production - 2007-08 to 2011-12	59
23.	Estimates of Meat Production from Cattle for 2007-08 to 2011-12	60
24.	Estimates of Meat Production from Buffalo for 2007-08 to 2011-12	61
25.	Estimates of Meat Production from Sheep for 2007-08 to 2011-12	62
26.	Estimates of Meat Production from Goat for 2007-08 to 2011-12	63
27.	Estimates of Meat Production from Pig for 2007-08 to 2011-12	64
28.	Estimates of Meat Production from Poultry for 2007-08 to 2011-12	65

PART-IV: LIVESTOCK POPULATION

29.	Livestock Population - 1951-2007 - All India Census	69
30.	Growth Rate of Livestock Population - 1951-2007 - All India	70
31.	Age & Sex Distribution of Livestock population- Census (2003 & 2007) All India	71-76
32.	Total Number of Livestock and Poultry - 2003 (State/UTs Wise)	77
33.	Total Number of Livestock and Poultry - 2007 (State/UTs Wise)	78
34.	Total Number of Livestock and Poultry (In Rural India) - 2007 (State/UTs Wise)	79
35.	Total Number of Livestock and Poultry(In Urban India) - 2007 (State/UTs Wise)	80
36.	Total Number of Crossbred Cattle - 2003 & 2007 (State/UTs Wise)	81
37.	Total Number of Indigenous Cattle - 2003 & 2007 (State/UTs Wise)	82
38.	Total Number of Buffaloes - 2003 & 2007 (State/UTs Wise)	83
39.	Number of Milch Animals - 2003 & 2007 (State/UTs Wise)	84
40.	Breedable Cattle/ Buffaloes Population - 2003 & 2007 (State/UTs Wise)	85
41.	Bull Population -2003 & 2007 (State/UTs Wise)	86
42.	Share of Breedable/ In Milk Population to the Total Population of Cattle/ Buffaloes in 2003 & 2007 Livestock Censuses	87
43.	Total Number of Sheep and Goats - 2003 & 2007 (State/UTs Wise)	88
44.	Total Number of Pigs - 2003 & 2007 (State/UTs Wise)	89
45.	Total Number of Fowl & Ducks - 2003 & 2007 (State/UTs Wise)	90

PART-V: GROWTH RATES & PLAN EXPENDITURE

46.	Compound Decadal Growth Rates of Major Livestock Products - All India	93
47.	Compound Plan Wise Growth Rate of Milk, Egg, Wool during the Five Year Plans - All India	93
48.	Outlay and Expenditure of Central and Centrally Sponsored Schemes under Animal Husbandry and Dairying Sector from First Plan - All India	94
49.	Eleventh Plan Outlay and Expenditure of Central Sector/Centrally Sponsored Schemes of Animal Husbandry & Dairying	95-96
50.	Funds Released under Centrally Sponsored Scheme of Integrated Sample Survey for Estimation of Major Livestock Products	97

Part-VI: GROSS DOMESTIC PRODUCT OF LIVESTOCK SECTOR

51.	Value of Output and Gross Domestic Product from Livestock Sector	101
52.	Value of Output from Livestock Sector - At Current Prices	102
53.	Value of Output from Livestock Sector - At 2004-05 Prices	103
54.	Domestic Product from Agriculture and Allied Activities - At Current Prices	104
55.	Domestic Product from Agriculture and Allied Activities - At 2004-05 Prices	105
56.	Gross Domestic Product by Economic Activity - At Current Prices	106
57.	Gross Domestic Product by Economic Activity - At 2004-2005 Prices	107
58.	Share of Agriculture and Livestock Sector in GDP - At 2004-05 Prices	108
59.	Share of Agriculture and Livestock Sector in GDP - At Current Prices	109

PART-VII: ANIMAL HUSBANDRY STATISTICS

60.	Incidence of Livestock Diseases in India during the Year 2012 (January-December)	113-114
61.	Import of Livestock and Livestock Products from 2010-11 & 2011-12	115-116
62.	Export of Livestock and Livestock Products from 2010-11 & 2011-12	117-119
63.	Value of Import of Livestock and Livestock Products during 2010-11 & 2011-12	120
64.	Value of Export of Livestock and Livestock Products during 2010-11 & 2011-12	120
65.	Area under Fodder Crops and Permanent Pastures and Other Grazing Lands 2005-06 to 2009-10	121
66.	Value of Consumption of Broad Groups of Items Per Person for a Period of 30 Days –All India	122-123
67.	Percentage Value of Consumption of Broad Groups of Items for Period of 30 Days – All India	124-125
68.	Percentage Distribution of Monthly Per Capita Expenditure (MPCE) by Groups of Consumption Items over NSS Rounds	126-127
69.	Per '000 Distribution of usually Working Persons in Farming of Animal and Agriculture and Animal Husbandry Service Activities, except Veterinary Activities	128
70.	Number of Veterinary Institutions	129
71.	State Farms and Other Infrastructures	130-134
72.	Artificial Insemination Performed during 2007-08 to 2011-12	135

PART VIII: DAIRYING STATISTICS

73.	Number of Dairy Plants, State Wise, Registered by Central Registering - As on 31 st March, 2011	139
74.	Achievement of Some of the Key Components of Dairy Development in Different States under Cooperative Sector in 2011-12	140

PART IX: FISHERIES STATISTICS

75.	Fish Production during 2011-2012 & 2012-13 (Provisional)	143
76.	Fish Seed Production during 2011-12 & 2012-13 (Provisional)	144
77.	Inland Fisheries Resources by States and Union Territories	145
78.	Marine Fisheries Resources - Coastal States and Union Territories of India	146
79.	Fishing Crafts - Coastal States and Union Territories	146

PART X: MISCELLANEOUS

80.	Human Population 1901-2011	149
81.	Sex Ratio 1901-2011	150
82.	Literacy Rate : 1951-2011	150
83.	Administrative Units- Number of Districts, Sub-Districts, Towns and Villages in 2011 Population Census	151
84.	Number and Percentage of Population below Poverty Line in Urban and Rural Areas – 2009-10 - State Wise (Based on Tendulkar Methodology)	152
85.	Distribution of Operational Holding (2010-11) - All India	153
86.	Distribution of Livestock according to Size of the Holding during 2006-07 - All India	154
87.	Number and Area of the Operational Holdings in India from 1970-71 to 2010-11	155
88.	Distribution of Number and Area of the Operational Holdings and Area Operated by Major Size Classes of Holdings in 1990-91 to 2010-11	155
89.	Average Size of Holding by Major Size Classes in India during All Agriculture Census Years	156
90.	Index Number of Wholesale Prices of All Commodities Food Articles and Livestock Product	157
91.	All India Consumer Price Index Numbers	158-161
92.	Number of Animals Insured under the Livestock Insurance Scheme of DADF	162

PART-XI: WORLD STATISTICS

93.	World Livestock Population - 2000 - 2011 (Species Wise)	165
94.	World Estimates of Milk Production -1990 To 2011	166
95.	Production of Cow Milk by Major Countries of the World - 2007-2011	167
96.	Production of Buffaloes Milk by Major Countries of the World - 2007-2011	165
97.	Production of Goat Milk by Major Countries of the World - 2007-2011	169
98.	Production of Egg by Major Countries of the World - 2007-2011	170
99.	FAO Statistics pertaining to Milk Production Per Capita Availability of Milk-2011	171-175
100.	Livestock Numbers of Major Top Ten Countries of the World - 2011	176

**PART-XII: ESTIMATES ON MAJOR LIVESTOCK PRODUCTS FOR 2012-13
AND ANTICIPATED PRODUCTIONS ESTIMATES FOR 2013-14**

101.	Estimates of Major Livestock Products for Annual Season of 2012-13	179
102.	Estimates of yield rates, and share of CB, ND, Buffalo and Goats in Milk Production 2012-13	180-181
103.	Estimates of yield rates and share of fowls and duck in Egg Production 2012-13	182-183
104.	Estimates of production, yield rates and share of animals in meat production during 2012-13	184-187
105.	Estimates of yield rates, and share of Ram/Weather, Ewe, Lamb in wool Production (2012-13)	188-189
106.	Physical Targets for the Year 2013-14	190

LIST OF SUMMARY AND GRAPHS

S. No.	Contents	Page no.
1.	Introduction	3-5
2.	Gross Value Output and GDP of Livestock and Fisheries Sectors	6-7
3.	Milk Production	8-15
4.	Egg Production	16-21
5.	Meat Production	22-25
6.	Wool Production	26-30

BASIC ANIMAL HUSBANDRY & FISHERIES STATISTICS

Summary & Analysis

2013

BASIC ANIMAL HUSBANDRY & FISHERIES STATISTICS (BAHFS)– 2013

1. Introduction

The production of MLP is estimated on the basis of annual sample surveys conducted by State Animal Husbandry Departments under the Central Sector Scheme: 'Integrated Sample Survey'. The surveys are conducted in three seasons – Summer, Rainy and Winter. The estimates of MLP are approved by “Technical Committee of Direction for improvement in Animal Husbandry & Dairying Statistics” (TCD), which meets annually.

The Part I of the BAHFS-2013 contains estimates of milk production up to 2011-12. Annual average production of milk is 117.2 million tonnes in XIth plan and estimated production for 2012-13 is 132.4 million tonnes. The targeted production was 107.9 million tonnes at the beginning of the 11th Plan (2007-08) and has been increased to 127.9 million tonnes in 2011-12. The per capita availability of milk has increased from 260 gram per day in 2007-08 to 290 gram per day in 2011-12. The shares of milk production in 2011-12 by exotic/crossbred cows, indigenous/non-descript cows, buffaloes and goats were 24.3 %, 20.9 %, 51.1 % and 3.8 % of total milk production respectively.

The Part II of the BAHFS-2013 contains estimates of eggs production. Eggs production is reached to 69.7 billion numbers in 2012-13 as compared to 66.4 billion numbers in 2011-12 and 53.6 billion numbers at the beginning of 11th Plan (2007-08). The per capita availability of eggs has increased from 47 eggs per annum in 2007-08 to 55 eggs per annum in 2011-12.

The Part III of the BAHFS-2013 contains data on wool and meat production. Wool production during 2012-13 is reached to 46.1 million kilograms. It has slightly increased from 43.9 million kilograms at the beginning of 11th Plan (2007-08) to 44.7 million kilograms in 2011-12. The data on various types of animals slaughtered, their average yield rate and meat production up to 2011-12 have been included. Meat production including poultry meat is reached to 5.9 million tonnes in 2012-13 as compared to 5.5 million tonnes in 2011-12 and 4.0 million tonnes at the beginning of 11th Plan (2007-08). Meat production reported upto the year 2006-07 did not include data from commercial poultry farms since such information was not available.

The sudden increase in meat production from 2.3 million tonnes in 2006-07 to 4 million tonnes in 2007-08 was due to inclusion of meat produced from commercial poultry farms.

The Part IV of the BAHFS-2013 is devoted to the results of 17th Livestock Census 2003 and 18th Livestock Census 2007 (derived from village level totals). In the 18th Livestock Census 2007, for the very first time digital data up to the household level has been processed at the central level through the National Informatics Centre. The table on livestock population from 1951 to 2007 shows that cattle population in the country was increasing till 15th Livestock Census 1992. However, cattle population decreased from 204.58 million in 1992 to 198.88 million in 1997 and further decreased to 185.18 million in 2003 and thereafter increased to 199.08 million in 2007. Detailed data on Livestock population of 2003 and 2007 have been provided with comparisons. During the inter-censal period from 2003 to 2007, cattle population increased by 7.5%; buffalo by 7.6%; sheep, goat and yak by 16.4%, 13.0% and 28.0%, respectively. The population of mithun and pigs declined by 4.9% and 17.6% respectively. The population of camels, horses and ponies, mules and donkeys decreased by 18.2%, 18.6%, 22.1% and 32.6% respectively. Population of exotic and crossbred cattle registered a significant increase of 33.9% whereas the indigenous cattle increased by only 3.4%. The exotic and crossbred milch cattle increased by 28.3%, indigenous milch cattle increased by 2.5% and milch buffaloes increased by 3.0%. The proportion of in-milk animals to the total milch animals has increased from 72.8% to 74.4% for crossbred cattle, from 59.0% to 63.9% for indigenous cattle and from 70.6 % to 73.3% for buffaloes.

The growth rates of production and plan expenditures on various schemes of the animal husbandry and dairy sectors are provided in part V of the report and the Gross Domestic Product of livestock sector is provided in part VI. The contribution of livestock sector in the national economy at current prices was 3.9% in 2011-12. The value of output in 2011-12 from livestock sector was Rs. 4,59,051 crores at current prices, out of which milk and milk products was Rs. 3,05,484 crores, meat was Rs. 83,641 crores and eggs was Rs. 17,803 crores.

The Part VII of the BAHFS-2013 contains various data like incidence of livestock diseases, import and export of livestock and livestock products, value of consumption of various livestock products, employment in animal husbandry sector, veterinary institutions and other

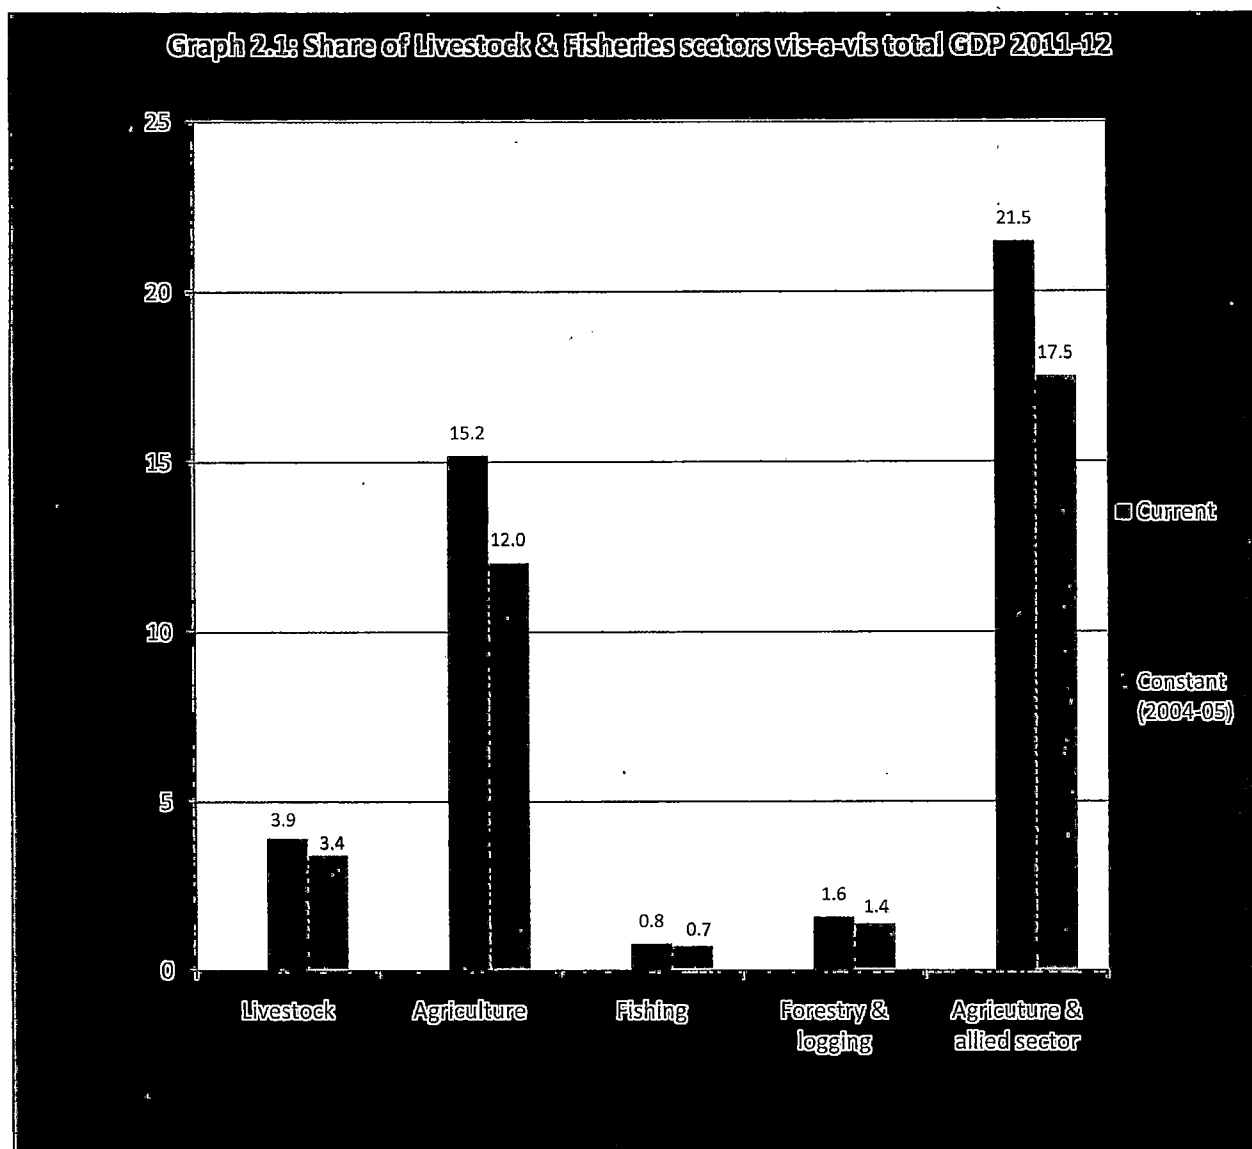

veterinary infrastructures etc. The data on Artificial Insemination performed is updated from the proceedings of TCD meeting held during October, 2012. Part VIII contains Dairying Statistics and Part IX of the report contains fisheries statistics like fish production, fish seed production, inland/marine fisheries resources and fishing crafts and in part X of the report, miscellaneous data like human population, selected indicators of national economy are provided.

