II. Sanitary Conditions:

The undersigned Official Veterinarian certifies that the products described above satisfy the following requirements:

1. The bovine/porcine bones/hides/skins used to manufacture the above product (Gelatine) are derived from country, namely _____
2. The products originate from animals which had undergone ante- and post-mortem inspections, which have been slaughtered for human consumption at an abattoir approved by the National Veterinary Authority of the country of origin in accordance with WOAHA Chapter 6.3 with favourable results and shows no clinical sign of any infectious and contagious diseases related to the source animal species including Anthrax, Foot and Mouth Disease, Lumpy Skin Disease, Swine Influenza, African Swine Fever, Classical Swine Fever, Swine Brucellosis, Porcine Reproductive and Respiratory Syndrome.
3. The raw material came from the animals which have not been kept in the infected zone and establishment for the diseases related to source animal species including Anthrax, Foot and Mouth Disease, Lumpy Skin Disease, Swine Influenza, African Swine Fever, Classical Swine Fever, Swine Brucellosis, Porcine Reproductive and Respiratory Syndrome.
4. The raw material have not been derived from the source animal species slaughtered/culled as part of an eradication/control program for any disease related to source animal species including Anthrax, Foot and Mouth Disease, Lumpy Skin Disease, Swine Influenza, African Swine Fever, Classical Swine Fever, Swine Brucellosis, Porcine Reproductive and Respiratory Syndrome.
5. The raw material is obtained from the animals that did not show any sign of diseases communicable to humans or animals including Anthrax, Foot and Mouth Disease, Lumpy Skin Disease, Swine Influenza, African Swine Fever, Classical Swine Fever, Swine Brucellosis, Porcine Reproductive and Respiratory Syndrome and other diseases related to the source animal species during ante mortem examination.
6. The raw material is processed and treated with approved treatment method in premises controlled and approved by Veterinary Authority of country of origin to ensure the destruction of virus/organisms related to source animal species.
or
Gelatine obtained is produced by physical process which includes heat treatment at 80°C for 4 hours.

7. The bones/ hides / skins and the final product have not been co-mingled with other tissues and material posing risk of contamination during collection, processing storage and transport.
8. The finished product is packed in new, fresh, clean packing material and the materials are not exposed to any products with potential source of infectious materials.
9. The detailed records of sourcing and processing of raw materials used in gelatin production has been maintained by exporter.