The Part XI of the BAHFS-2013 contains world statistics based on Food and Agricultural Organization (FAO) Statistical Database. It indicates India ranks first in buffalo's milk production and second larger producer of cow milk. A table on livestock numbers by world's top 10 countries based on 2011 data obtained from FAOSTAT website is included to facilitate international comparison.

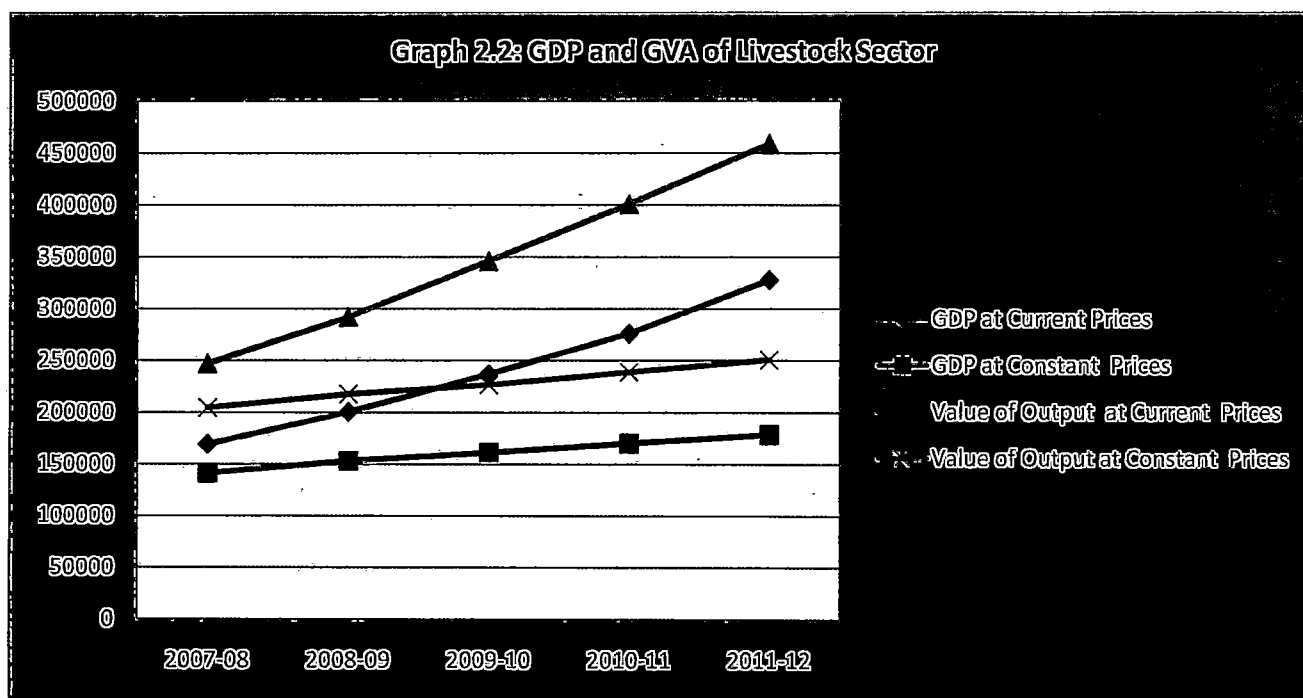

The Part XII of the BAHFS-2013 contains the estimates of major livestock products for the year 2012-13. These estimates were placed before the Technical Committee on Direction in its meeting held during 4th-5th July, 2013 under the Chairmanship of Secretary and Chief Statistician of India. This part also contains projected figures of production of milk, egg, meat and wool for the year 2013-14.

2. GROSS VALUE OUTPUT AND GDP OF LIVESTOCK AND FISHERIES SECTORS

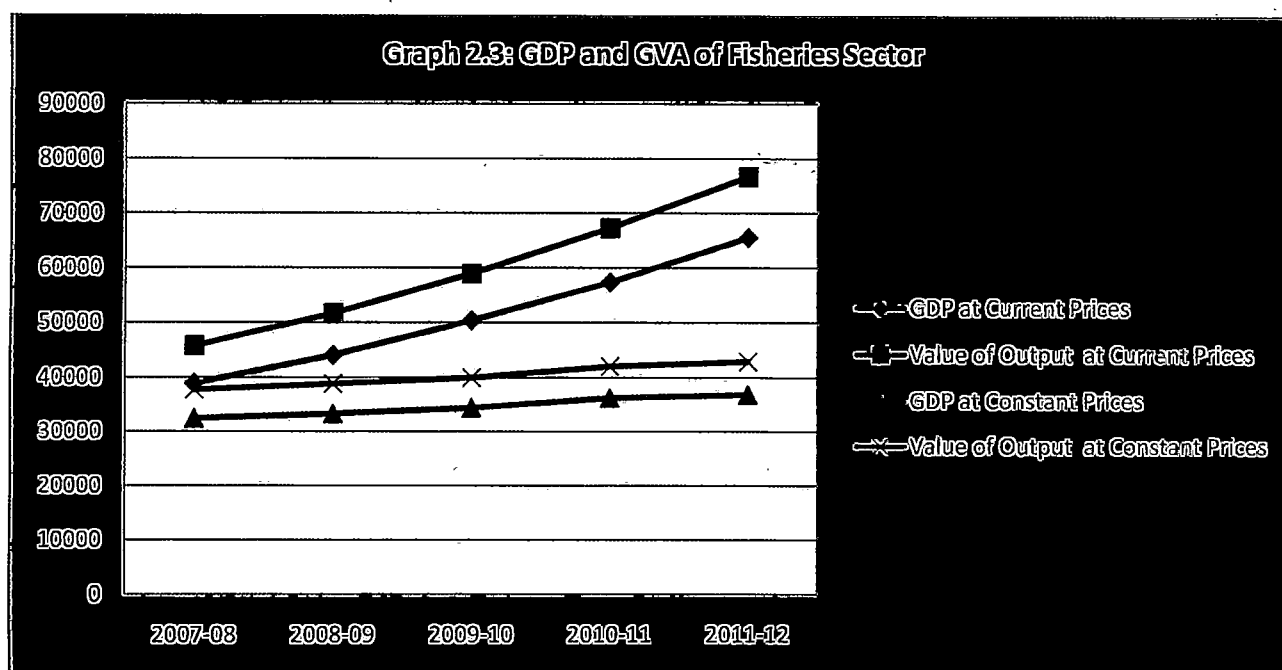

Livestock and fisheries sector play an important role in the national economy and in the socio economic development of the country. The contribution of these sectors to the national economy in terms of Gross Domestic Product is 3.9% at current prices for livestock sector whereas for fisheries sector it is 0.8% at current prices .The share of contribution of all sectors under Agriculture & allied activities to total GDP both at current and constant prices (2004-05) is shown in the **Graph 2.1**.

The Value of Output from livestock and fisheries sector is depicted in the **Graph 2.2** and **Graph 2.3** respectively. The analysis shows that the Value of Output of Livestock sector has steadily increased in both current and constant prices during the period 2007-08 to 2011-12 with an annual average growth rate of 16.36% and 5.07% respectively.

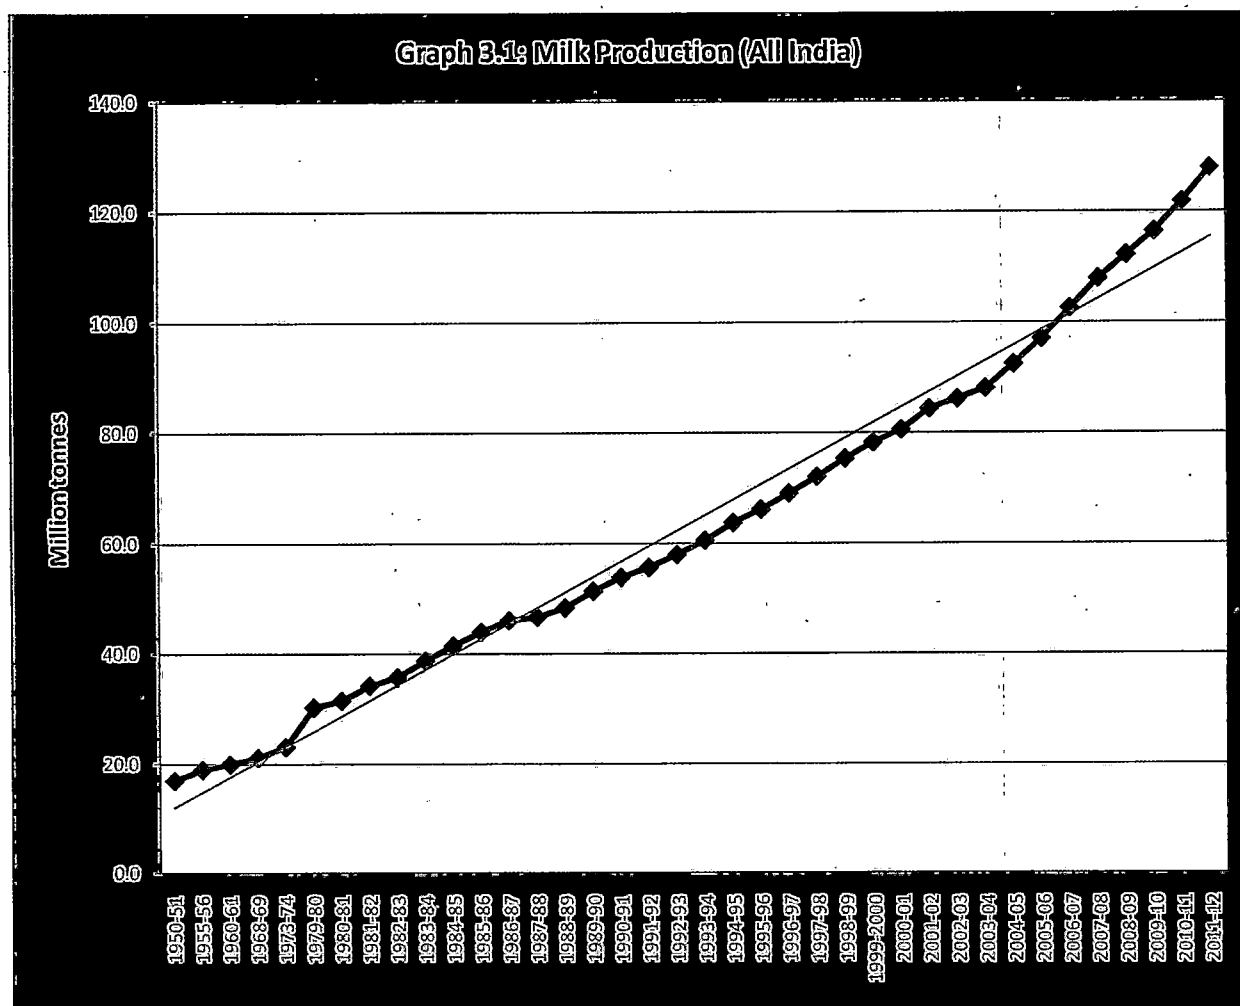

The fisheries sector showed a steady increase in terms of Value of Output and GDP for current prices with an average annual growth rate of 13.0% and 13.3% respectively. However, at constant prices both parameters show a slow progress though both values increased with an annual average growth of 3.7% and 3.8% respectively.

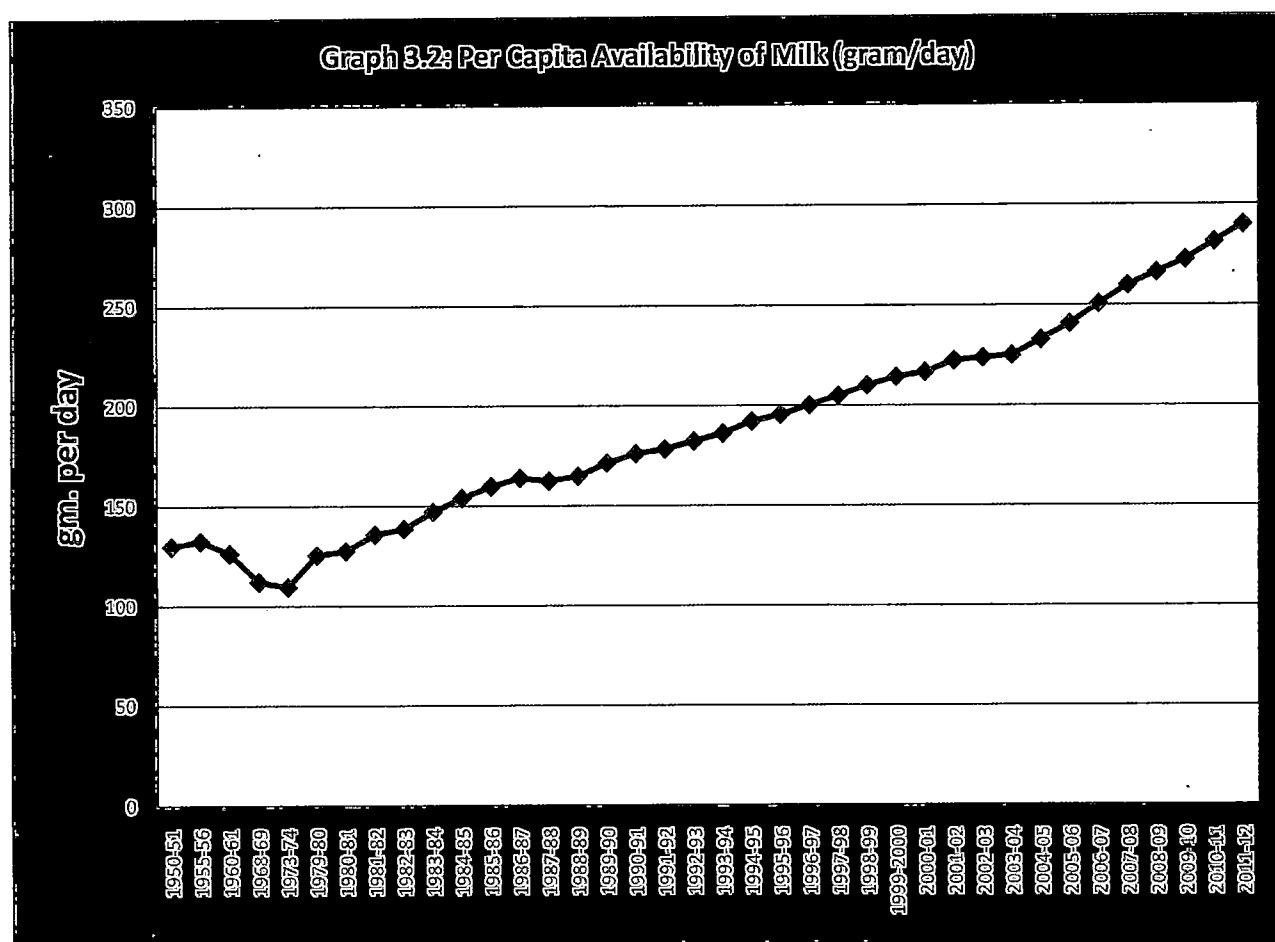

3. MILK PRODUCTION

Milk and milk products are the essential food items of human beings which provide sufficient nutritional supplements especially to the children. The milk production in the country was 17.0 million tonnes during 1950-51. A number of initiatives under taken by the government helped improving the productivity of milk over the period. A trend showing the increase in milk production over the past three decades is depicted in the **Graph 3.1**. The analysis shows that during the 11th year five year Plan (2007-2012), the average annual growth rate of milk production was 4.51%. As a result, the total Milk production during the period has increased from 107.9 million tonnes in 2007-08 to 127.9 million tonnes in 2011-12. As regards the annual growth rate, the milk production increased from 121.8 million tonnes in 2010-11 to 127.9 in 2011-12 registering a growth of 4.97%.

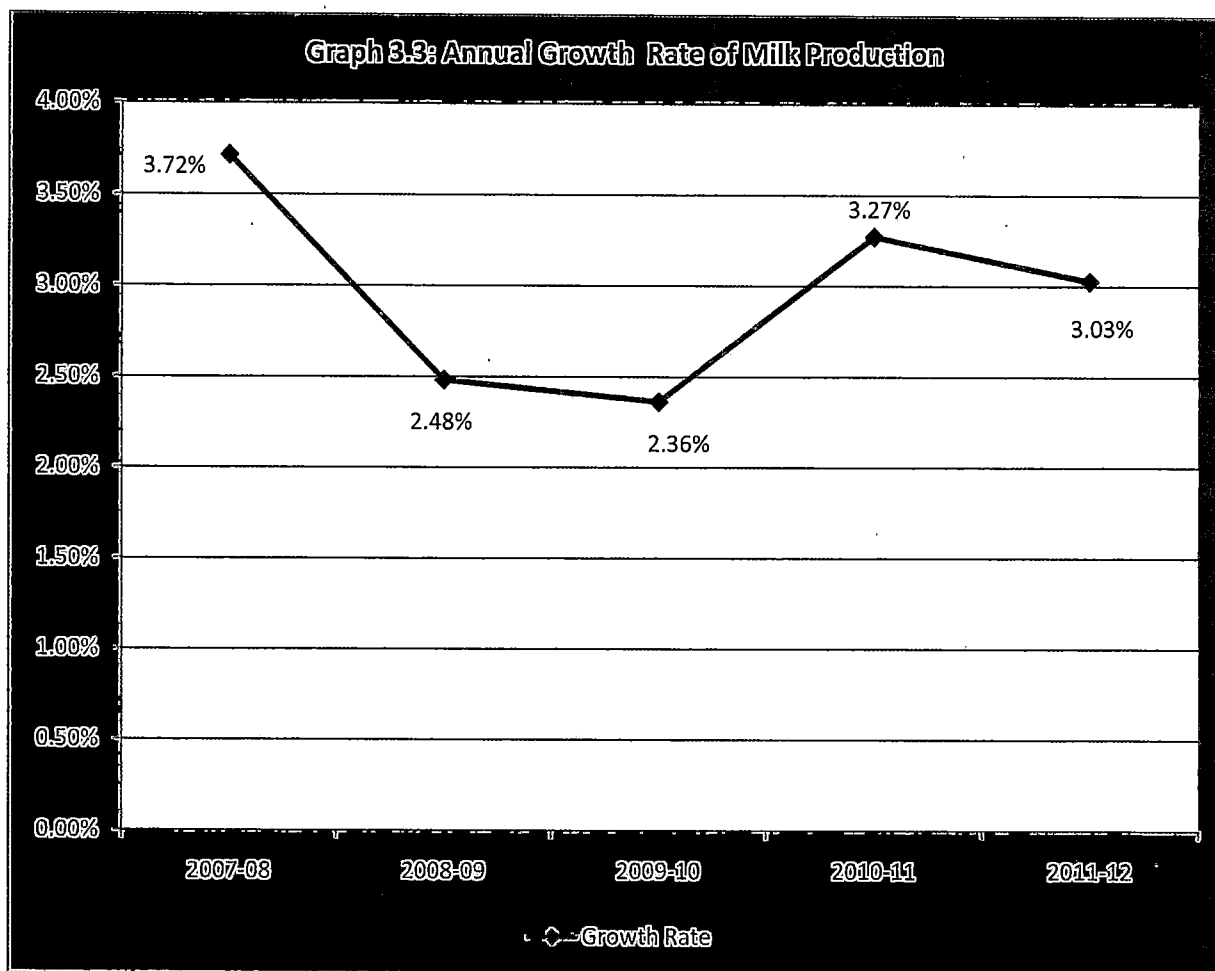

The per capita availability of milk was at 130 gm/day in 1950-51. There has been steady increase in per capita availability of milk since 1973-74 with a marginal fluctuation in the intermittent periods however the production has sharply increased from 225 gm per day in 2003-04 to 290 gm per day in 2011-12 with an average annual growth rate of 2.71 % as illustrated in the **Graph 3.2**.

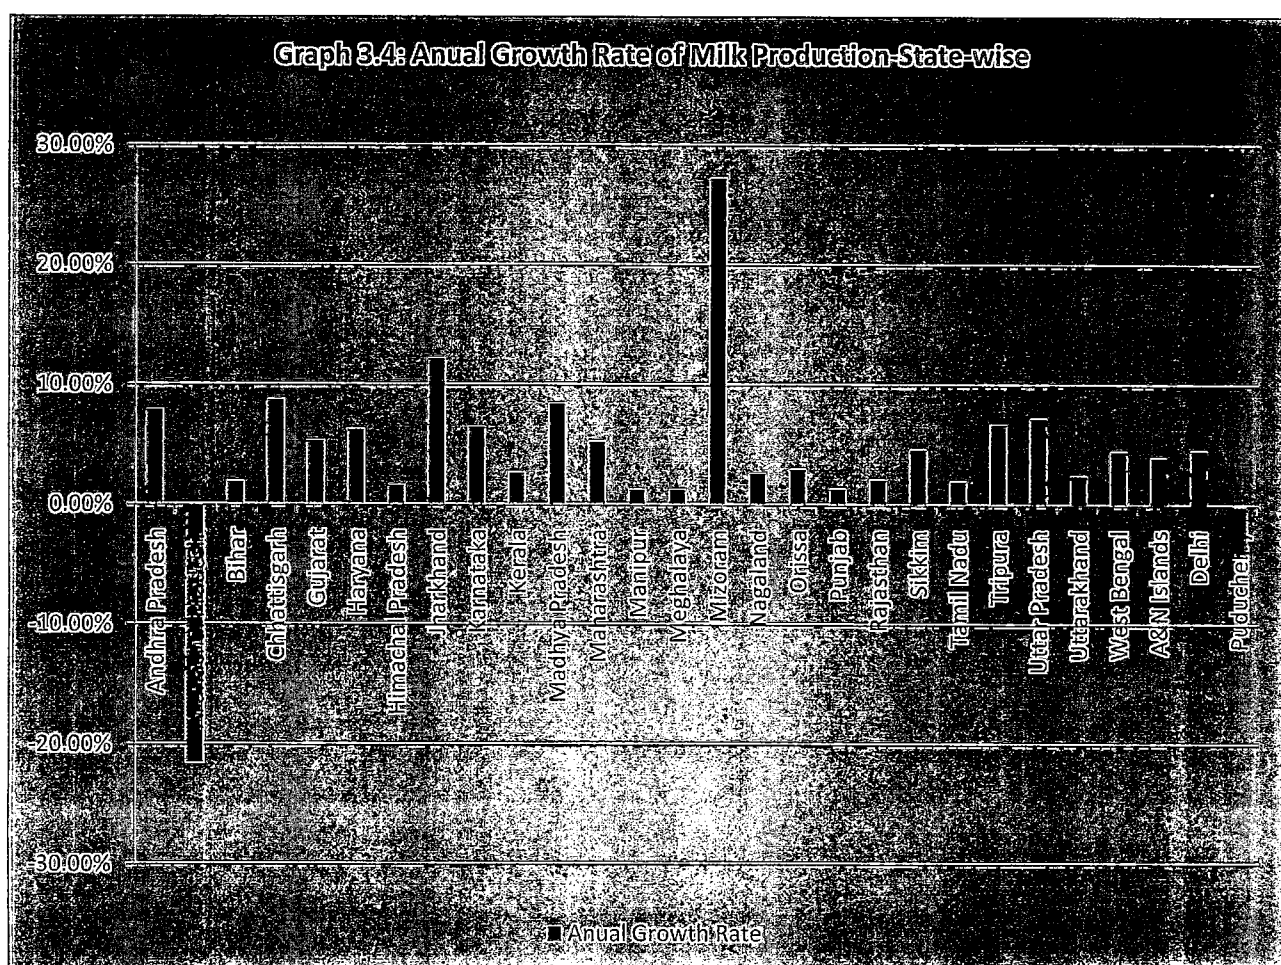

The analysis shows that the 11th five year plan (2007-2012) the per capita availability of milk increased from 260 gm/day to 290 gm/day. Annual growth of population has direct impact on current productivity of milk and gradual development of the sector vis-a-vis productivity of animal in milk neutralise, additional requirement for growth in population and incremental additional per capita availability. The graph indicates gradual incremental increase in per capita availability of milk in Xth and XIIth five year plan.

As has been observed from **Graph 3.3**, during the 11th five year plan milk production has an average annual growth rate of 2.97%. The growth rate has improved marginally and reached 3.03% during the year 2011-12 as compared with 2010-2011. The production was least for the year 2009-10.

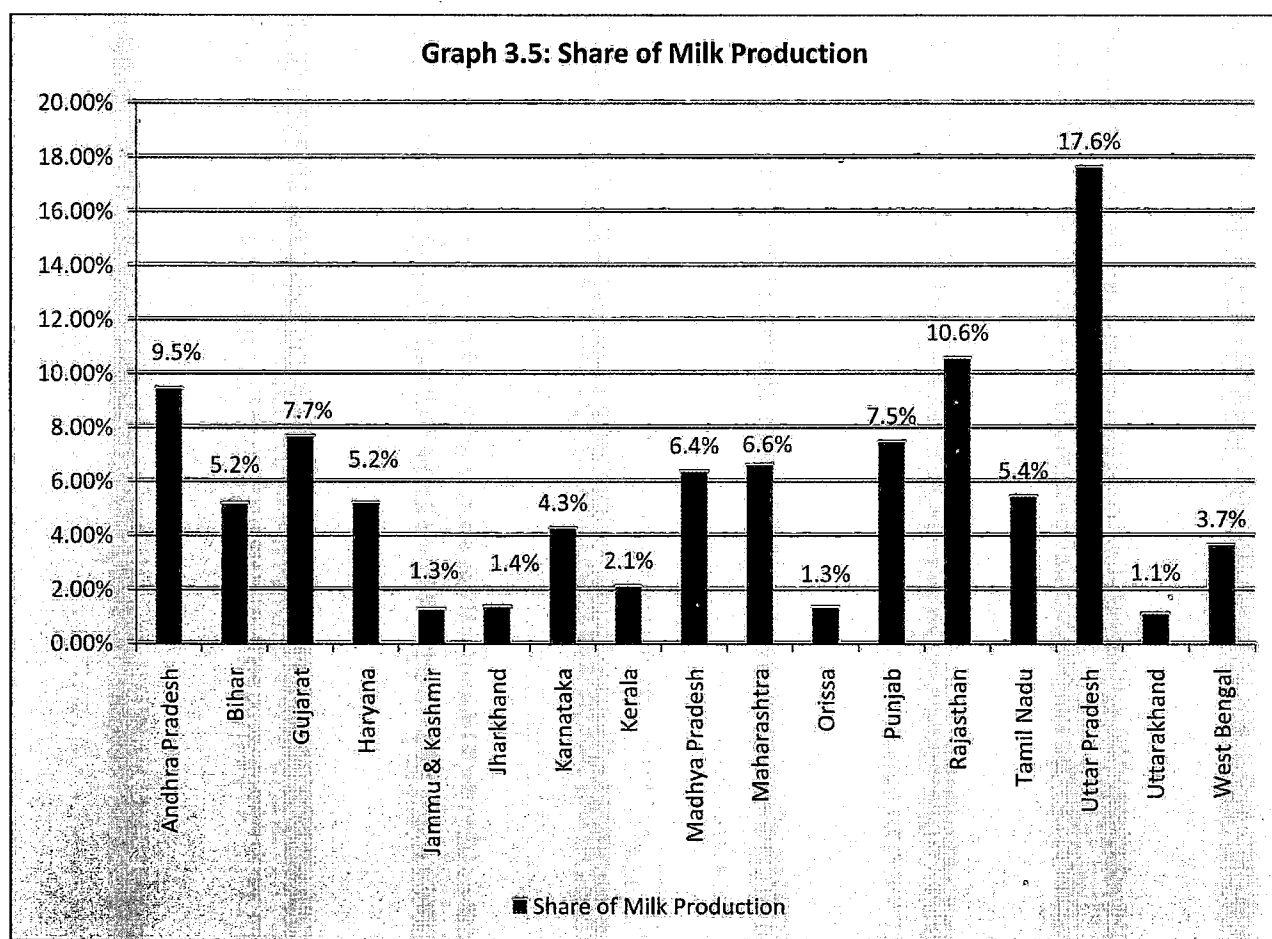

An analysis showing the state-wise variation in the growth rate in production of milk for the year 2011-12 is reflected in **Graph 3.4**. Jharkhand state has the highest growth rate of 12.22% in the year 2011-12 as compared with the year 2010-11 while the lowest positive growth rate 0.31% was registered in the state of Jammu & Kashmir. Madhya Pradesh state has achieved the second highest positive growth rate which is 8.45% while Uttar Pradesh has 7.25%.

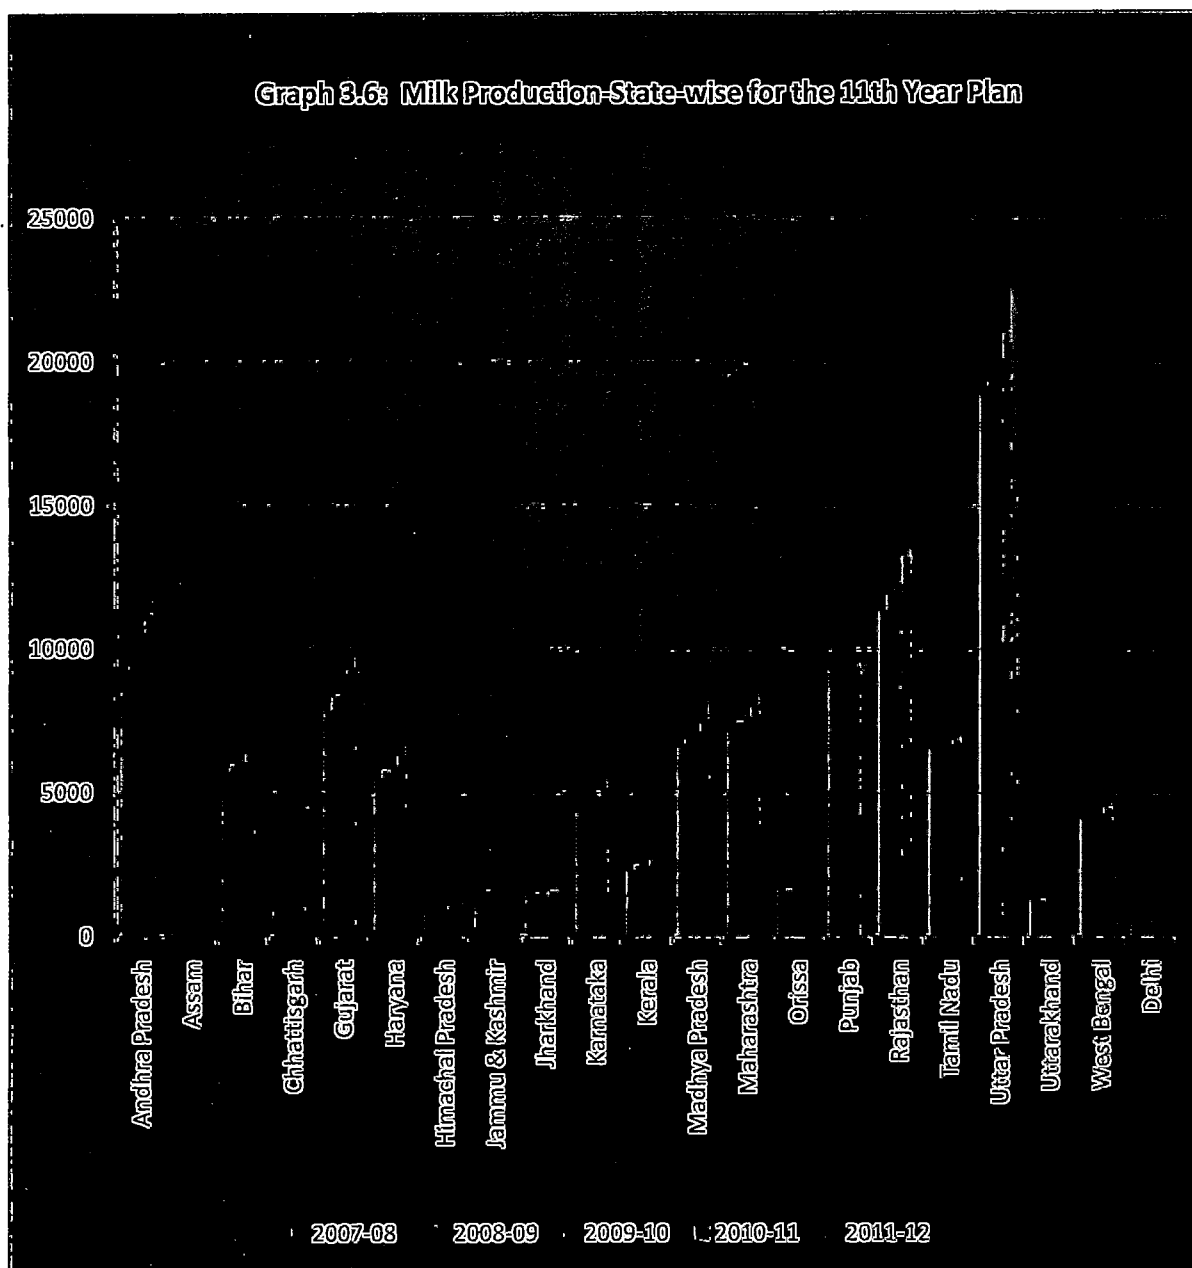

There are two states namely Arunachal Pradesh and Puducherry where the growth rate of the production of milk has decreased significantly. Arunachal Pradesh has the highest negative annual growth rate - 21.43% while Puducherry has the second highest negative growth rate -4.26%. The other states like Goa, Chandigarh, D&N Haveli registered no growth during 2011-12.

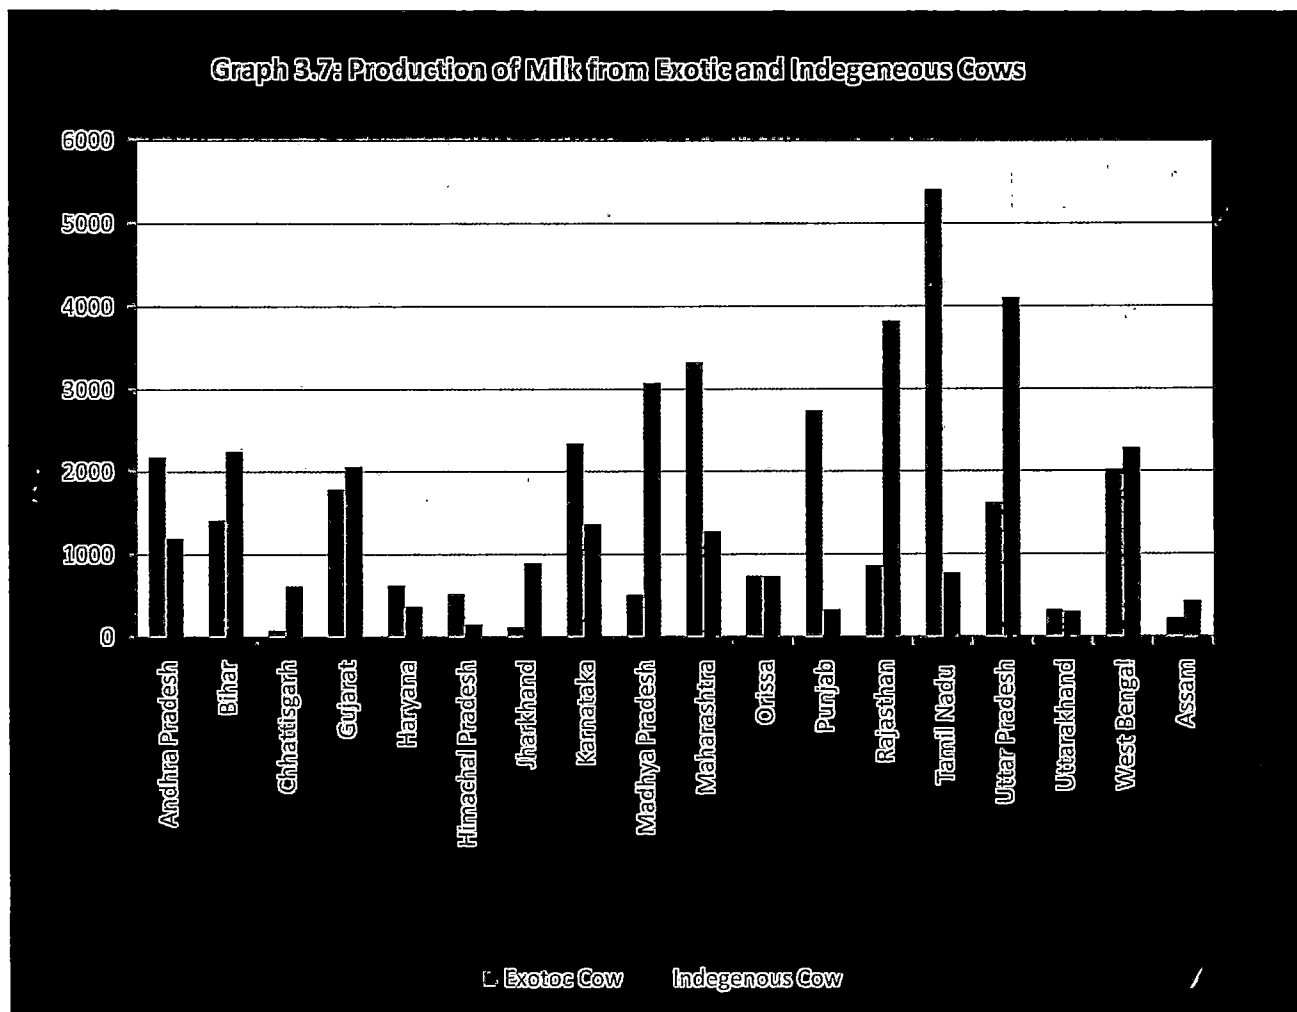

An analysis showing the share of milk production vis-a-vis total milk production in the country is given in the **Graph 3.5** below. All the North East States and UTs have produced only 1.45 % of the total milk production in the country. The largest producer of milk is Uttar Pradesh which produces 17.64% of the total milk production in the country followed by Rajasthan that produces 10.56% of the production. Andhra Pradesh is the third largest milk producer state in the country which produces 9.45% of the total production.

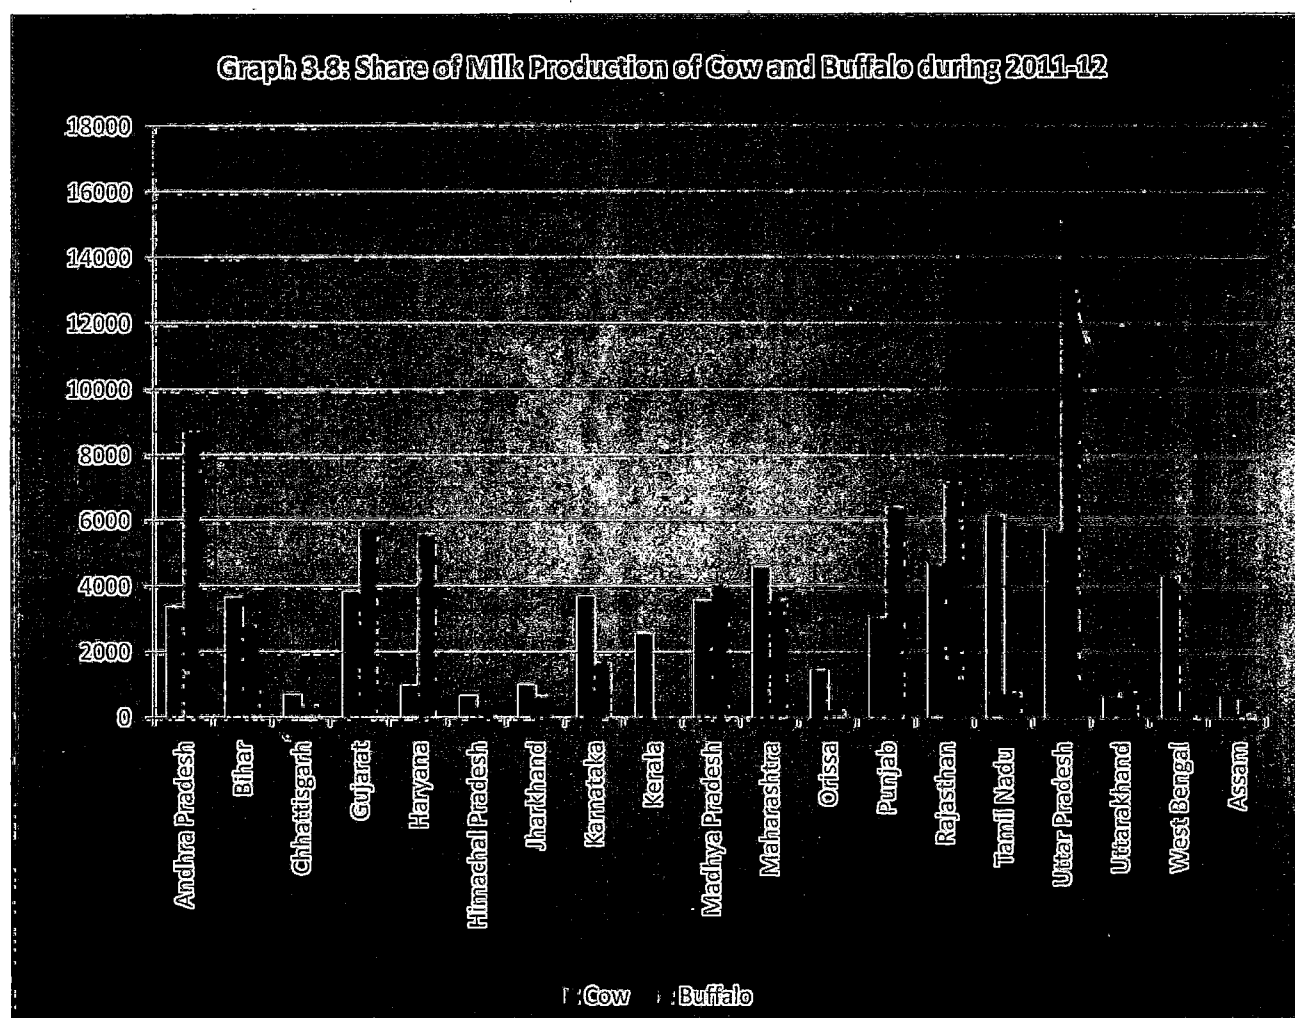

The **Graph 3.6** shows the state-wise variation in total milk production during the 11th five year plan. It is observed that states like Uttar Pradesh, Andhra Pradesh, Gujarat, Madhya Pradesh, Maharashtra, Rajasthan, Haryana, and Karnataka had progressive trend in production of milk while Uttar Pradesh remained the largest producer of milk during the entire 11th five year plan.

Graph 3.7 below shows the variation in the production of milk by exotic and indigenous cows for various states in the year 2011-12. Tamil Nadu is the largest producer of cow milk in the country which produces 11.05% of the total cow milk in the country out of which 87.45% of cow milk is produced from exotic cows. The state of Uttar Pradesh is the second largest state in the country which produces 10.22% of the total cow milk production and of this 71.67% of cow milk is produced from indigenous cows.

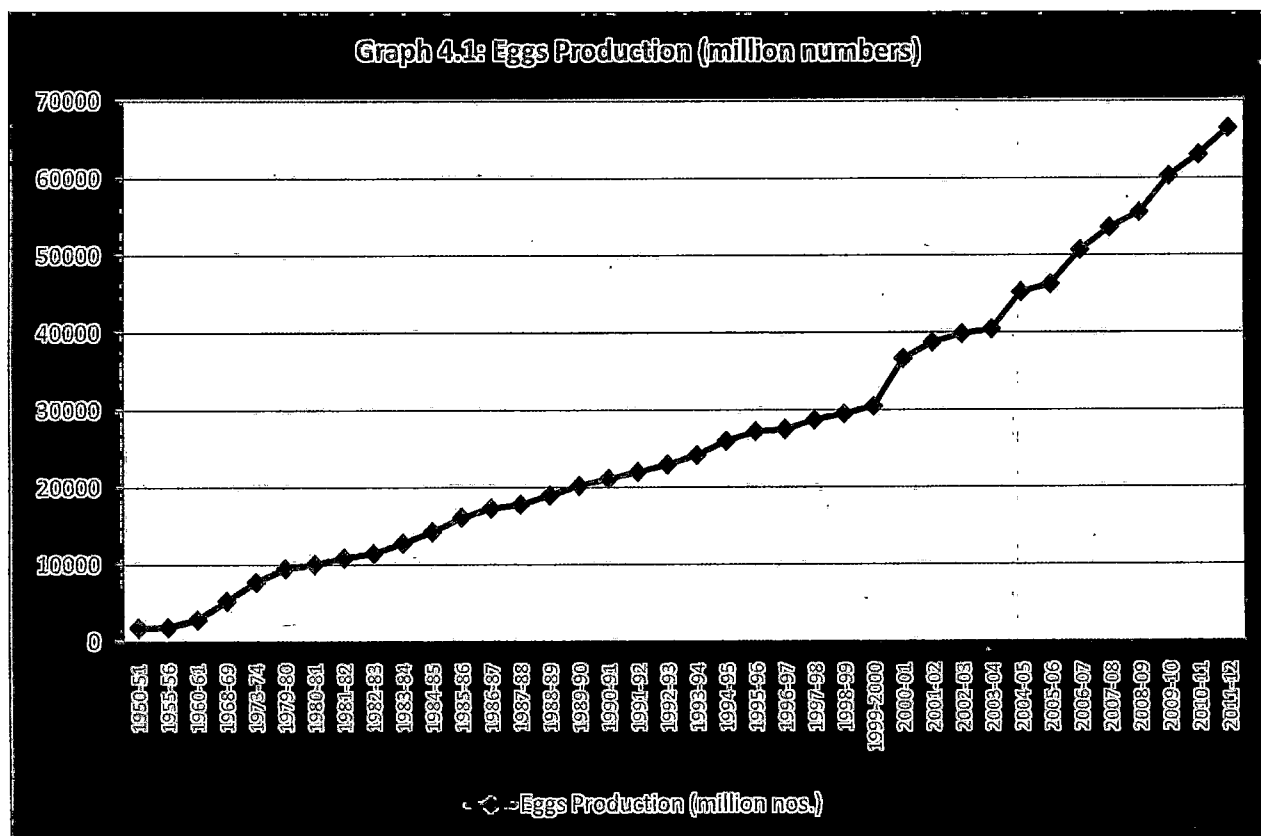

In most of the states the milk production is largely contributed by the buffalo. A comparative picture reflecting buffalo and cow milk production is shown in **Graph 3.8**. Buffalo milk predominates over cow milk in the states like Uttar Pradesh, Punjab, Madhya Pradesh, Haryana, Andhra Pradesh, Gujarat, and Rajasthan. However, there are states such as Tamil Nadu, Karnataka, Bihar, Odisha, West Bengal, Kerala, Himachal Pradesh, Jharkhand and Assam where major production of milk is from cow.

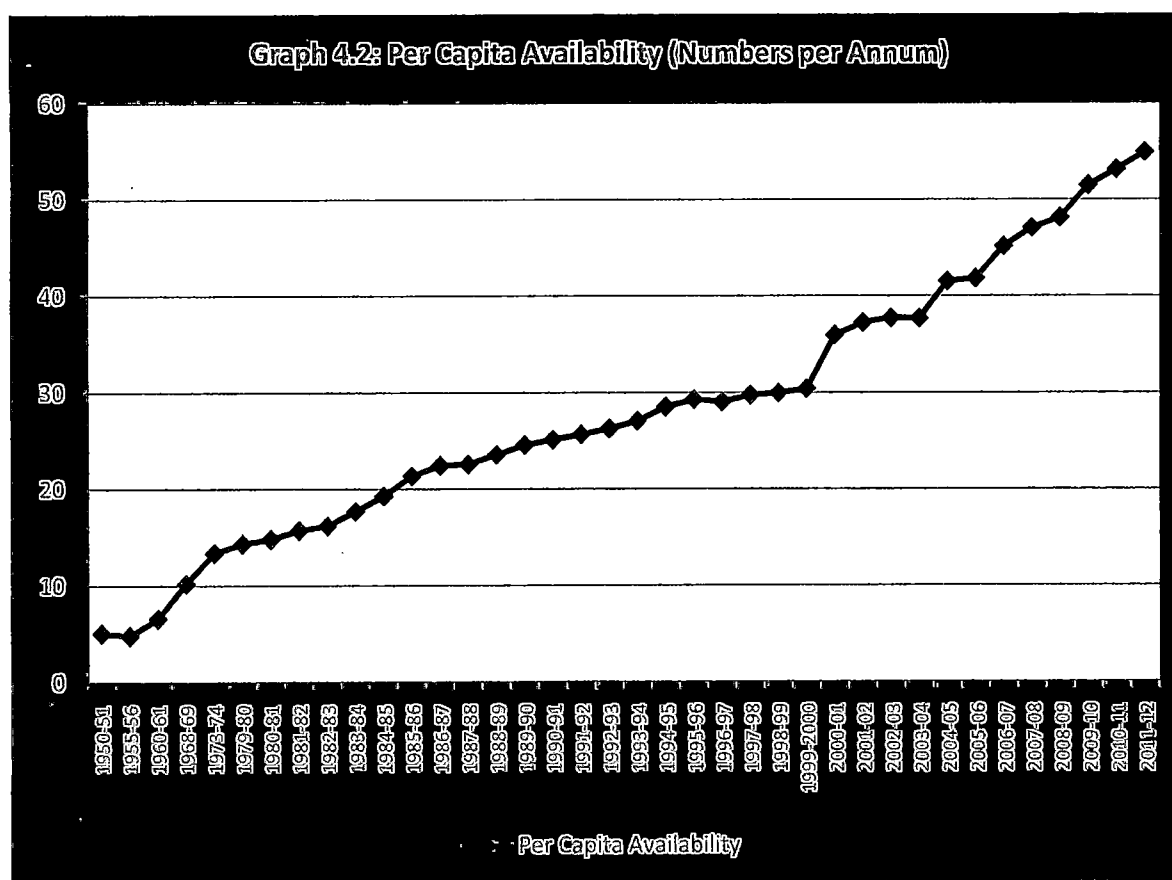

4. EGG PRODUCTION

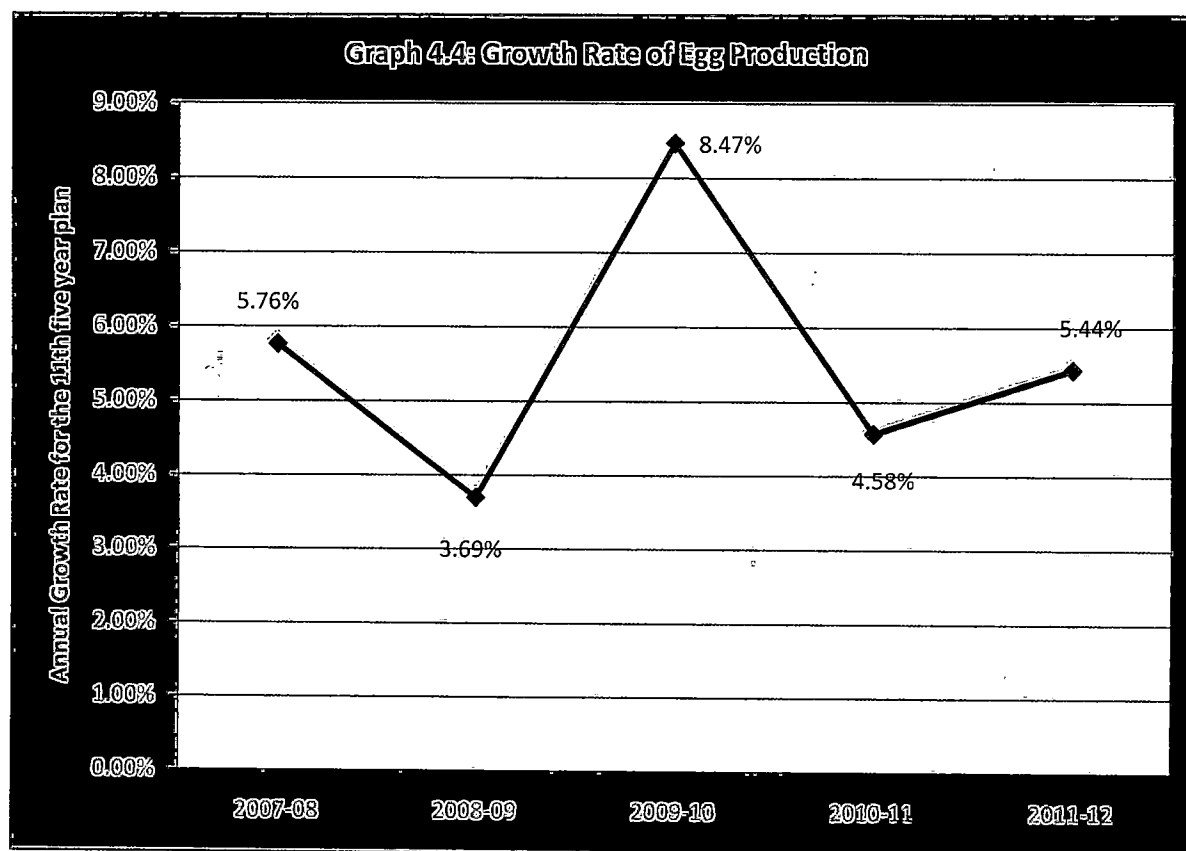

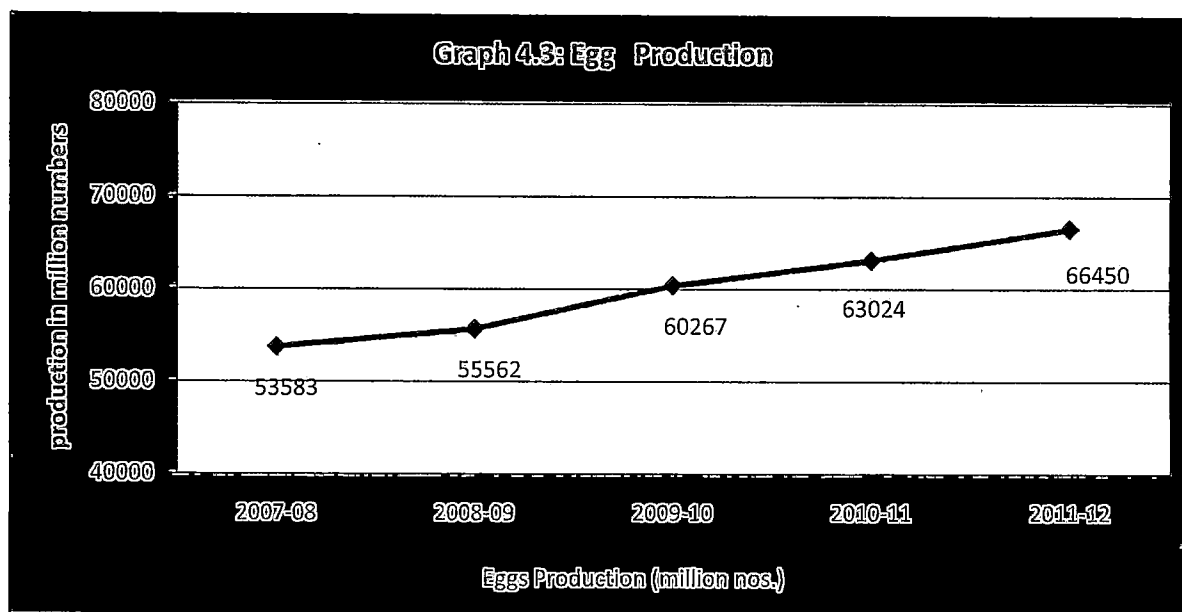

Poultry development is one of the important activities of livestock sector. The total egg production in the country was at 1832 million in the year 1950-51 and since then the production of egg continues to rise over the period of time, as depicted in **Graph 4.1**. As can be observed in the graph, there is a steady increase in production of egg up to the year 1999-2000. From the year 1999-2000 onwards the production of egg improved substantially and it reached 66450 million in the year 2011-12, from 1999-2000 with an average annual growth rate of 6.69%.

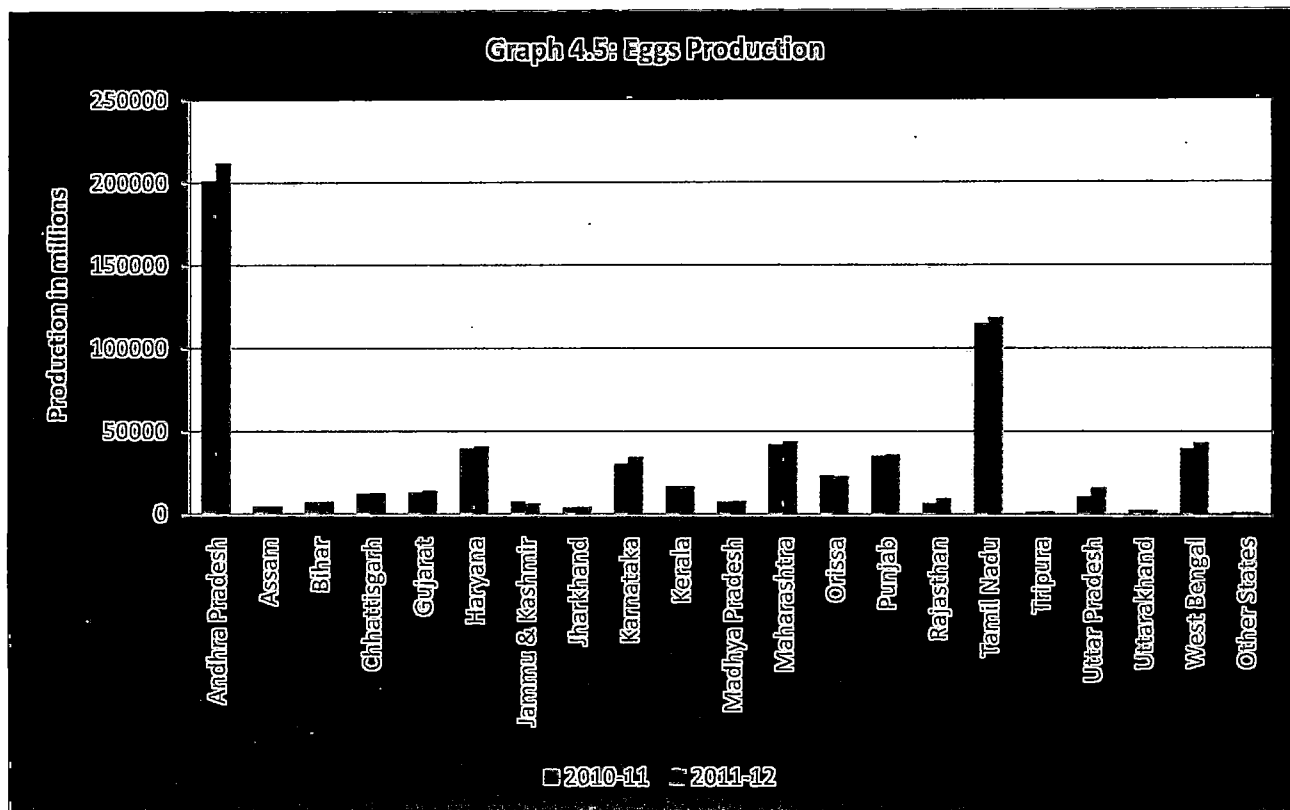

The per capita availability of egg was 5 eggs per annum during the period 1950-56. There has been steady increase in per capita availability of egg since then till 1979-80 with marginal fluctuations in the intermittent periods. However, the production has been constantly increasing since 1979-80 up to the year 1999-2000 with marginal fluctuations and so is per capita availability of egg. There has been sudden jump in the per capita availability of egg in the year 2000-01 which registered 36 eggs per annum from 30 eggs per annum in the year 1999-2000 as depicted in **Graph 4.2**. Thereafter from 2000-01 to 2003-04, there is a marginal increase in the per capita availability of egg and further there is a substantially increasing trend has been observed in the per capita availability of eggs from 2004-05 to 2011-12. As a result the per capita reached 55 eggs per annum in the year 2011-12 from 53 eggs per annum in the year 2010-11.

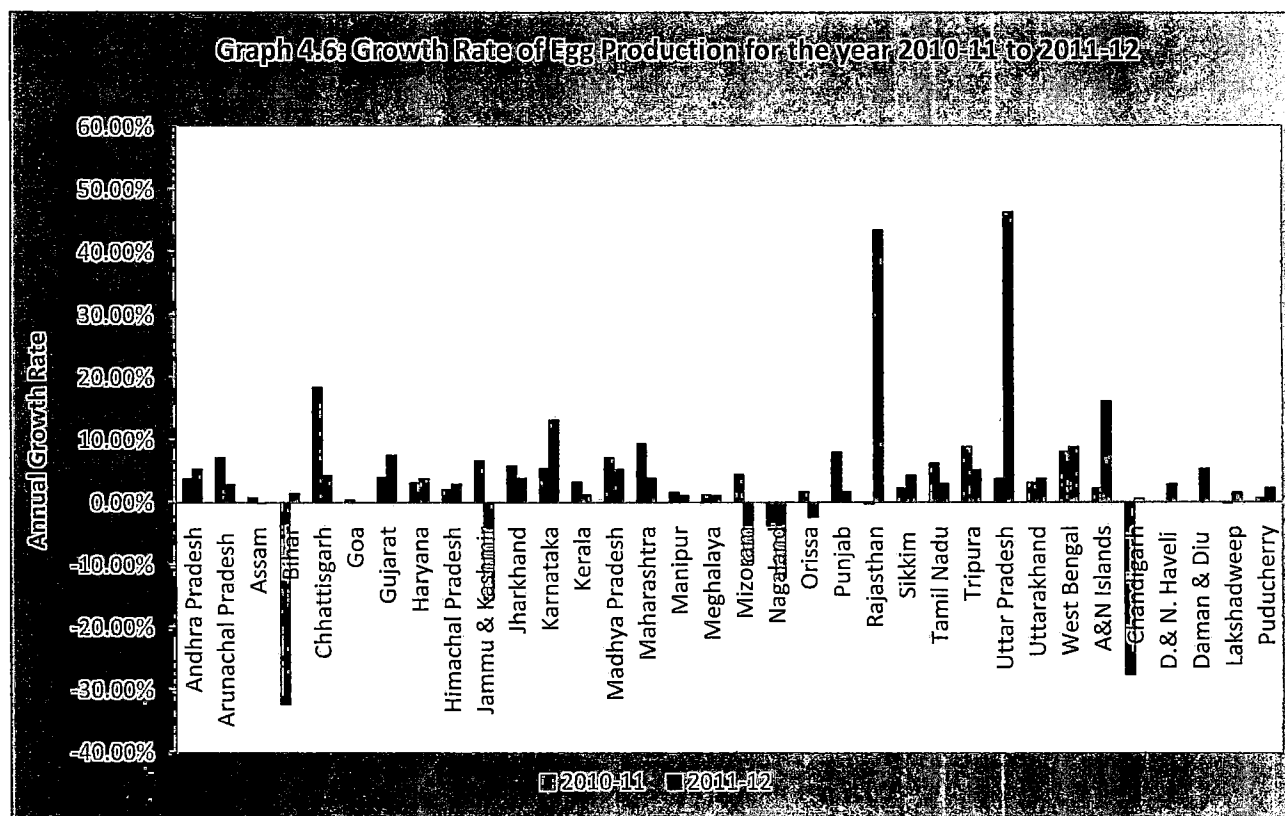

There has been a significant change in production of egg during 11th Five Year Plan which can be seen in **Graph 4.3 & Graph 4.4**. In the 11th five year plan i.e. 2007-08 to 2011-12, the production of egg rose from 53583 million to 66450 million with an average annual growth rate of 5.53 %. However, the growth rate was at 5.76% in the beginning of 11th five year plan which reduced to 5.44% in the year 2011-12 with a highest growth rate registered in the year 2009-2010.

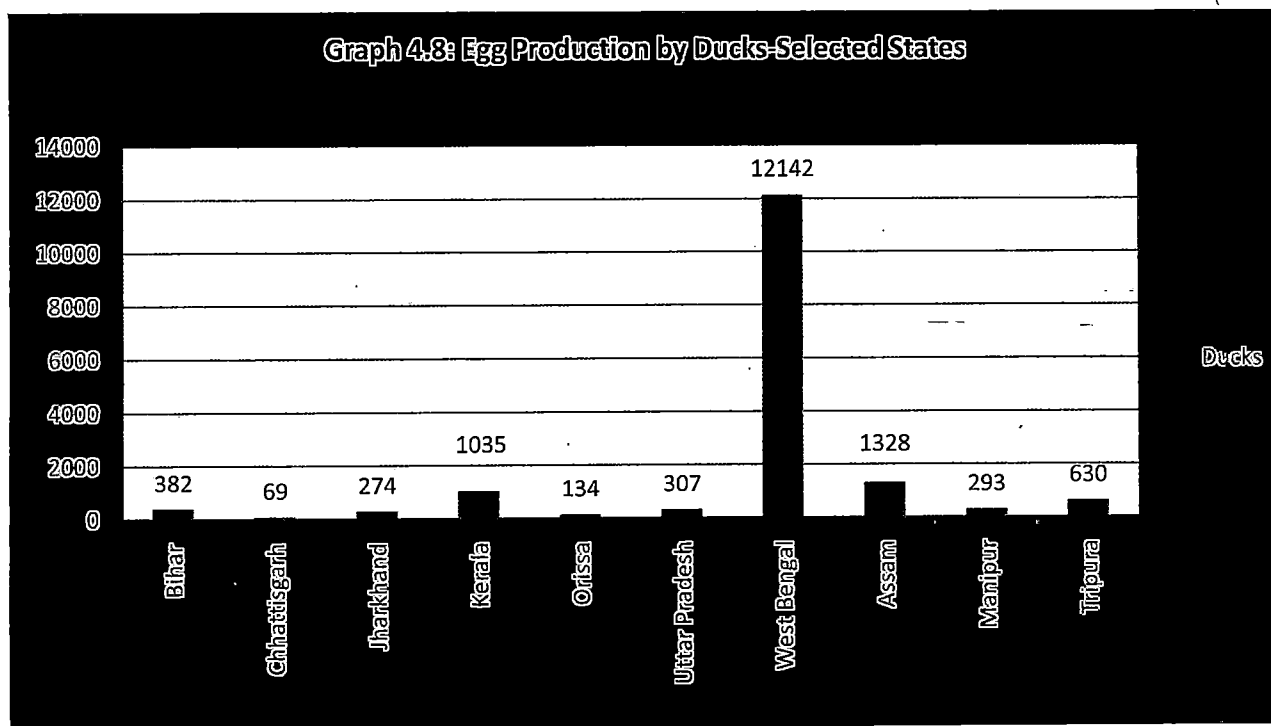

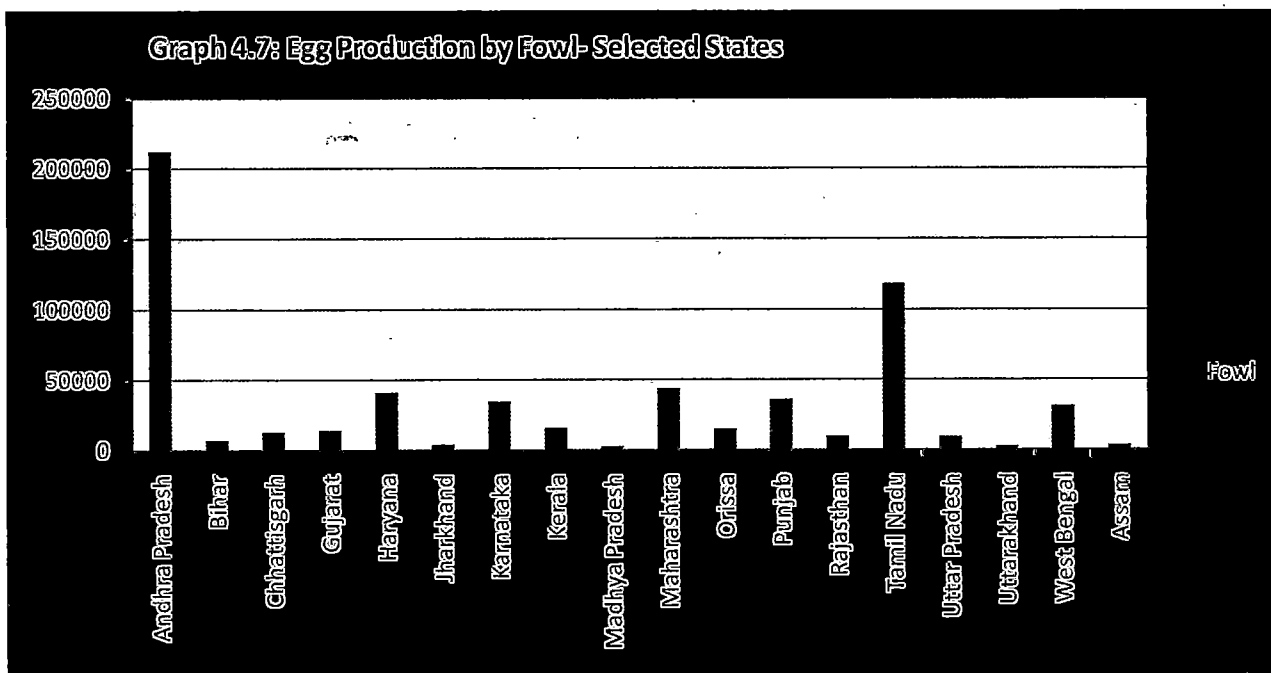

A state-wise analysis as depicted in **Graph 4.5** shows that, during the period 2010-11 to 2011-12 all the states have shown an improved performance in the production of egg. It is clearly seen in the **Graph 4.5** that Andhra Pradesh and Tamil Nadu are the two states which are pioneer in the egg production.

In **Graph 4.6**, during the year 2010-11 and 2011-12, most of the states have variations in their growth rate of egg production over the two years. There are states like Bihar, Jammu & Kashmir, Odisha, Assam, Rajasthan, Nagaland, Mizoram and Punjab which have registered negative annual growth rate in the last two years. In the year 2010-11, Bihar has (-32.32%) the largest negative growth followed by Chandigarh whereas in the year 2011-12, J&K (-15.60%) has the highest negative growth followed by Nagaland. Uttar Pradesh and Rajasthan are the two states whose growth rate was the highest in the country for the year 2011-12 and Chhattisgarh was the highest growth rate achiever in the year 2010-11.

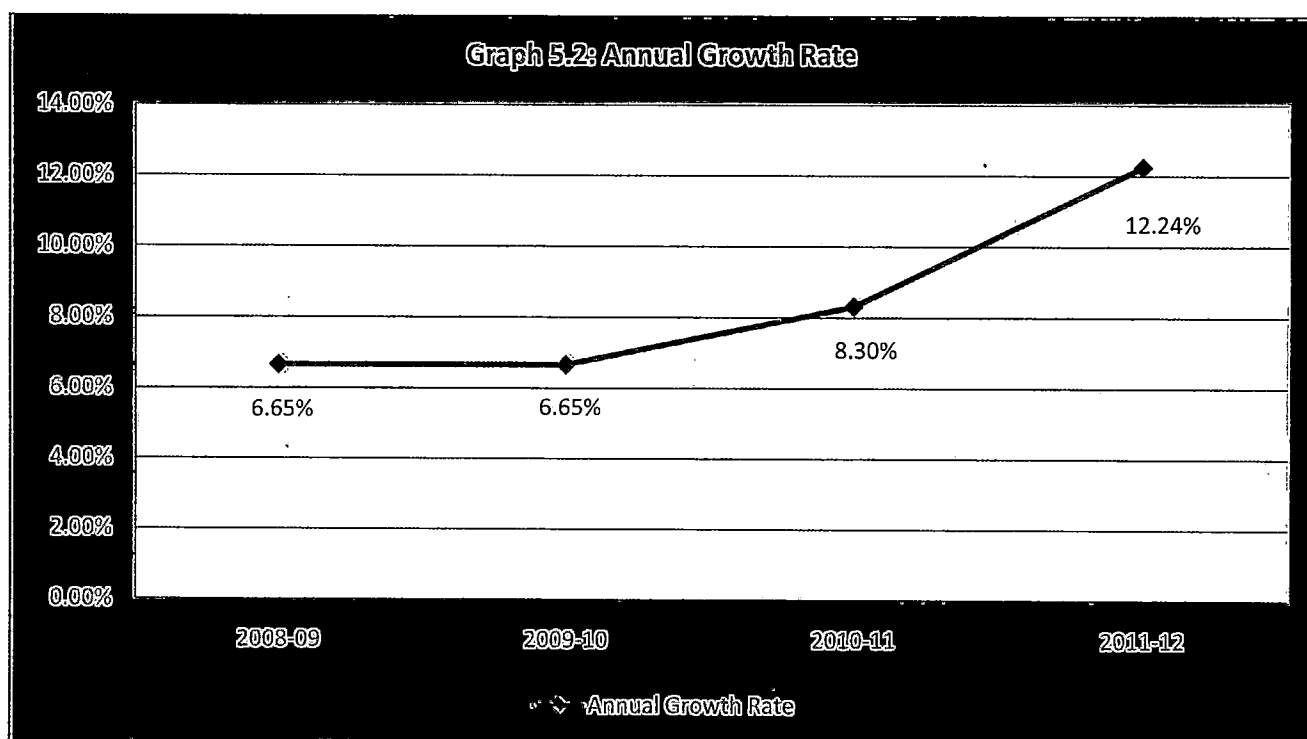

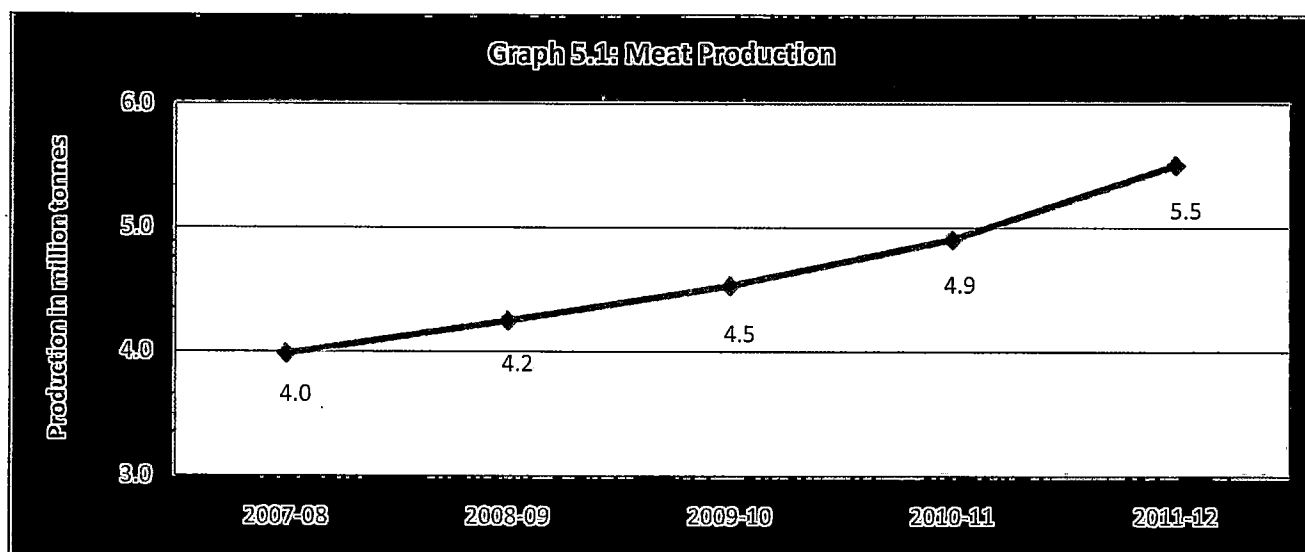

Further, **Graph 4.7 & 4.8** depicts about the share of eggs by Fowls & Ducks. Though Andhra Pradesh is the largest producer of eggs but major contributor is fowl. There are states such as West Bengal, Kerala and North East states where major contribution of egg production is from ducks. West Bengal is the largest producer of eggs by ducks in **Graph 4.8**.

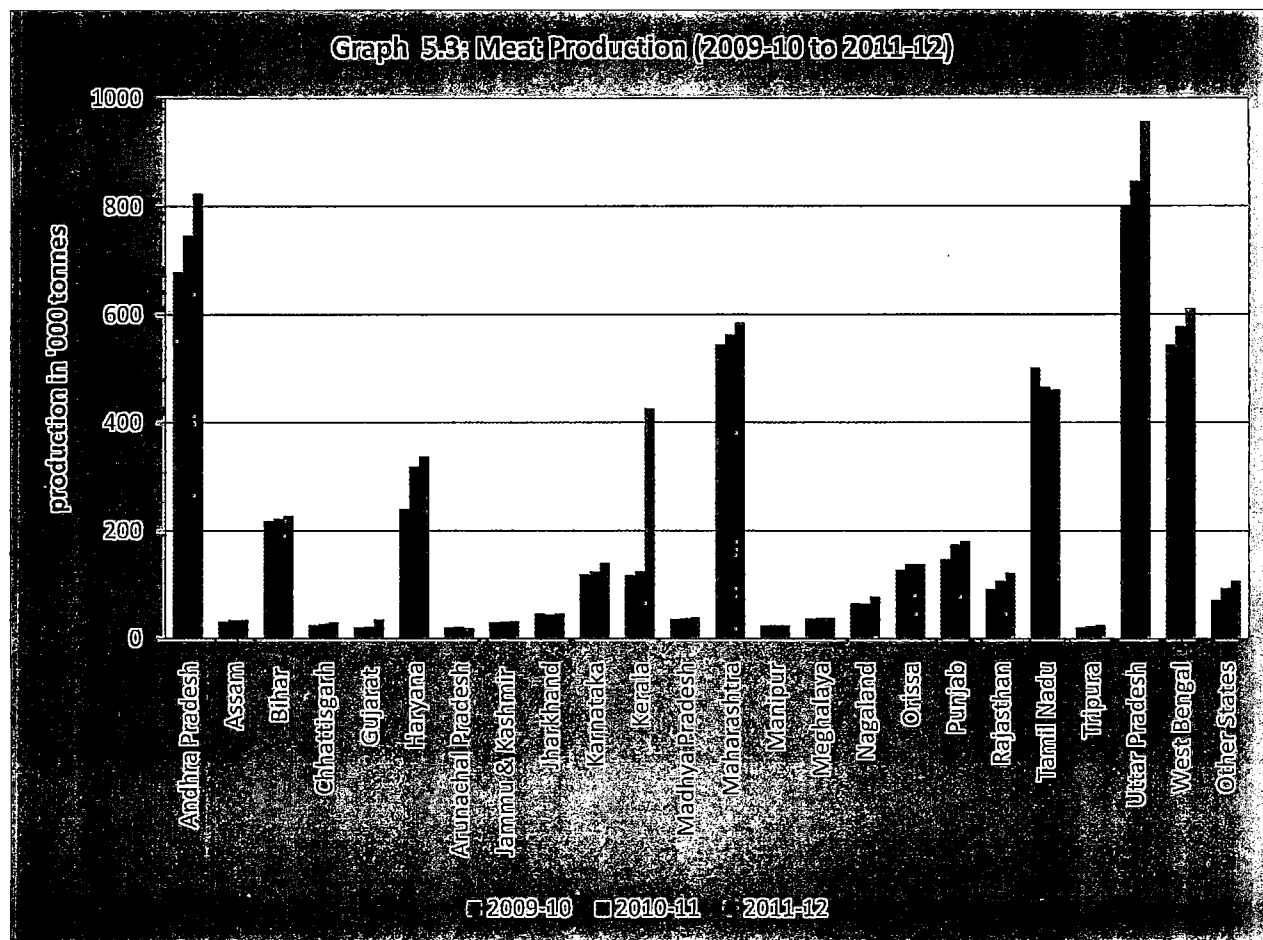

5. MEAT PRODUCTION

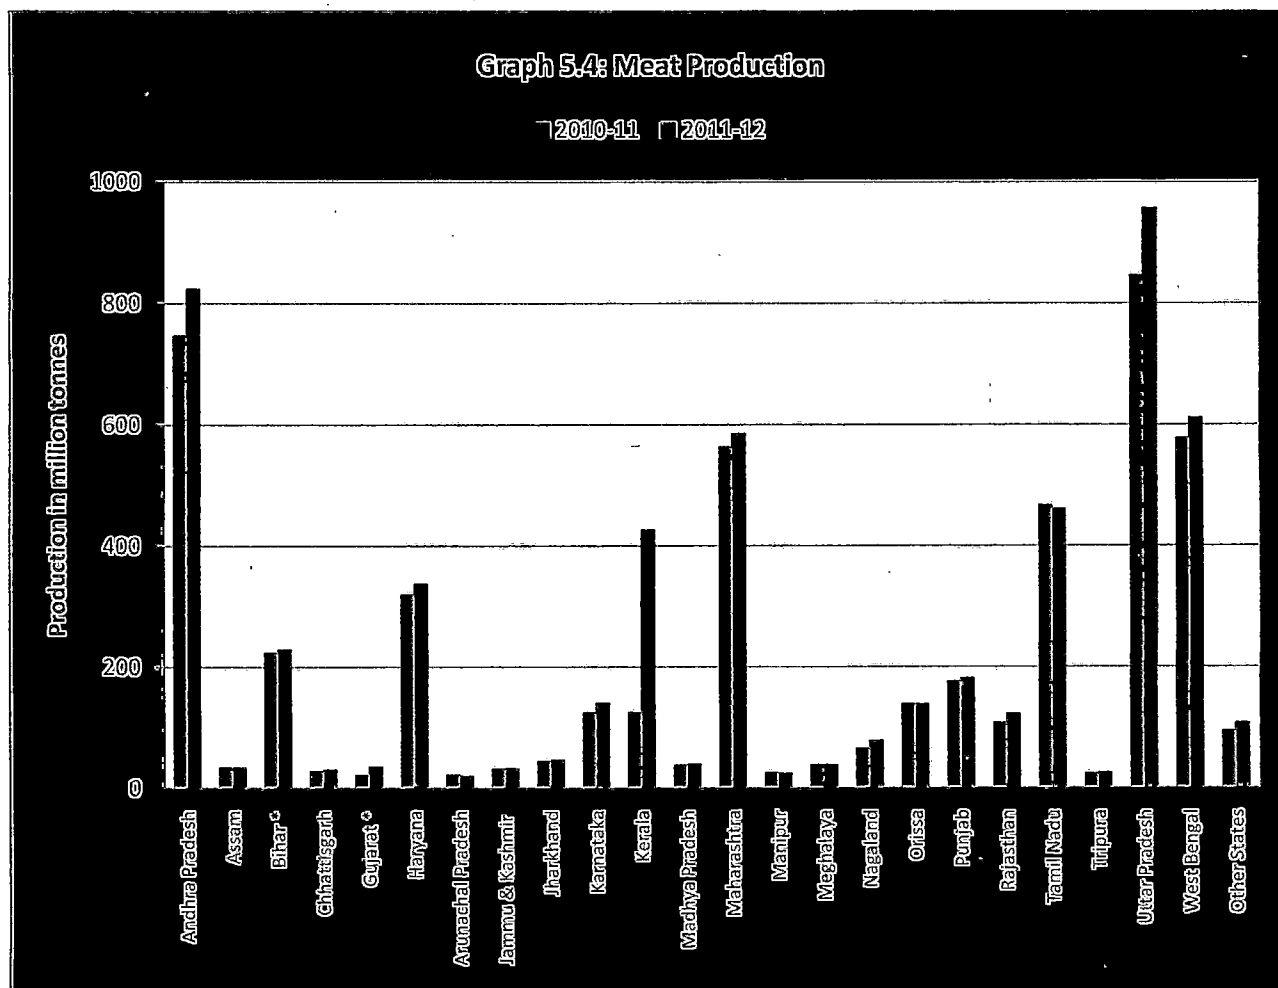

The total meat production in the country was reported as 4.0 million tonnes in the year 2007-08 and the production of meat show an increasing trend during the period 2007-08 to 2011-12 [Graph 5.1]. During the 11th five year plan, an average annual growth rate of 8.44% was registered with an annual growth rate of 12.24% for the year 2011-12. The Graph 5.2 shows that the trend in annual growth rate of meat production during the entire 11th five year plan.

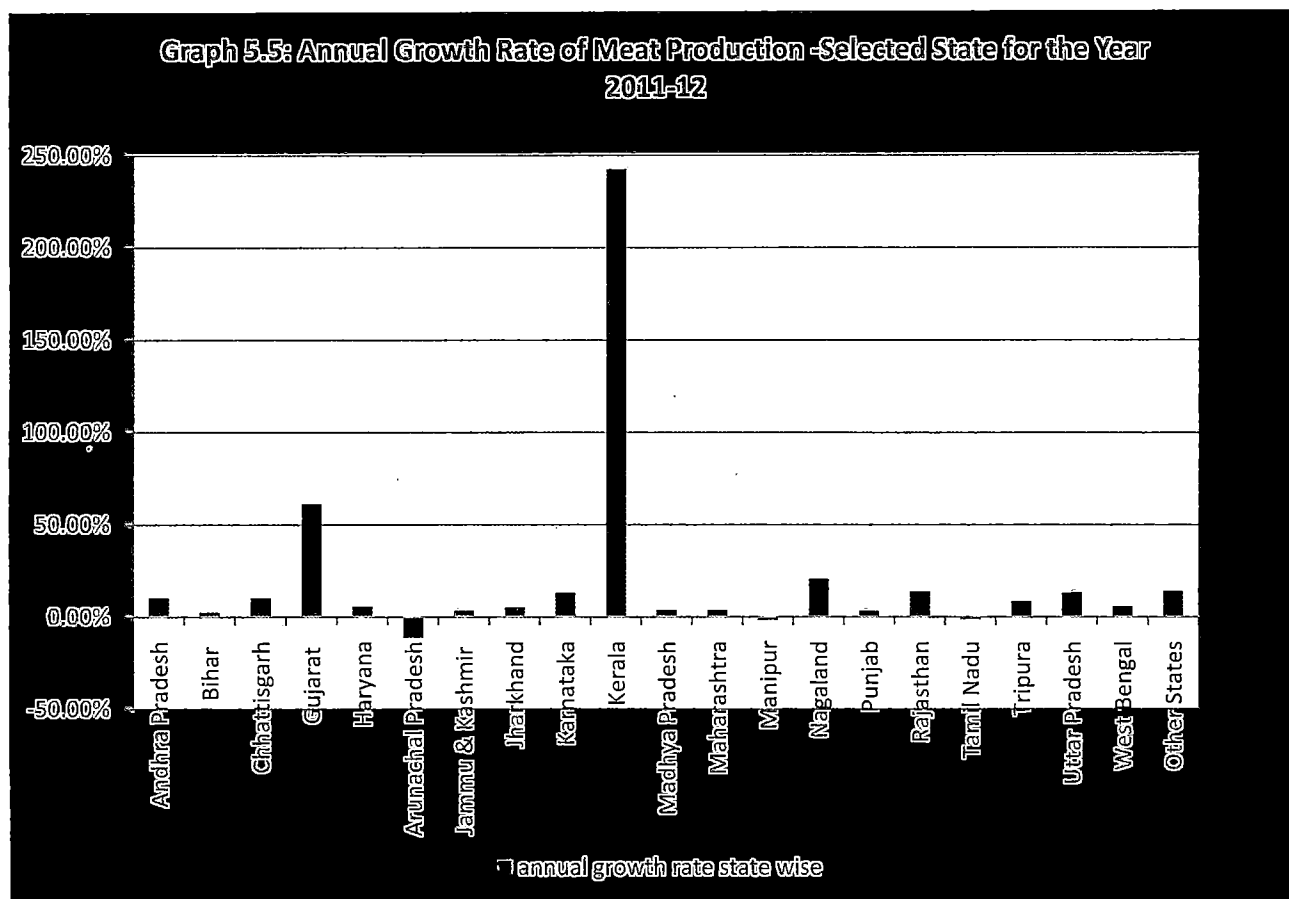

State wise analysis showing the trend in meat production over the period 2009-10 to 2011-12 is shown in the **Graph 5.3**. During these three years, almost all the states have shown an increasing trend in the production of meat. Uttar Pradesh consistently remained in top for all three years in the production of meat followed by Andhra Pradesh.

The **Graph 5.4** shows that the a comparative graph for meat production across all states for the year 2010-11 to 2011-12, There are states such as Uttar Pradesh, Andhra Pradesh, Maharashtra, West Bengal have improved substantially in meat production over the last year Uttar Pradesh remained the largest producer of meat in the country throughout the two year, followed by Andhra Pradesh. West Bengal stood third in the production of the meat.

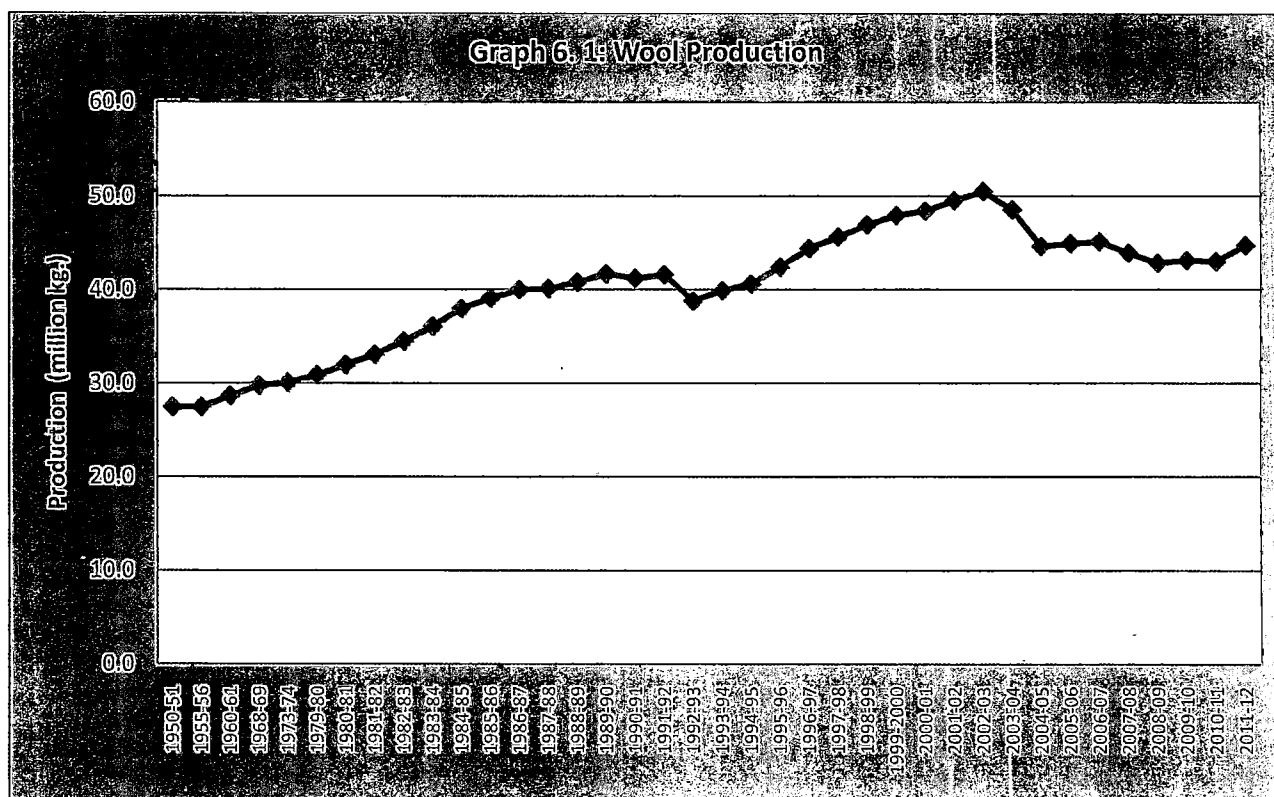

Graph 5.5 shows that the state wise variation in the annual growth rate of meat production during 2011-12. It can be seen that in the year 2011-12, Kerala has the highest annual growth rate among the entire states which is 242.49% followed by Gujarat which has 61.11%, whereas Arunachal Pradesh has the lowest annual growth rate with -11.28%.

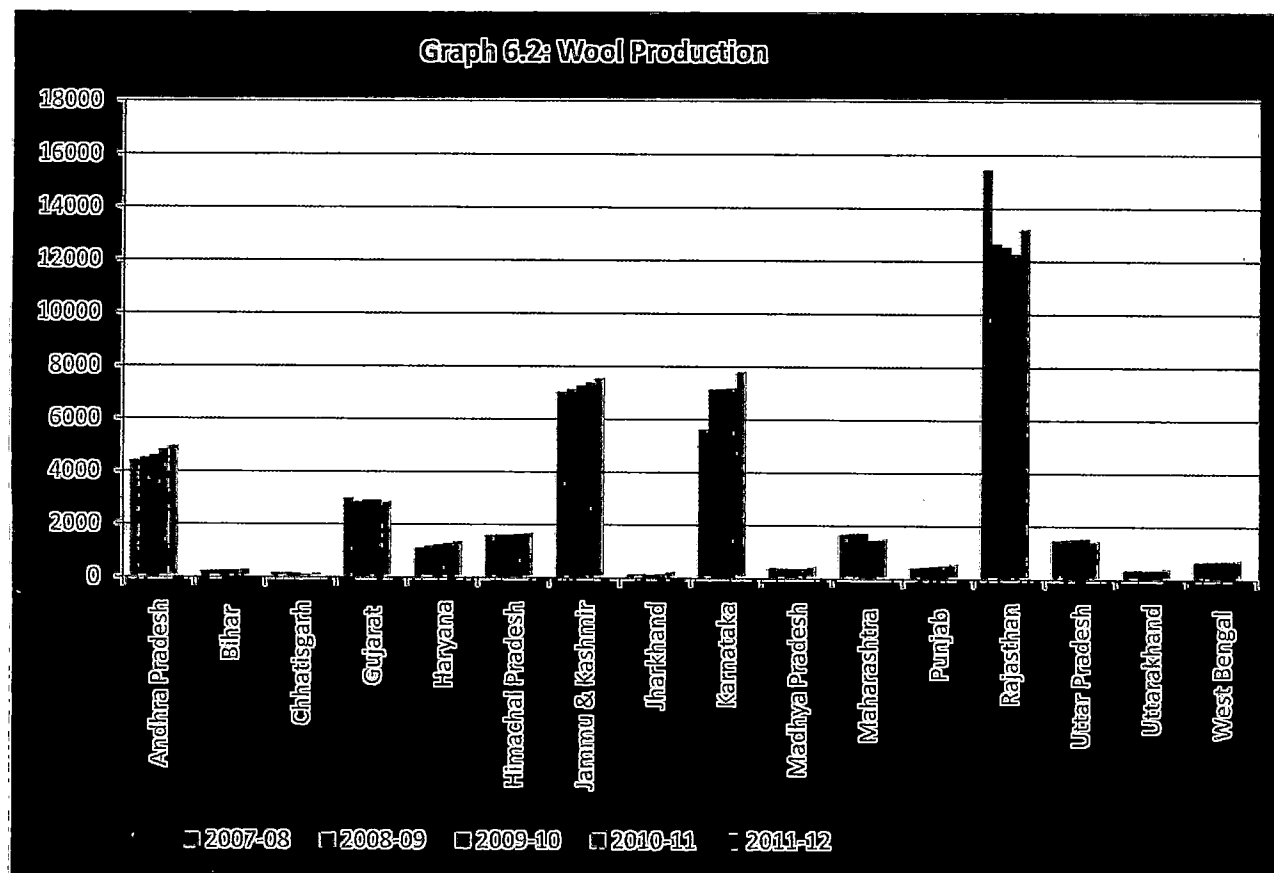

6.WOOL PRODUCTION

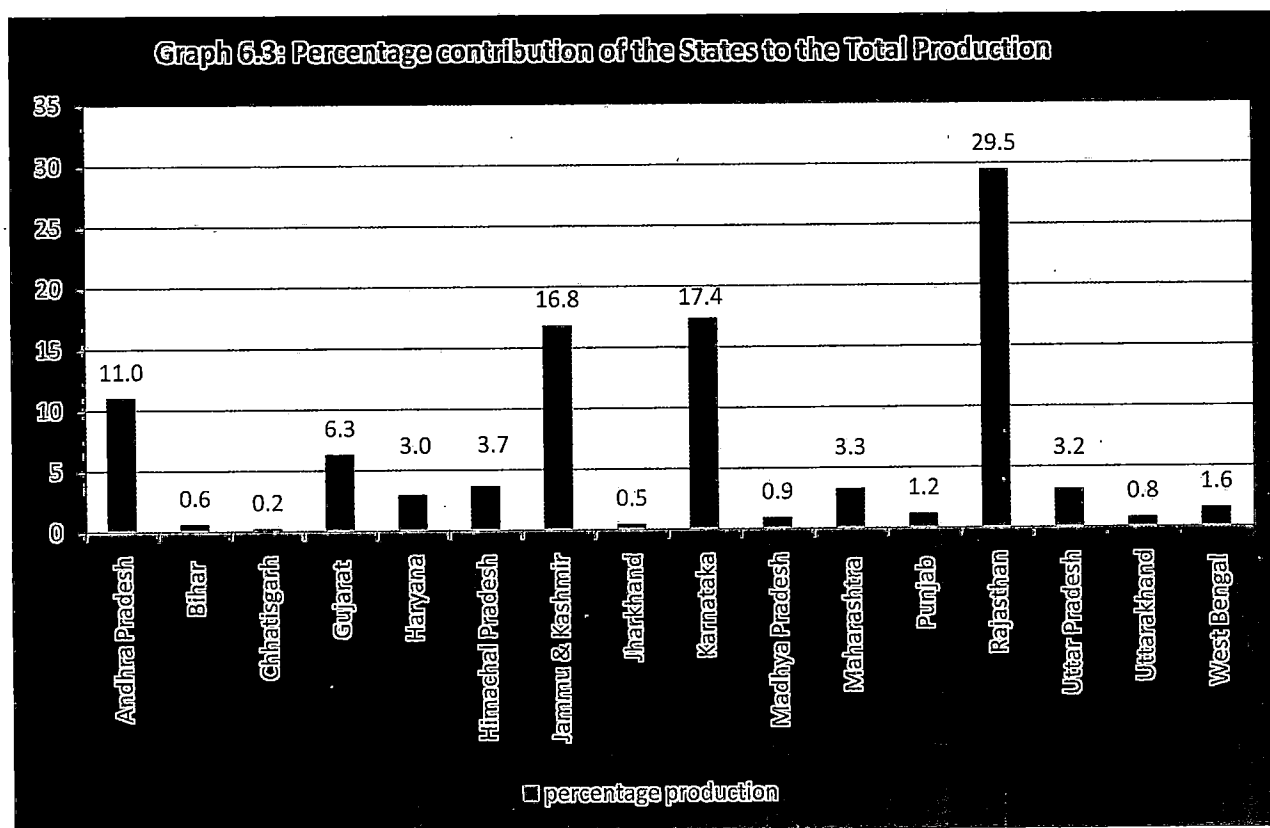

The total wool production in the country was at 27.5 million kg during 1950-51 as in the **Graph 6.1**, there has been consistent increase in production of wool till 1986-87 and thereafter there were marginal reduction in the production estimate till 1992-93. The production has further improved consistently till 2002-03. During the 11th five year plan i.e. (2007-08 to 2011-12), the total wool production has increased with marginal fluctuations from 43.9 million kg in 2007-08 to 44.7 million kg in 2011-12.

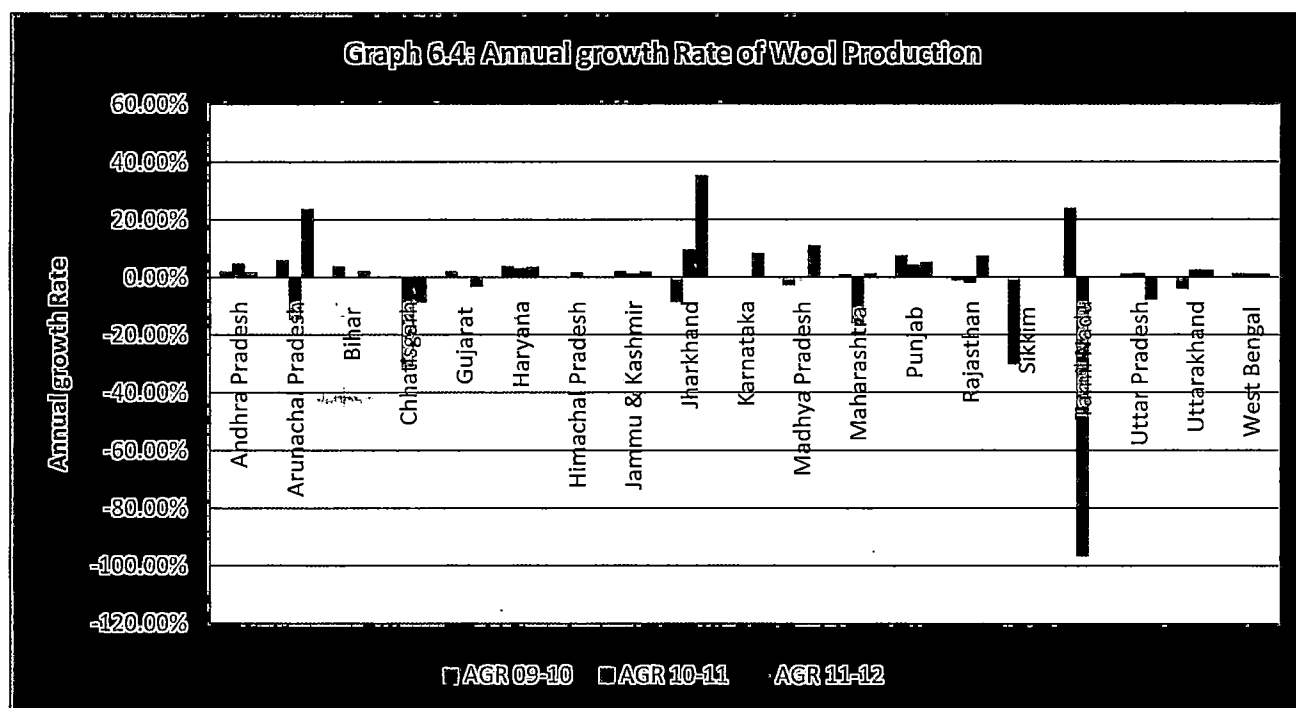

As depicted in **Graph 6.2**, over the period 2007-08 to 2011-12 there has been an increasing trend in the production of wool across various States. Although Rajasthan was the largest producer of wool throughout the 11th five year plan but since 2007-08 onwards its production went down till 2010-11. In the year 2011-12 its production rose to 13192 from 12277 million kg. The states namely Jammu & Kashmir, Andhra Pradesh, Karnataka have shown improved production in wool during 11th five year plan significantly.

In the **Graph 6.3**, Rajasthan is the largest producer of wool in the country which produces 29.49% of the total wool production in the year 2011-12 followed by Karnataka which has a share of 17.39% of the total production. The third largest wool producer state is Jammu & Kashmir which is contributing 16.83% to the total production.

The **Graph 6.4** shows the average annual growth rate significantly varies across the states. The standard Deviation of the annual growth rate of various states for the three year periods i.e. 2009-10 to 2011-12 is given in the table below.

Year	2009-10	2010-11	2011-12
Average Annual Growth Rate (%)	0.49	(-)6.84	4.53
Standard Deviation	9.81	23.67	10.23

The standard deviation of growth rates among states/UTs is minimum in the year 2009-10 and maximum in the year 2010-11 due to a larger negative variation in the production of wool for the State of Tamil Nadu in the year 2010-11. The states such as Andhra Pradesh, Bihar, Haryana, Jammu & Kashmir, Punjab and Karnataka which have maintained a positive growth rate over the period of three years with marginal variations in the production of wool. On the other hand, the states such as Tamil Nadu, Sikkim, Arunachal Pradesh, Jharkhand, Chhattisgarh and Maharashtra have shown negative growth rate over the period of three years.

PART I

MILK PRODUCTION

TABLE 1 : Estimates of Production and Per Capita Availability of Milk: 1950-51 to 2011-12 - All India

Year (March to February)	Milk Production (million tonnes)	Human Population (Million nos.)	Per Capita Availability (gram./day)
1950-51	17.0	359	130
1955-56	19.0	393	132
1960-61	20.0	434	126
1968-69	21.2	518	112
1973-74	23.2	580	110
1979-80	30.4	664	125
1980-81	31.6	679	128
1981-82	34.3	692	136
1982-83	35.8	708	139
1983-84	38.8	723	147
1984-85	41.5	739	154
1985-86	44.0	755	160
1986-87	46.1	771	164
1987-88	46.7	788	162
1988-89	48.4	805	165
1989-90	51.4	822	171
1990-91	53.9	839	176
1991-92	55.7	856	178
1992-93	58.0	872	182
1993-94	60.6	892	186
1994-95	63.8	910	192

TABLE 80 : Human Population 1901-2011

Year	Population	Decadal Growth Rate (%)	Average Annual Exponential Growth Rate (%)	Progressive Growth Rate over 1901 (%)
1901	238,396,327	-	-	-
1911	252,093,390	5.75	0.56	5.75
1921	251,321,213	(-) 0.31	(-) 0.03	5.42
1931	278,977,238	11	1.04	17.02
1941	318,660,580	14.22	1.33	33.67
1951	361,088,090	13.31	1.25	51.47
1961	439,234,771	21.64	1.96	84.25
1971	548,159,652	24.8	2.2	129.94
1981	683,329,097	24.66	2.22	186.64
1991	846,302,688	23.87	2.16	255.05
2001	1,028,737,436	21.54	1.97	331.52
2011*	1,210,193,422	17.64	1.64	407.64

Notes In working 'Decadal Growth and 'Percentage Growth'. For India 1941-51 and 1951-61 the population of Tuensang district for 1951 (7.25) and the population of Tuensang (83,501) and Mon (5,774) districts for 1961 Census of Nagaland state have not been taken into account as the area were censused for the first time in 1951 and the same are not comparable.

1. In 1981, census was not conducted in Assam, Based on the 1971 results and the final 1991 census the population of Assam as on March 1, 1981 has been interpolated.

2. The 1991 census has not been conducted in Jammu & Kashmir. Hence the population figures for India include the population figure for J & K projected by the Standing Committee of Experts on population projections (October, 1989)

3. Includes estimated population of Paomata, Mao Maram and Purul sub-divisions of Senapati District of Manipur for 2007.

4. Includes estimated population of Paomata, Mao Maram and Purul sub-divisions of Senapati District of Manipur for 2011.

5. The percentage decadal growth show in column 4 of Statement 2 indicates a decline from 24.80 percent during the decade 1961-71 to 24.66 percent during the decade 1971-81, while the average annual exponential growth rate presented in column 7 of this statement shows an increase from 2.20 to 2.22. This is because the percent decadal variation has not been adjusted for the shift in reference data in 1971. The decadal variation for 1961-71 related to 121 months while that 1971-81 relates to 119 months. If we adjust for the difference, the percentage decadal growth works out to 24.59 percent for 1961-71 and 24.87 percent for the decade 1971-81.

6. The 1971 census was conducted with 1 April, 1971 as the reference date. In both the 1961 and 1981 censuses the reference date was 1 March. The average annual exponential growth rate presented in the statement takes into account this difference. No such adjustment has been made while calculating decadal growth rate.

7. In Arunachal Pradesh the census was conducted for the first time in 1961. While working out the decadal growth, both absolute as well as per cent for 1951- 61, 1961 census population of Arunachal Pradesh has been excluded. * Census figures are provisional.

TABLE 81: Sex Ratio 1901-2011

Census Year	Sex Ratio (no. of females for 1000 males)
1901	972
1911	964
1921	955
1931	950
1941	945
1951	946
1961	941
1971	930
1981	934
1991	927
2001	933
2011*	940

Note:

1. 1981- Includes interpolated population of Assam.
2. 1991- The 1991 census was not held in J & K . For working out sex ratio for India the population for J & K as projected by the Standing Committee of Experts on Population Projections (October, 1989) has been taken
3. The figures for India and Manipur, include by sex, the estimated population of Paomata, Mao Maram and Pural sub- divisions of Senapati district of Manipur for Census 2001 and 2011.

TABLE 82: Literacy Rate : 1951-2011

Year	Persons	Males	Females
1951	18.33	27.16	8.86
1961	28.3	40.4	15.35
1971	34.45	45.96	21.97
1981	43.57	56.38	29.76
1991	52.21	64.13	39.29
2001	64.83	75.26	53.67
2011*	74.04	82.14	65.46

Note: 1951- Excluding the population of J & K, Puducherry and NEFA, D & N. Haveli and Goa, Daman & Diu.

1961- Excluding Goa, Daman & Diu, NEFA. 1981- Excluding Assam 1991- Excluding J & K.

* 2011 census figures are Provisional

1. Literacy rate for 1951, 1961 and 1971 relate to population aged five years and above. The rate for the years 1981 and 1991 relate to the population aged seven years and above. The literacy rate for the population aged five years and above in 1981 has been shown in brackets.

2. The 1981 rates exclude Assam where the 1981 census could not be conducted. The 1991 census rate excludes J & K where census could not be undertaken.
